Preface

There is no doubt that establishing a comprehensive and detailed statistical database for any economic activity is considered a prerequisite for planning and formulating policy aimed at the development and improvement of its performance. Naturally this applies for economic activities which are paid special attention in most modern economies all over the world.

The Palestinian Central Bureau of Statistics is pleased to issue the revised time series which covers most of the economic activities operating in the Palestinian Territory (industry, constructions, internal trade, services, transport storage & communications).

The revised time series depended on the results of the Establishments census results that was implemented in the Palestinian Territory in 1997, 2004, 2007 to obtain accurate time series data about economic activities.

This report includes statistical tables which present the revised time series findings for the West Bank and Gaza Strip (WBGS).

Economic surveys in their various fields constitute the basic pillar for the compilation of National Accounts for Palestine. It is hoped that these surveys will also fulfill the various needs and expectations of users in both private and public sectors.

May, 2009

Executive Summary

The main objective of the revised time series 1998-2006 was to obtain statistical data on the main economic indicators: number of enterprises, persons engaged, value of output, intermediate consumption. This data is important for Planners, decision makers, and it is the basis for preparing the National Accounts.

During this series the number of enterprises in the Palestinian Territory is distributed as follows through the years:

Year	No. of Enterprises
1998	71,703
1999	74,144
2000	79,015
2001	81,136
2002	83,715
2003	85,191
2004	84,554
2005	94,121
2006	94,827

On the other side, the main findings show that the value of output in the Palestinian Territory as follows:

(Value in million US \$)

Year	Output Value
1998	3,249.0
1999	3,524.4
2000	3,762.7
2001	2,827.2
2002	2,322.9
2003	2,843.6
2004	3,380.3
2005	3,799.7
2006	4,218.4

Regarding the other economic indicators, the survey results indicate that the gross value added in the Palestinian Territory as follows:

(Value in million US \$)

Year	Gross Value Added
1998	1,827.2
1999	1,978.2
2000	2,008.7
2001	1,460.4
2002	1,250.6
2003	1,577.8
2004	1,865.2
2005	2,116.0
2006	2,497.7

Chapter One

Introduction

National statistical offices in most countries place heavy emphasis on constructing databases for all economic activities. PCBS initiated the economic surveys series in the reference year 1994. These series include surveys on the industry, services, internal trade, construction-contractors, and transport and storage sectors. PCBS issued the revised time series reports for all activities according to time series data from the year 1998-2006.

1.1 Objectives

The objectives of the survey were to obtain data on:

1. Number of enterprises and persons engaged in economic activities by activity.
2. Value of output, intermediate consumption.
3. Value added components.
4. Payments and transfers.
5. Assets and capital formation.
6. Contribution of the surveyed activities to the GDP and other national accounts variables.

1.2 Report Structure

The report is divided into five chapters as follows:

- **Chapter One:** Comprises an introduction to the economic survey including survey's program, objectives, and report structure.
- **Chapter Two:** Defines the main concepts and terms used in the report with a brief description for each of them.
- **Chapter Three:** Presents the most prominent findings of the revised series
- **Chapter Four:** Discusses the methodology and mechanism of the revised series.
- **Chapter Five:** Addresses the quality of the data and findings through discussing the main remarks comments and remarks on the tables.
- **Statistical Tables:** The tables included in this report represented on Remaining West Bank and Gaza Strip and Palestinian Territory.

Chapter Two

Concepts and Definitions

Institutional Unit-Enterprise:

It is an economic entity that is capable, in its own right, of owning assets, incurring liabilities and engaging in economic activities and in transactions with other entities.

Persons Engaged:

Males and females working in the enterprise including owners, self-employed, unpaid family members, or waged workers who receive their compensations in cash or in kind during a specific reference period. However, this term does not include trainees or those on assignments outside the enterprises or in long unpaid leaves.

Production:

It is the value of the final products of goods and services produced by a certain establishment which is used by other units for self-consumed or for the purposes of self gross fixed capital formation. Production includes two categories: Final products and the so-called (under operating products). Production can be classified as follows: Market outputs, Outputs of private account, and Other non-market outputs.

Intermediate Consumption:

It is the value of the goods and services consumed as inputs, used up or transformed during the production process. It is measured during a specific period in time in a way similar to measuring production. Intermediate consumption is estimated by purchase price, which is defined as the producers' price plus transportation and wholesale and retail trade margins. The value of the gross intermediate consumption on the level of the total economy is the same whether calculated by purchase or producers' price. However, on the detailed level, the two evaluations vary.

Value Added:

Value added is a central concept of production and refers to the generated value of any unit that carries out any productive activity. Gross value added is defined as the value of gross production less the value of intermediate consumption.

Compensations of Employees:

Compensation of employees is the total remuneration, in cash or in kind, including social security contributions, payable by an enterprise to an employee in return for work done by the latter.

Depreciation:

It is the value of the assets which can be reproduced and depreciated during the year, depreciation is calculated on the current substitutive value.

Gross Fixed Capital Formation:

It is the value of what producers own less what they spend on new and used capital goods.

Taxes on Product:

Those are taxes that are compulsory cash or in kind payments payable by producers to the general government. It consists of taxes on products payable on goods and services at

production, sale, or exchange and other taxes payable on production by resident producers as a result of carrying out the production process

Remaining West Bank:

The West Bank excluding that part of Jerusalem which was annexed after the 1967 occupation by Israel.

Main Economic Activity:

Is a process or group of transactions that produce specific group of products.

Calculation of Statistical Indicators

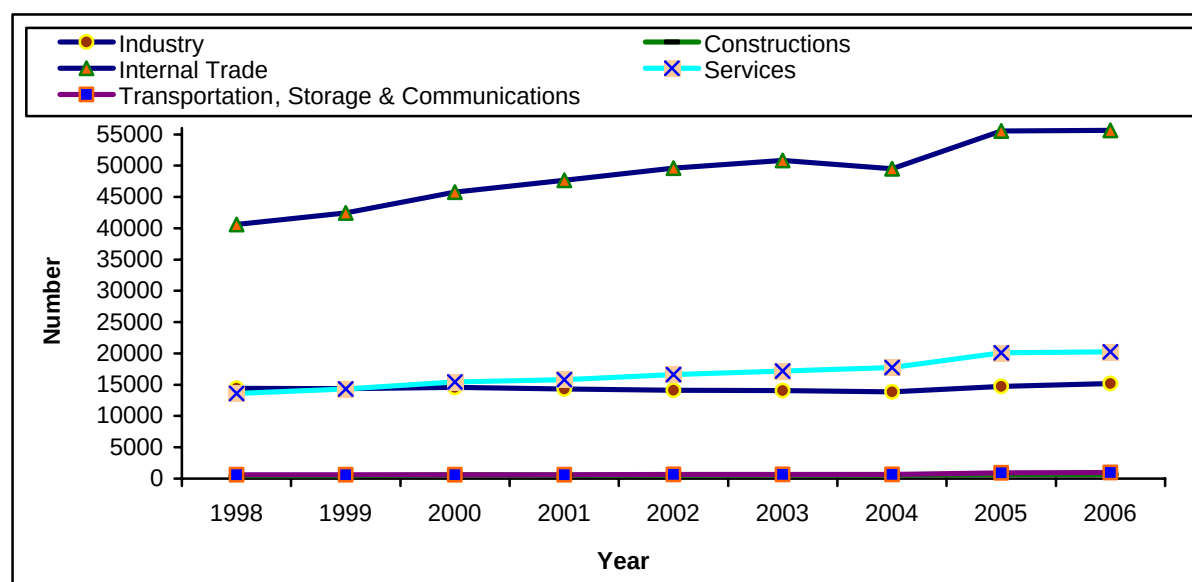

1. Annual consumption per paid employee = $\frac{\text{Compensation of Employees}}{\text{No. of paid employees}}$
2. Output per person engaged = $\frac{\text{Output}}{\text{Persons engaged}}$
3. Output per paid employee = $\frac{\text{Output}}{\text{No. of paid employees}}$
4. Value added per person engaged = $\frac{\text{Value added}}{\text{No. of persons engaged}}$
5. Value added per paid employee = $\frac{\text{Value added}}{\text{No. of paid employees}}$
6. Value added to output = $\frac{\text{Value added}}{\text{Output}} \times 100$
7. Compensation of employees to value added = $\frac{\text{Compensation of employees}}{\text{Value added}} \times 100$
8. Depreciation to output = $\frac{\text{Annual depreciation}}{\text{Output}} \times 100$

Main Findings

3.1 Number of Enterprises:

The revised results show that the number of enterprises in 1998 in economic activities in the Palestinian Territory, was 71,703. In 1999 the number of enterprises increased by 3.4% compared with 1998, and in the year 2000 the number of enterprises increased by 6.6% compared with the previous year, in 2001 the number of enterprises increased by 2.7%, and in 2002 the increases in the number of enterprises reached 3.2% in compared with 2001, in 2003 the number of enterprises increased by 1.8% compared with 2002, in 2004 the number of enterprises decreased by 0.8% compared with 2003, during 2005 and 2006 the number of enterprises back to increased by 11.3% and 0.8%, respectively .

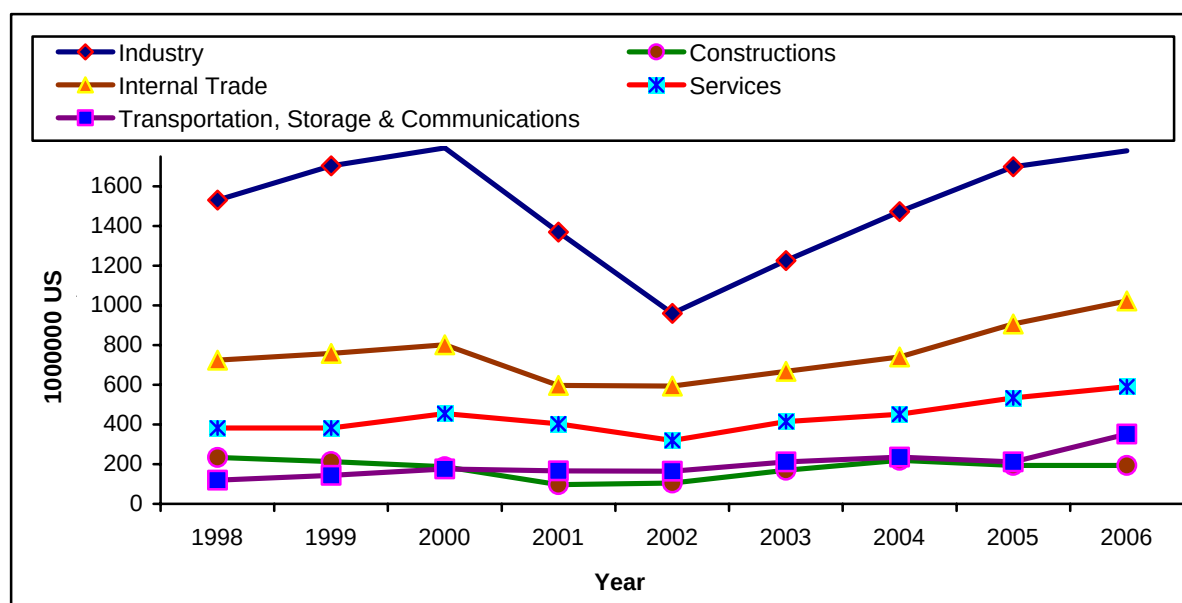

Figure (1): Number of Enterprises in the Palestinian Territory by some Main Economic Activities and Year

3.2 Output:

The results show that the value of output for the main economic activities in the revised time series; in the Palestinian Territory in 1998 was US\$ 3,249.0 million, in 1999 this value of output increased by 8.5% compared with 1998, in 2000 the value of output increased by 6.8% compared with the previous year, but in 2001 this value decreased by 24.9% compared with 2000, the value of output continued to decrease in 2002 to reach 17.8% compared with 2001, in 2003 the value of output Increased by 22.4% compared with 2002, in 2004 the value of output increased to reach 18.9% compared with 2003, in 2005 compared with 2004 the percentage of increase was 12.4%, finally in 2006 compared with 2005 the results indicates that the value of output increased by 11.0%.

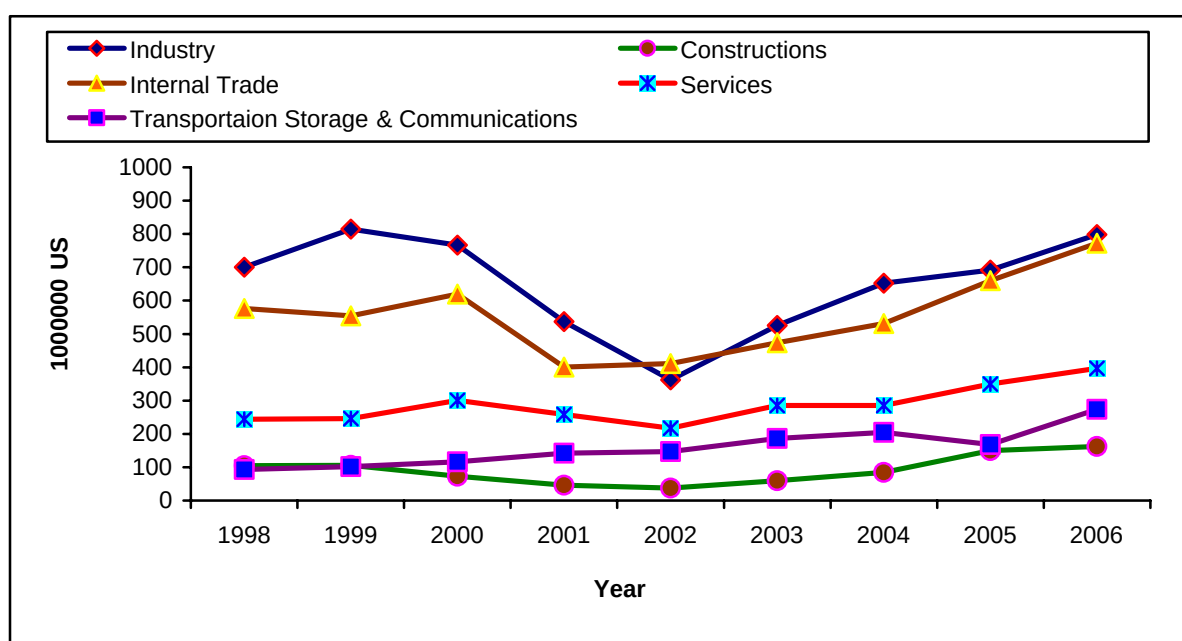

Figure (2): Output Value in the Palestinian Territory by some Main Economic Activities and Year

3.3 Value Added:

The revised results indicate that the value added in the Palestinian Territory for 1998 was US\$ 1,827.2 million, this value increased by 8.3% in 1999, and in 2000 the value added increased by 1.5% compared with the previous year, however, the value added decreased by 27.3% in 2001 compared with 2000, and the results indicate that this decrease continued in 2002 to reach 14.4% compared with 2001, in 2003 the revised results show that the value added in this year compared in the previous year increased by 26.2%, in 2004 the results indicate an increase in the value added by 18.2% compared with 2003, but in 2005 the percentage of value added increased by 13.5% compared with 2004, comparing 2006 with 2005 the result show that this percentage increased by 18.0%.

Figure (3): Gross Value Added in the Palestinian Territory by some Main Economic Activities and Year

Methodology

4.1 Coverage:

The revised time series of the economic survey were executed depending on the establishment census 1997,2004,2007. The economic surveys series covers activities in accordance with (ISIC-3):

- Industry: (C, D, E)
- Construction: (F)
- Internal Trade: (G)
- Services: (H, K, M, N, O)
- Transport, Storage and Communication: (I)

4.2 The Revised Mechanism:

1. The revised time series of the economic activities (industry, construction, internal trade, services, transport, storage and communication) depending on: the Establishments Census 2004 and 1997, the number of enterprises distributed according to establish year from the census 2004, and treated with the accumulative number for every year, and then calculating the percentage change between the establishments census 2004 and 1997, and so depending on the economic activities for these enterprises, in addition to the region level and the employment size in the enterprises.
2. The revised time series of the 2005 and 2006 depends on the Establishments Census 2007, 2004, then the number of enterprises distributed according to the establish year from the Establishments census 2007, and treated with the accumulative number for every year, and then calculating the percentage change between the establishments census 2007 and establishments census 2004 to the revised data for 2005-2006, depending on the economic activities for these enterprises, in addition to the region level and the employment size in the enterprises.
3. The large enterprises (enterprises which have a large number of employees, and high values of output and value added) the weight of these enterprises remains constant.

Chapter Five

Data Quality

5.1 Accuracy of Data:

The revised time series of the economic activities depends on the establishments census 1997, 2004, 2007- a harmonious time series since 1998 until 2006 to get better results of the revised time series, so we revised these activities alone. The three levels were used to efficient representatives (economic activity, size of employment and region).

5.2 Notes on Data:

1. Differences of results of certain indicators can be noticed due to approximation.
2. Note that there are some economic activities (reduce second digit of ISIC) for which data has been collected with the previous activity, due to maintain the confidentiality of data provided by the law of statistics for 2000.
3. The currency exchange rate to US\$:

Exchange rate to US\$ by Year

Year	US \$ / NIS	US \$ / JD
1998	3.8081	0.7112
1999	4.1459	0.7093
2000	4.0783	0.7094
2001	4.2088	0.7097
2002	4.7326	0.7106
2003	4.5512	0.7088
2004	4.4782	0.7091
2005	4.4843	0.7086
2006	4.4545	0.7078
