Acknowledgment

Without the efforts spent by the team who worked on producing this manual and the cooperation of all departments in PCBS, it was impossible to bring it into light. The Palestinian Central Bureau of Statistics extends its deep thanks to all Team Work members who participated in preparing this manual and everyone who contributed to completion.

Preface

In the framework of its permanent and organized endeavor to promote and consolidate the Palestinian statistics system on strong bases, Palestinian Central Bureau of Statistics (PCBS) perseveres on hard and purposeful work, to improve the quality of statistical work and its outputs to the best levels, and in all fields. PCBS represented by top management, believes in the importance of standardization and unification of statistical concepts if it is required to this Palestinian institution to move forward guided with clear strategy toward the desired goal, which is to build and consolidate the Palestinian statistics system.

PCBS worked since the beginnings, on the commitment to scientific principles armed by the latest technologies available to counteract (with ability witnessed by everyone) the production of the correct and accurate statistical indicators, on time, and present them to decision-makers and all users in order to be its contribution the required efficiency and milestone value in servicing building and progress.

In this context PCBS is issuing the manual of statistical indicators which provides to public and decision-makers, believing in the importance to offer such manuals in the hands of all partners within the circle of interest in statistical work. This does not mean the absence of the contents of this manual previously, but as the observer will see that the Manual has been enriching of most important requirements of knowledge about the statistical indicator in terms of adding the definition, method, the unit of measurement, periodicity, and others such as the concepts necessary to learn more about this important aspect of statistical work, in the hope to continue updating this Manual and those interested in getting what they want in less time and effort as possible.

PCBS hopes through the provision of this Manual about statistical indicators to provide and to make a further step together with his loyal partners towards a promising future, and always with confident footsteps, as long as life, and as long as the hope.

Introduction

It is known that basic product of statistical institutions is the statistical figure, which means the statistical indicator, and when talking about the statistics quality we talk about the quality of the statistical indicator itself, its accuracy, the extent of this indicator to be benefit for decision maker and researcher and whoever or wherever the regular user is, and on suitable time.

Indicators in this Manual selected according to the following main criteria:

- 1- Needs of decision makers and researchers in the country, at different environmental, economic, and social levels.
- 2- Clear, explicit and serve as a basis for comparisons on temporal and spatial level, local and international.
- 3- Generally, must be consistent with the standards adopted worldwide.
- 4- Should base basically on unified international standards.
- 5- And finally to be built on defined data sources, documented, to be subject to express it quantitatively, and logic to allow continuous controlling through time.

Statistical indicators are multipurpose tool, as they contribute to monitor economic and social changes on national level, and by following-up these indicators, development plans are prepared to improve the status of activities that experiencing a lack of performance, and through these indicators, users can monitor the reality and specify requirements according to scientific ground.

The number of indicators in this Manual reached 749 indicators distributed as follows: 272 indicators belong to population and social statistics, which represents 36.4%, 234 indicators belong to geographical and environment statistics which represents 31.2%, 204 indicators belong to economic statistics which represents 27.2% , 38 indicators on governance and rule of law statistics area that belong to administrative and monitoring statistics which represents 5.1%, in addition to one indicator on the martyrs and detainees.

Chapter Two

Statistical Indicator

It is an expression of the reality of a phenomenon in a specific time and place could be expressed in absolute or relative number, or as a Rate, monitors a prevailing condition or a particular situation, and can be interpreted and explained through the use of verbal expression.

Good indicator described as:

- 1- Suitable and expresses local needs.
- 2- Capable to summarize the information without prejudicing the content.
- 3- Subject to coordination and construction, and allows for international comparisons.
- 4- Accurate.
- 5- Reliable.

Indicator should serve to perform the following activities:

- 1- Measure the achievements of planned goals.
- 2- Identifying undesirable problems and cases.
- 3- To respond to concerns of politicians.
- 4- Examine the results of indicators use.
- 5- Compare its value to specific reference values and to its own value during different periods of time.

In this context, the statistical indicator must refer to a specific point. Imagine yourself refer to a point on the wall using one finger not two, and you try to make your finger straight heading to that point such that you stand in a place that does not obscure the vision from the person you meant to guide to that point.

Although there would be other points around the point that you meant and you make every effort to exclude those points through additional directions. Exactly like that, statistical indicator must work, it is a number (your own finger) that is based on information and a large work (your hand and body), and that covers specified time (guidance time), a specific place (the wall and point on it), and a specific topic (the point itself and nothing else).

Manual Evolution

This Manual provides a detailed explanation of each of the statistical indicators produced by all directorates, departments and specialized programs in PCBS, which has been collected by a team of staff representatives of the departments in the institution. Where they adopted primarily on indicators published by PCBS in the reports and patrols and publications, all indicators defined according to the international references available, but in the absence of such international reference, the team have to resort to other definitions by the professionals, and the same thing for the method of calculation and the rest of the information for each indicator included in this guide.

The Manual will be available in a format of (MS word) on both of internal web page of PCBS (intranet) and PCBS web page as well. So users could easily sort out their required indicators by purposes by searching and extracting some indications. Regarding data source or unit of measurement and the like, the manual includes a detailed account of all index variables under an item of details, and they were determined and covered by each index of the manual indicators.

Example (1):

The main indicator "Percentage of Smokers" and to add in the column devoted to the levels of details: By the practice of smoking habit (Smoke hookah, Cigarettes, Pipes).

Example (2):

The main indicator: "Annual Average Price of Energy Forms" and to add in the column devoted to the levels of details: By Type of Fuel (gasoline, diesel, gas, kerosene, oil and grease, bitumen, coal, firewood).

The Manual contains a total of 746 main statistical indicators which produced and published by PCBS and cover all social, economic, demographic and environmental topics.

This Manual, does not pretend that it includes all indicators about the data that PCBS publishes, there are certainly indicators that could not be included by authors for a variety of reasons, but the most important that they tried to focus on main indicators.

Those who have worked on manual of statistical indicators in the year (2015) in response to the pursuit of PCBS to link indicators manual to glossary of statistical terms conduct preliminary steps to facilitate that. One of these steps, for example, amendments to the indicators manual in order to bring it into line with glossary, including merging education and culture indicators under one subject "Education and Culture statistics", and adding Israeli settlements indicators to the subject of "Land Use statistics", separation of transportation and telecommunications indicators to have each of them as a subject separately, separating the subject of "detainees statistics" on "geographical and environmental statistics" to become a separate subject as "detainees and martyrs statistics".

Furthermore construction statistics title has been modified to "constructions and establishments statistics".

Finally re-arranging indicators in the manual so that the indicators belong to economic statistics in the lead, followed by geographical and environmental statistics, population and social statistics, and at last the detainees and martyrs statistics.

Each of them has given a title "area" and (indicators) come under its own topics.

Every indicator in the manual has been giving code consists of seven digits so that each code indicates to one indicator, the code will be deleted if the indicator has been deleted, and the code of the indicator would not change if we added new indicators, but every new indicator takes its own new code. Reference was made in more detail about the indicator code and explains it with an example in the next chapter (how to use this manual).

The edition of 2019 contained two new subjects in the Manual particularly in the field of economic statistics. The first was titled statistics of "Foreign Investment" with the code 1516, and the second was "Finance and Insurance" with the code 1561. It also contained simple updates on Manual as adding, and modifying the indicators, and in addition the indicators of sustainable development provided by PCBS are identified and the number of these indicators reached 87. The indicator of sustainable development was referred to in the description of the indicator.

The edition of 2020 included update of indicators received from the statistical departments from the second half of 2019 until the end of first half of 2020. In the edition, indicators of the subjects of Records and statistical monitoring Directorate have been placed in a separate area called Governance and Rule of Law, and this area include two subjects which are security and justice subject and governance and democracy subject.

This edition included update of indicators received from the statistical departments from the beginning of 2021 until the adoption of this version of the manual.

PCBS hopes that issuing of this manual is an ongoing process to monitoring statistical indicators according to international standards, and to making comparisons of Palestinian achievements and progress made in social, economic, and environmental areas. Moreover, this manual is a motivation for policy makers and researchers to increase their reliance on statistics figures in their policies, decisions and research. In conclusion, it must be pointed out that this manual was consistent with international standards and what is available in our data.

Abbreviations

Abbreviation	Meaning
C.I.F:	Cost Insurance and Freight
CPI:	Consumer Price Index
DPT:	Combination Vaccines Against three Infectious diseases in humans: Diphtheria, Pertussis (whooping cough) and Tetanus
F.O.B:	Free On Board
FTE:	Full – Time Equivalent
GDP:	Gross Domestic Product
GNI:	Gross National Income
GFCF:	Gross Fixed Capital Formation
J1:	Those parts of Jerusalem which were annexed by Israeli Occupation in 1967.
ILO:	International Labor Organization
MMR:	Immunization shot against Measles, Mumps, and Rubella
PPI:	Producer Price Index
ICT:	Information and Communication Technologies
LAN:	Local Area Network
DVD:	Digital Versatile Disc
PSTN:	Public Switched Telephone Network
Country: (wherever it appears under Geographical Covering Level)	State of Palestine
Region:	West Bank, Gaza Strip
Governorate:	Jenin, Tubas and Northern Valleys, Tulkarm, Nablus, Qalqilia, Salfit, Ramallah and Albireh, Jericho & Al Aghwar, Jerusalem, Bethlehem, Hebron, North Gaza, Gaza, Dier Albalah, Khan Younis, Rafah.
Type of Locality:	Urban, Rural and Camp

UNRWA:	United Nations Relief and Works Agency for Palestinian Refugees in the Near East.
NGOs:	Non-Governmental Organizations
ADSL:	Asymmetric Digital Subscriber Line
Kbps:	Kilobyte per second

Chapter Three

How to Use this Manual

Indicators Manual is available as hardcopy and softcopy, the indicators were distributed according to subject and area, in a manner similar to the glossary. The following table will help in how to deal with the manual.

Area	Area Code	Subject Name	Subject Code
Economic Statistics	15	National Accounts	1510
		Balance of Payments	1515
		Foreign Investment	1516
		Foreign Trade	1520
		Prices Indices	1525
		Construction and Establishments	1530
		Transportation	1535
		Transport and Storage	1536
		Transportation sector (Outside Establishments)	1537
		Telecommunications	1540
		Information and Telecommunications	1541
		Internal Trade	1545
		Services	1550
		Industry	1555
		General Government Finance	1560
		Finance and Insurance	1561
		Satellite Accounts	1565
Geographical and environment Statistics	20	Tourism	2010
		Housing and Housing Conditions	2015
		Environment	2020
		Water	2025
		Energy	2030
		Land Use	2035
		Agriculture	2040
Population and Social Statistics	25	Population & Demography	2510
		Labour Force	2515
		Information & communication Technology	2520
		Living Standards	2525
		Education & Culture	2530
		Health	2535
		Gender	2546
Martyrs & Detainees Statistics	40	Martyrs & Detainees	4010
Governance and Rule of Law Statistics	45	Security and Justice	4510
		Governance and Democracy	4515

The indicator code consists of 7 digits, representing the area with the first and the second digits, while third and fourth digits represent the topic within the area, and the last three digits indicate the serial number of the, and the last three digits indicate the serial number of the indicator, and the indicator code has been prepared to allow the addition of new topics within the area or new indicators within the same subject, like the glossary of statistical terms and in accordance with, to facilitate linking indicators manual with statistical terms later.

Example :

The code (1510001) from left to right indicates to the area of Economic statistics with the symbol (15) and the subject of National accounts Code (1510), and the three digits from the right refers to the serial number of the indicator that start from (001) to refer to the indicator number one in the subject which is the indicator (Gross Value Added). Thus, the knowledge of the indicator code only gives information about the area and the subject of the order of the indicator and the indicator within the subject and thus within the the manual. The indicators also have been arranged alphabetically within each subject.

Chapter four

Statistical Indicators Provided by Palestinian Central Bureau of Statistics

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Economic Statistics											
National Accounts Statistics						Subject Code: 1510					
15	1510001	National Accounts	Gross Value Added	Indicator measures gross value added of any institutional unit that carries out any productive activity	Subtracting total value of intermediate consumption from total value of output	Million US Dollar	Country, Region	Economic activity, institutional sector, at current and constant prices	Surveys, Administrative Records	Annual, Quarterly	
15	1510002	National Accounts	Total Value of Intermediate Consumption	Indicator measures the total value of goods and services consumed or transformed as inputs by a process of production, excluding fixed assets whose consumption is recorded as consumption of fixed capital.	Total value of goods and services consumed or transformed as inputs by a process of production, excluding fixed assets whose consumption is recorded as consumption of fixed capital and it is estimated by purchasers price.	Million US Dollar	Country, Region	Economic activity, institutional sector, at current and constant prices	Surveys, Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1510003	National Accounts	Total Value of Output	Indicator measures the value of goods and services produced by a certain establishment, capable of being provided to other units or it can be self- consumed for GFCF or own final consumption.	The value of goods and services produced by a certain establishment, capable of being provided to other units or it can be self- consumed for GFCF or own final consumption.	Million US Dollar	Country, Region	Economic activity, institutional sector, at current and constant prices	Surveys, Administrative Records	Annual	
15	1510004	National Accounts	Savings	Indicator measures that part of gross national disposable income that is not spent on final consumption of goods and services	Equals the difference between the value of gross national disposable income and the final consumption	Million US Dollar	Country, Region	Current and constant prices	Surveys, Administrative Records	Annual	
15	1510005	National Accounts	Net, Compensation of Employees	Indicator measures the difference between the value of compensation of employees receivable from abroad and the value of the compensation of employees payable to abroad	Equals value of compensation of employees receivable from abroad minus the value of the compensation of employees payable to abroad	Million US Dollar	Country, Region	Current and constant prices	Surveys, Administrative Records	Annual, Quarterly	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1510006	National Accounts	Net, Property Income	Indicator measures the difference between property income receivable from non-residents and property income payable to non-residents	Equals the property income receivable from non-residents minus property income payable to non-residents	Million US Dollar	Country, Region	Current and constant prices	Surveys, Administrative Records	Annual, Quarterly	
15	1510007	National Accounts	Value of Final Consumption	Indicator measures the value of goods and services that is used (without further transformation in production) by households, government and non-profit institutions serving households (NPISHs).	Total value of goods and services that used by households, government and non-profit institutions serving households (NPISHs).	Million US Dollar	Country, Region	Final consumption of households, final consumption of government, final consumption of NPISHs, at current and constant prices	Surveys, Administrative Records	Annual, Quarterly	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1510008	National Accounts	Value of Gross Fixed Capital Formation (GFCF)	Indicator measures the acquisitions less disposals of produced assets for purposes of fixed capital formation.	The total value of producers' acquisitions less disposals of fixed asset during the accounting period. It is divided into buildings and non-buildings (which include machinery and equipment within the production process)	Million US Dollar	Country, Region	Buildings, Non-buildings, at current and constant prices	Surveys, Administrative Records	Annual, Quarterly	
15	1510009	National Accounts	Value of Gross National Income (GNI)	Indicator measures the aggregate value of gross balance of primary incomes for all sectors.	Equal Gross domestic product plus compensations of employees (net, receivable from abroad) and the property income (net, receivable from abroad)	Million US Dollar	Country, Region	Current and constant prices	Surveys, Administrative Records	Annual, Quarterly	
15	1510010	National Accounts	Value of Gross National Disposable Income (GNDI)	Indicator measures the total value of income available for residents, which can be spent on consumption of goods and services or for savings	Adding current transfers (net, receivable from abroad) to Gross National Income (GNI)	Million US Dollar	Country, Region	Current and constant prices	Surveys, Administrative Records	Annual, Quarterly	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1510011	National Accounts	Value of Gross Domestic Product (GDP)	Indicator measures the total value added of all economic activities, which consists output of goods and services for final use produced by both residents and non-residents, (local factors of production) and regardless of the distribution of this production, locally or externally. during a specific period of time and does not include deductions for depreciation of fixed capital or deterioration of natural resources	GDP calculated by three approaches: 1. Production approach measures the GDP as the sum of value added for all economic activities. 2. Expenditure approach: final consumption plus gross fixed capital formation plus changes in inventories plus acquisitions less disposals of valuables plus exports of goods and services minus imports of goods and services. 3. Income approach: compensations of employees plus net operating surplus/ mixed income plus consumption of fixed capital plus net taxes (taxes minus subsidies on production)	Million US Dollar	Country, Region	Economic activity, institutional sector, final use component at current and constant prices	Surveys, Administrative Records	Annual, Quarterly	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1510012	National Accounts	Value of Gross National Income (GNI) Per Capita	Indicator measures the value of gross national income per capita	Dividing the GNI for a given year/ quarter by the estimated number of population at the mid of the same year/ quarter.	US Dollar	Country, Region	Current and constant prices	Surveys, Administrative Records	Annual, Quarterly	
15	1510013	National Accounts	Value of Gross National Disposable Income (GNDI) Per Capita	Indicator measures the value of gross national disposable income per capita	Dividing the GNDI for a given year/ quarter by the estimated number of population at the mid of the same year/ quarter.	US Dollar	Country, Region	Current and constant prices	Surveys, Administrative Records	Annual, Quarterly	
15	1510014	National Accounts	Value of Gross Domestic Product per Capita	Indicator measures the gross domestic product per capita	Dividing the GDP for a given year/ quarter by the estimated number of population at the mid of the same year/ quarter.	US Dollar	Country, Region	Current and constant prices	Surveys, Administrative Records	Annual, Quarterly	
15	1510015	National Accounts	GDP Deflator	An Index used to convert data and variables of GDP at current prices to constant prices, depending on an appropriate base year, to isolate the impact of prices on the data	Dividing GDP at current prices by GDP at constant prices, multiplied by hundred	Index	Country, Region	Economic activity, Final use components	Surveys, Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1510017	National Accounts	Growth Percentage of Gross Domestic Product	Indicator measures the size of the growth (or decline) in Gross Domestic Product	Dividing GDP in the current year/quarter minus GDP in the previous year/quarter, by GDP in the previous year/quarter, multiplied by hundred	Percentage	Country, Region		Surveys, Administrative Records	Annual, Quarterly	
15	1510018	National Accounts	Percentage Growth of Gross Domestic Product per Capita	Indicator measures the size of the growth (or decline) in GDP per capita within two years/quarters	Dividing GDP per capita in the current year/quarter minus GDP per capita in the previous year/quarter, the result by GDP per capita in the previous year/quarter, multiplied by hundred	Percentage	Country, Region		Surveys, Administrative Records	Annual, Quarterly	SDGs Indicator 8.1.1
15	1510019	National Accounts	Export as percentage of GDP	Indicator measures the percentage of exports to gross domestic product	Dividing exports by GDP, multiplied by hundred	Percentage	Country, Region	Exports of goods, exports of services	Surveys, Administrative Records	Annual, Quarterly	
15	1510020	National Accounts	Imports as percentage of GDP	Indicator measures the percentage of imports to gross domestic product	Dividing imports by GDP, multiplied by hundred	Percentage	Country, Region	Imports of goods, imports of services	Surveys, Administrative Records	Annual, Quarterly	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1510021	National Accounts	Annual growth rate of real GDP per employed person	Indicator measures the annual growth rate of real GDP per employed person	GDP by employee is estimated then annual growth rate is estimated	Percentage	Region	Economic activity	Surveys, Administrative Records	Annual	SDGs Indicator 8.2.1
15	1510022	National Accounts	Manufacturing value added as a proportion of GDP and per capita	Indicator measures the Manufacturing value added as a proportion of GDP and per capita	Dividing the Manufacturing value added by GDP and number of population, multiplied by hundred	Percentage	Region	Manufacturing value added as a proportion of value added of mining, manufacturing, electricity and water	Surveys, Administrative Records	Annual	SDGs Indicator 9.2.1
15	1510023	National Accounts	Direct economic loss attributed to disasters in relation to global gross domestic product (GDP)	Indicator measures Direct economic loss attributed to disasters in relation to global gross domestic product (GDP)	Dividing the sum of the direct economic losses of each country by the global GDP	US Dollar	Country		Estimated by United Nations International Strategy for Disaster Reduction UNISDR	Annual	SDGs Indicator 1.5.2

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1510024	National Accounts	The agriculture orientation index for government expenditures	Indicator measures the agriculture orientation for government expenditure	Dividing agriculture share of government expenditure by agriculture share of GDP where, Agriculture share of government expenditure is the proportion of total central government expenditure spent on the agricultural sector; and Agriculture share of GDP is the total value added in the agricultural sector as a proportion of the total value added in the economy (GDP).	US Dollar	Country		Estimated by Administrative Records (agriculture ministry), and FAO	Annual	SDGs Indicator 2.a.1
15	1510025	National Accounts	Number of commercial bank branches per hundred thousand adults	Indicator measures the number of commercial bank branches per hundred thousand adults	Dividing the total commercial banks by adults aged 15 and above	Number	Country		Estimated by International Monetary Fund (IMF)	Annual	SDGs Indicator 8.10.1 (a)

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1510026	National Accounts	Number of automated teller machines (ATMs) per hundred thousand adults	Indicator measures the number of automated teller machines (ATMs) per hundred thousand adults	Estimated by number of automated teller machines per hundred thousand adults aged 15 and above	Number	Country		Estimated by International Monetary Fund (IMF)	Annual	SDGs Indicator 8.10.1 (b)
15	1510027	National Accounts	Direct Economic loss in relation to global GDP, damage to critical infrastructure and number of disruptions to basic services, attributed to disasters	Indicator measures the Direct Economic loss in relation to global GDP, damage to critical infrastructure and number of disruptions to basic services, attributed to disasters	Total of Direct Economic loss in relation to global GDP, damage to critical infrastructure is estimated and number of disruptions to basic services, attributed to disasters	US Dollar	Country		Estimated by United Nations International Strategy for Disaster Reduction (UNISDR)	Annual	SDGs Indicator 11.5.2

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Balance of Payments statistics Subject Code: 1515											
15	1515008	Balance of Payments	Changes in Reserve Assets	Indicator measures the value of change through the year in the foreign currency stocks held by the Palestinian Monetary Authority for balance of payments purposes	Change in the monetary gold stocks or foreign currency held by the Monetary Authority for the purpose of addressing the imbalances in the balance of payments	Million US Dollar	Country		Administrative Records	Annual, Quarterly	
15	1515009	Balance of Payments	Net Value of Portfolio Investment	Indicator measures the value of portfolio investment, which represents the category of the remaining commercial transactions in stocks, bonds and banknotes and money market instruments and financial derivatives, the fact that these tools also fall under the direct investment and reserve assets	Total of Palestinian net assets in the abroad and net foreign liabilities in the Palestine relating to the debt papers and stocks less than 10% of the company's capital	Million US Dollar	Country		Survey, Administrative Records	Annual, Quarterly	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1515010	Balance of Payments	Net Value of Direct Investment	Indicator measures the value of direct investment, this category includes investment in which the owner has control or voting power in the organization. In practice, discrimination standard for inclusion under this heading for the investor to own about 10% at least of the ordinary shares in the company	Total of net Palestinian direct investment abroad and net direct investment of non-resident in the Palestine for investment in real assets and stocks worth more than 10% of the capital of the company	Million US Dollar	Country		Survey, Administrative Records	Annual, Quarterly	
15	1515011	Balance of Payments	Net Value of Other Investment	Indicator measures the value of other investments, that includes all transactions of financial assets and liabilities not included under any of the other three categories, most notably the are currency, deposits and loans (including trade credits)	Total of Palestinian net assets in the abroad and net foreign liabilities in the Palestine for trade credit, loans, currency and deposits, and any other unmentioned investments	Million US Dollar	Country		Survey, Administrative Records	Annual, Quarterly	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1515012	Balance of Payments	Net Value of Current Transfers from Abroad	Indicator measures the difference between the value of current transfers received from abroad and the value of current transfers paid to abroad	Equal to the difference in the current consumptive nature flows (free) received from non-resident and paid to non-residents for help purposes	Million US Dollar	Country		Survey, Administrative Records	Annual, Quarterly	
15	1515013	Balance of Payments	Net Value of Current Account	Indicator measures the total values of the items constituting the current account in the balance of payments includes (net value of the goods, the net value of the services, net value of income and net value of current transfers)	Total of components of current account (net value of the goods, the net value of the services, net value of income and net value of current transfers)	Million US Dollar	Country		Survey, Administrative Records	Annual, Quarterly	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1515014	Balance of Payments	Net Value of the Capital Account	Indicator measures the value of that account which administrative records the national economic transactions of a capitalist nature taking place between the national economy and the rest of the world economies. Includes capital transfers and possession or disposal of non-financial and non-produced assets	Equal to the difference in the capitalist investment nature flows (free), received from non-residents and paid to non-residents for help purposes	Million US Dollar	Country		Survey, Administrative Records	Annual, Quarterly	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1515015	Balance of Payments	Net Value of the Financial Account	Indicator measures the value of financial account, which includes commercial transactions in external financial assets and liabilities. Divided into four categories: direct investment and portfolio investment (securities) and other investments (consisting of currency and deposits and loans) and investment in reserve assets	Total of net direct foreign investment and net portfolio investments and other net investments and net reserve assets	Million US Dollar	Country		Survey, Administrative Records	Annual, Quarterly	
15	1515016	Balance of Payments	Net Value of Income from Abroad	Indicator measures the difference between income received from non-residents and paid to non-residents in each of the compensation of employees (labor income) and investment income (capital income)	Equal to the difference between income received from non-residents and the income paid to non-residents in each of the compensation of employees (labor income) and investment income (capital income)	Million US Dollar	Country	Current prices	Survey, Administrative Records	Annual, Quarterly	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1515018	Balance of Payments	Value of Exports of Goods and Services	Indicator measures the total of the actual values of goods and services exported outside the country by value (F.O.B)	Total value of exports of goods and services	Million US Dollar	Country	Goods, services	Survey, Administrative Records	Annual, Quarterly	
15	1515019	Balance of Payments	Value of the Services Trade Balance	Indicator measures the difference between total value of services exported and the total value of services imported	Equal to the difference between total value of services exported and the total value of services imported	Million US Dollar	Country		Survey, Administrative Records	Annual, Quarterly	
15	1515020	Balance of Payments	Value of the Goods Trade Balance	Indicator measures the difference between total value of goods exported and the total value of goods imported	Equal to the difference between total value of goods exported and the total value of goods imported	Million US Dollar	Country		Administrative Records	Annual, Quarterly	
15	1515021	Balance of Payments	Value of Imported Goods and Services	Indicator measures the total of the actual values of goods and services imported to the country through land, sea and air ports by value (F.O.B)	Total value of imports of goods and services	Million US Dollar	Country		Survey, Administrative Records	Annual, Quarterly	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Foreign Investment Statistics Subject Code: 1516											
15	1516001	Foreign Investment	Portfolio Investment Stocks for Non-Residents in Palestinian Enterprises	Indicator measures the stock of enterprises or non-resident individuals investments, by less than 10% in the capital of the Palestinian enterprises	Total of stocks of enterprises or non-resident individuals investments, by less than 10% in the capital of the Palestinian enterprises , In addition to debentures issued by the Palestinian enterprises and owned by individuals or non-resident enterprises	Million US Dollar	Country		Survey, Administrative Records	Annual	
15	1516002	Foreign Investment	Portfolio Investment Stocks of Palestinian Enterprises in Non-Residents Enterprises	Indicator measures the stock of the Palestinian enterprises investments, by less than 10% in the capital of non-resident enterprises and stock purchases of Palestinian enterprises of debentures issued by non-resident enterprises	Total of stocks of investments of Palestinian enterprises , by less than 10% in the capital of non-resident enterprises , in addition to the stock of debentures issued abroad and owned by the Palestinian enterprises	Million US Dollar	Country		Survey, Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1516003	Foreign Investment	Direct Foreign Investment Stocks of Palestinian Enterprises in Non-Residents Enterprises	Indicator measures the stock of the Palestinian enterprises investments by 10% or more in the capital of non-resident enterprises	Total of stocks of investments of Palestinian enterprises by 10% or more in the capital of non-resident enterprises	Million US Dollar	Country		Survey, Administrative Records	Annual	
15	1516004	Foreign Investment	Direct Investment Stocks for Non-Residents in Palestinian Enterprises	Indicator measures the stock of enterprises or non-resident individuals investments, by 10% or more in the capital of the Palestinian enterprises	Total of stocks of enterprises or non-resident individuals investments, by 10% or more in the capital of the Palestinian enterprises	Million US Dollar	Country		Survey, Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1516005	Foreign Investment	Other Investments Stocks for Non-Residents in Palestinian Enterprises	Indicator measures the stock of other investments for enterprises or non-resident individuals, in the Palestinian enterprises . Include trade credits resulting from import and loans from abroad and foreign currency and deposits in the Palestinian financial enterprises and any other investments not classified within the previous investments mentioned	Total of other investments stocks for enterprises or non-resident individuals, in the Palestinian enterprises	Million US Dollar	Country		Survey, Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1516006	Foreign Investment	Other Investments Stocks for Palestinian Enterprises in Non-Residents Enterprises	Indicator measures the stock of the Palestinian enterprises in non-resident enterprises, includes trade credits resulting from export and loans to non-residents and Palestinian deposits in foreign financial enterprises	Total of stocks of other investments of the Palestinian enterprises in non-resident enterprises	Million US Dollar	Country		Survey, Administrative Records	Annual	
15	1516007	Foreign Investment	Stocks of Reserve Assets	Indicator measures stocks of assets that must be controllable by the Monetary Authority; they must be accessible to the Monetary Authority at relatively short notice for balance of payments purposes and they must be denominated in a convertible currency	Stocks in the end of the year minus the stocks in the beginning of the year	Million US Dollar	Country		Administrative Records	Annual

Foreign Trade Statistics Subject Code: 1520											
15	1520001	Foreign Trade	Total Value of Registered Exports of Services to Israel	Indicator measures the value of registered exports of services to Israel using only VAT vouchers based on F.O.B value	Total of the values of registered exports of services by VAT vouchers only	Thousand US Dollar	Country, Region	Main Categories of Services	Administrative Records	Annual	
15	1520002	Foreign Trade	Total Value of Registered Exports of Goods	Indicator measures the value of registered value of exports of goods out the country based on the F.O.B value	Total of the values of registered exports of goods, as it's received from different sources (VAT voucher, certificate of origin, the aggregate of other statements such as agriculture data)	Thousand US Dollar	Country, Region	Sections, Chapters, Main groups of the Harmonized System	Administrative Records	Monthly, Annual	
15	1520003	Foreign Trade	Total Value of Registered Imports of Services from Israel	Indicator measures the value of registered imports of services to the country from Israel using VAT voucher based on C.I.F value	Total of the value of registered imports of services only from VAT vouchers	Thousand US Dollar	Country, Region	Main Categories of Services	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1520004	Foreign Trade	Total Value of Registered Imports of Goods	Indicator measures the value of registered imports of goods to the country through it's borders, land and sea ports and airports based on C.I.F value	Total of the values of registered imports of goods, as it's received from different sources (VAT voucher, customs declaration, the aggregate of other statements such as electricity, water, agriculture, and petroleum products)	Thousand US Dollar	Country, Region	Sections, Chapters, Main groups of the Harmonized System	Administrative Records	Monthly, Annual	
15	1520005	Foreign Trade	Trade Transactions Volume	Indicator measures the sum of registered exports and registered imports	Registered exports + registered imports	Thousand US Dollar	Country, Region	Goods, services	Administrative Records	Monthly, Annual	
15	1520006	Foreign Trade	Value of Registered Trade Balance of Services with Israel	Indicator measures the difference between total registered exports of services and total registered imports of services from VAT vouchers	registered exports of services -total registered imports of services	Thousand US Dollar	Country, Region		Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1520007	Foreign Trade	Value of Registered Trade Balance of Goods	Indicator measures the difference between total registered exports and total registered imports from official administrative records	registered exports of goods - registered imports of goods	Thousand US Dollar	Country, Region		Administrative Records	Monthly, Annual	
15	1520008	Foreign Trade	Aid for Trade commitments and disbursements	Indicator measures the gross disbursements and commitments of total Official Development Assistance (ODA) from all donors for aid for trade	The sum of ODA and OOF flows from all donors to developing countries for aid for trade	US Dollar	Country	Donor, Recipient country, Type of finance, Type of aid, Trade policy and regulations and trade related adjustment sub-sectors, etc..	Estimated by Organization for Economic Co-operation and Development (OECD)	Annual	SDGs Indicator 8.a.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Prices Indices Statistics Subject Code: 1525											
15	1525001	Prices Indices	Wholesale Price Index	Indicator measures changes in the wholesale prices between two periods one is the comparison period and the other is base period. (Wholesale prices are defined as the prices received after the resale (sale without transformation) of new and used goods to retailers, industrial, commercial, institutional or professional users, to other wholesalers, or to those acting as agents or brokers in buying merchandise for, or selling merchandise to such persons or companies. The wholesale price includes VAT and any transport charges)	Laspeyres equation which measures comparative period prices in relation to base period prices multiplied by proportional weight of commodity or weight of a group of goods throughout the base periods	Index	Country	Major groups (agriculture, fishing, mining and quarrying, manufacturing) commodity (local, imported product, total)	Survey	Quarterly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1525002	Prices Indices	Consumer Price Index (CPI)	Indicator measures changes in the prices levels of goods and services that households consume (Consumer Basket) between two different periods one is called the base period and the other is the comparison period	Laspeyres equation which measures comparative period prices in relation to base period prices multiplied by proportional weight of commodity or weight of a group of goods throughout the base periods	Index	Country, Region, Jerusalem J1	Major groups of expenditure (food group, soft drinks, alcoholic beverages and tobacco, housing and related items)	Survey	Monthly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1525003	Prices Indices	Producer Price Index (PPI)	Indicator measures changes in the producer prices between two periods, one is the comparison period and the other is base period. (producer prices are defined as the amount of money received by the producer from the purchaser for a unit of a good or service produced as output without any VAT, or similar deductible tax invoiced to the purchaser and excludes any transport charges invoiced separately by the producer or any other charges	Laspeyres equation which measures comparative period prices in relation to base period prices multiplied by proportional weight of commodity or weight of a group of goods throughout the base periods	Index	Country	Major groups (Agriculture, forestry and fishing, mining and quarrying, Manufacturing, Electricity, gas, steam and air conditioning supply, Water supply; sewerage, waste management and remediation activities) Production (locally consumed, exported, total)	Survey	Monthly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1525004	Prices Indices	Water and Sewage Networks Cost Index	Indicator measures changes in the prices of goods and services used in the construction of water and sewage networks during two periods one is the comparison period and the other is the base period	Laspeyres equation which measures comparative period prices in relation to base period prices multiplied by proportional weight of commodity or weight of a group of goods throughout the base periods	Index	West Bank	Sub-groups (Excavation, deface materials, asphalt and its products, Fountains, etc) Sub-groups (Water resources, water networks, etc)	Survey	Monthly, Annual	
15	1525005	Prices Indices	Construction Cost Index (CCI)	Indicator measures changes in the prices of goods and services used in the construction of buildings between two periods one is the comparison period and the other is the base period	Laspeyres equation which measures comparative period prices in relation to base period prices multiplied by proportional weight of commodity or weight of a group of goods throughout the base periods	Index	West Bank	Major groups (raw and primary materials, equipment hire, wages and labor costs), type of building (Residential, non-residential, Skeleton)	Survey	Monthly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1525006	Prices Indices	Road Cost Index (RCI)	Indicator measures changes in the prices of goods and services used in the construction of different types of roads between two periods one is the comparison period and the other is the base period	Laspeyres equation which measures comparative period prices in relation to base period prices multiplied by proportional weight of commodity or weight of a group of goods throughout the base periods	Index	West Bank	Road type (agricultural roads, maintenance of municipality roads, development of municipality roads, Maintenance of outside roads, development of outside roads), major groups (raw and primary materials, equipment hire, wages and labor costs, transportation fees, costs of operating the equipments and maintenance)	Survey	Monthly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1525007	Prices Indices	Index of Quantity of Industrial Production	Indicator measures changes in the quantities of industrial production between two periods one is called the comparison period and the other called the base period	Laspeyres equation which measures comparative period quantities in relation to base period quantities multiplied by proportional weight of commodity or weight of a group of goods throughout the base periods	Index	Country	Major groups (mining and quarrying, manufacturing, Electricity, gas, steam and air conditioning supply, Water supply, sewerage, waste management and remediation activities)	Survey	Monthly, Annual	
15	1525008	Prices Indices	Ratio of the Change of an Index	Indicator measures amount of change in the index	Dividing the index for a period of time by the index of the comparison period, multiplied by hundred then subtract hundred	Ratio	Country, Region, Jerusalem J1		Survey	Monthly, Quarterly, Semi Annual, Annual	
15	1525009	Prices Indices	Average Consumer price	Indicator measures an average price paid by households to gain a commodity or service.	Dividing the sum of consumer price by their numbers	Israeli Shekel (NIS)	Country, Region, Jerusalem J1	Commodity	Survey	Monthly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1525007	Prices Indices	Index of Quantity of Industrial Production	Indicator measures changes in the quantities of industrial production between two periods one is called the comparison period and the other called the base period	Laspeyres equation which measures comparative period quantities in relation to base period quantities multiplied by proportional weight of commodity or weight of a group of goods throughout the base periods	Index	Country	Major groups (mining and quarrying, manufacturing, Electricity, gas, steam and air conditioning supply, Water supply, sewerage, waste management and remediation activities)	Survey	Monthly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Construction and Establishments Statistics											
Subject Code: 1530											
15	1530001	Construction and Establishments	Total Value of Current Maintenance on Existing Buildings	Indicator measures the value of expenditure on current maintenance of the buildings	Total value of expenditure on the current maintenance of buildings	Thousand US Dollar	Country, Region		Survey	Annual	
15	1530002	Construction and Establishments	Total Value of Capital Improvements on Existing Buildings	Indicator measures the value of capital improvements for existing buildings.	Total value of expenditure on capital improvements for existing buildings	Thousand US Dollar	Country, Region		Survey	Annual	
15	1530003	Construction and Establishments	Total Value of Expenditure on New Buildings and Additions to Buildings	Indicator measures total costs of construction on new buildings and additions to buildings.	Total costs of construction on new buildings and additions to buildings.	Thousand US Dollar	Country, Region	Type of building, building status, time of review, utilization, ownership of building	Survey	Annual	
15	1530004	Construction and Establishments	Number of Waged Employees in the Enterprises of Construction Activities	Indicator measures the number of waged employee in the enterprises of construction activities	Total number of waged employee in the enterprises of construction activities	Number	Country, Region	Economic activity on the second digit	Survey	Annual	
									Census	Every five years	
15	1530005	Construction and Establishments	Number of Employed Persons in the Enterprises of Constructions Activities	Indicator measures the number of employed persons in constructions activities	Total number of employed persons in the constructions activities	Number	Country, Region	Economic activity on the second digit	Survey	Annual	
									Census	Every five years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1530006	Construction and Establishments	Number of Establishments	Indicator measures the number of establishments	Total number of establishments	Number	Country	Establishment status, ownership, economic organization, legal status, economic activity, employment size group	Census	Every five years	
15	1530007	Construction and Establishments	Number of Enterprises in the Constructions Activities	Indicator measures the number of enterprises in constructions activities	Total number of the enterprises in constructions activities	Number	Country, Region	Economic activity on the second digit	Survey	Annual	
									Census	Every five years	
15	1530008	Construction and Establishments	Number of New Dwellings Licensed	Indicator measures the number of new dwellings licensed	Total number of new dwellings licensed	Number	Country, Region , Governorate	New residential unit, existing residential unit, Granting Authority ((UNRWA), Economic Organization, municipality, rural council, etc...), Utilization (Residential, Non-Residential, The Boundary Walls), Ownership of the building (Private, Governmental, Local Authority, Cooperative, charity, etc...)	Administrative Records	Quarterly	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1530009	Construction and Establishments	Number of Building Licenses Issued	Indicator measures the issued building licenses	Total number of building licenses issued	Number	Country, Region , Governorate	Granting Authority ((UNRWA), Economic Organization, municipality, rural council, etc...), Utilization (Residential, Non-Residential, The Boundary Walls), Ownership of the building (Private, Governmental, Local Authority, Cooperative, charity, etc...)	Administrative Records	Quarterly	
15	1530010	Construction and Establishments	Value of Intermediate Consumption in the Enterprises of Constructions Activities	Indicator measures the total value of the goods and services consumed as inputs by a process of production, excluding fixed assets whose consumption is recorded as consumption of fixed capital, in the institution of construction activities	Total value of the goods and services consumed as inputs by a process of production, excluding fixed assets whose consumption is recorded as consumption of fixed capital and it is estimated by purchasers price	Thousand US Dollar	Country, Region	Economic activity on the second digit	Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1530011	Construction and Establishments	Value of Compensations of Employees in the Enterprises of Construction Activities	Indicator measures the total value of cash and kind wages in enterprises, including social security contributions, which is paid to any employee for work performed	Total value of cash and kind wages in enterprises, including social security contributions, which is paid to any paid employee for work performed in the enterprises of construction activities	Thousand US Dollar	Country, Region		Survey	Annual	
15	1530012	Construction and Establishments	Area of New Dwellings Licensed	Indicator measures total area of new dwellings licensed	Total area of new dwellings licensed	Thousand M ²	Country, Region , Governorate	New residential unit, Existing residential unit, Granting Authority ((UNRWA), Economic Organization, municipality, rural council, etc...), Utilization (Residential, Non-Residential, The Boundary Walls), Ownership of the building (Private, Governmental, Local Authority, Cooperative, charity, etc...)	Administrative Records	Quarterly	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1530013	Construction and Establishments	Area of Licensed Buildings	Indicator measures the area of buildings of all kinds, that received a building license through competent authorities	Total area of buildings of all kinds, that received a building license through competent authorities	Thousand M ²	Country, Region , Governorate	Granting Authority ((UNRWA), Economic Organization, municipality, rural council, etc...), Utilization (Residential, Non-Residential, The Boundary Walls), Ownership of the building (Private, Governmental, Local Authority, Cooperative, charity, etc...)	Administrative Records	Quarterly	
15	1530014	Construction and Establishments	Market Value at Beginning of Year in the Enterprises of Constructions	Indicator measures the total estimated value of the asset at the beginning of the year.	Estimating the market value of the asset at the beginning of the year.	Thousand US Dollar	Country, Region	Economic activity on the second digit	Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1530015	Construction and Establishments	Market Value at End of Year in the Enterprises of Constructions	Indicator measures the value of the asset at the beginning of the year plus the value of the purchased assets and the capital improvements and additions minus written off and losses and the sold assets and the depreciation value of the asset in the same year.	The total estimated value of the asset at the beginning of the year plus the value of the purchased assets and the capital improvements and additions minus written off and losses and the sold assets and the depreciation value of the asset in the same year	Thousand US Dollar	Country, Region	Economic activity on the second digit	Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Transportation Statistics Subject Code: 1535											
15	1535001	Transportation	Length of Roads Network	Indicator measures the length of roads network	Total of the lengths of road network	Km	Country	Road Type (Main, Regional, Local, Unpaved Roads)	Administrative Records	Annual	
15	1535002	Transportation	Number of Cars Allocated to Training in Driving Schools	Indicator measures the number of cars allocated to training in driving schools	Total number of cars allocated to training in driving schools	Number	Governorate in West Bank	Type of vehicle (Private Cars, Taxis, Motorcycles and Moped, Private Buses, Public Buses, Trailers and Semi-Trailers, Agricultural Tractors, Road Tractors, Trucks and Commercial Cars, Other Vehicles)	Administrative Records	Annual	
15	1535003	Transportation	Number of Licensed Garages	Indicator measures the number of licensed garages	Total number of licensed garages	Number	Governorate in West Bank	Type of Garage (Motor vehicles trading shops, Motor vehicles repair workshops, Spare parts Stores)	Administrative Records	Annual	
15	1535004	Transportation	Number of Trainers in Driving Schools	Indicator measures the number of trainers in driving schools	Total number of trainers in driving schools	Number	Governorate in West Bank		Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1535005	Transportation	Number of Licensed Road Vehicles	Indicator measures the number of licensed road vehicles	Total number of licensed road vehicles	Number	Governorate in West Bank	Type of vehicle (Private Cars, Taxis, Motorcycles and Moped, Private Buses, Public Buses, Trailers and Semi-Trailers, Agricultural Tractors, Road Tractors, Trucks and Commercial Cars, Other Vehicles)	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1535006	Transportation	Number of Vehicles Registered for the First Time	Indicator measures the number of vehicles registered for the first time and the date of the first registration of the vehicle, as a new vehicle in the register of vehicles, regardless of the nationality of the record, is the date on which it was registered in the vehicles registration office. The registration of imported used vehicle, is not a first registration, but must be considered as re-register	Total number of licensed vehicles registered for the first time	Number	Region, Governorate	Type of vehicle (Private Cars, Taxis, Motorcycles and Moped, Private Buses, Public Buses, Trailers and Semi-Trailers, Agricultural Tractors, Road Tractors, Trucks and Commercial Cars, Other Vehicles)	Administrative Records	Annual	
15	1535007	Transportation	Number of Passengers in a Flight	Indicator measures the number of passengers excluding crew, and with the exception of infants (less than two years)	Total number of passengers in a flight	Number	Country		Administrative Records	Annual	
15	1535008	Transportation	Number of Injured in Road Accidents in Palestine	Indicator measures the number of injured as a result of road accidents	Total number of injured as a result of road accidents	Number	West Bank	Type of injury (Slightly Injured, Seriously Injured, Fatally Injured)	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1535009	Transportation	Number of Injured in Road Accidents from Children Under the Age of Seven in Palestine	Indicator measures number of injured in road accidents from children under the age of seven in Palestine	Total number of injured in road accidents from children under the age of seven in the Palestine	Number	Country, Region	Type of injury (Slightly Injured, Seriously Injured, Fatally Injured)	Administrative Records	Annual	
15	1535010	Transportation	Number of Road Accidents	Indicator measures the number of road accidents	Total number of road accidents	Number	Country, Region, Governorate	Type of injury (Slightly Injured, Seriously Injured, Fatally Injured)	Administrative Records	Annual	
15	1535011	Transportation	Number of Driving Licenses Issued	Indicator measures the number of driving licenses issued	Total number of the driving licenses issued	Number	West Bank, Governorate		Administrative Records	Annual	
15	1535012	Transportation	Number of Driving Schools	Indicator measures the number of driving schools	Total number of driving schools	Number	Governorate in West Bank		Administrative Records	Annual	
15	1535013	Transportation	Number of Passenger Seats Available	Indicator measures the total number of passenger seats available to book, between two airports in one flight stage, except for the seats that are not available to carry passengers because of the weight of fuel or other weight loads	Total number of seats available on a flight	Number	Country		Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1535014	Transportation	Density of Licensed Vehicles Per Thousand Individuals	Indicator measures the extent of the inhabitants possession of the licensed vehicles	Dividing the number of licensed vehicles issued in a year by the estimated number of population for the same year, multiplied by thousand	Rate, Vehicle/ thousand people	Country, Region	Type of vehicle (Private Cars, Taxis, Motorcycles and Moped, Private Buses, Public Buses, Trailers and Semi-Trailers, Agricultural Tractors, Road Tractors, Trucks and Commercial Cars, Other Vehicles)	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Transport and Storage Statistics Subject Code: 1536											
15	1536001	Transport and Storage	Number of Wage Employees in the Institutions of Transport and Storage (Inside Establishments)	Indicator measures the number of paid employees in the institutions of transport and storage (inside establishments)	Total number of paid employees in the institutions of transport and storage (inside establishments)	Number	Country, Region	Economic activity on the second digit	Survey	Annual	
15	1536002	Transport and Storage	Number of Employed Persons in the Institutions of Transport, and Storage (Inside Establishments)	Indicator measures the number of employed persons in transport, and storage (Inside establishments)	Total number of employed persons in the transport, and storage (Inside establishments)	Number	Country, Region	Economic activity on the second digit	Survey	Annual	
15	1536003	Transport and Storage	Number of Institutions in the Transport, and Storage (Inside Establishments)	Indicator measures the number of institutions in transport, and storage (Inside establishments)	Total number of the institutions in transport, and storage (Inside establishments)	Number	Country, Region	Economic activity on the second digit	Survey	Annual	
15	1536004	Transport and Storage	Value of Intermediate Consumption in the Institutions of Transport, and Storage (Inside Establishments)	Indicator measures the total value of goods and services consumed as inputs, used up or transformed during the production it is measured during a specific period of time, in the institutions of transport, and storage (inside establishments)	Total value of goods and services consumed as inputs, used up or transformed during the production. and estimated by purchasers price	Thousand US Dollar	Country, Region	Economic activity on the second digit	Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1536005	Transport and Storage	Total Value of Production of the Institutions of Transport, Storage (Inside Establishments)	Indicator measures the value of final products of transport, storage (Inside establishments) which are used by other units for self-consumption or for the purposes of self gross fixed capital formation	Total value of goods and services produced by transport, storage (Inside establishments) during a certain period of time and includes goods and services produced for own use	Thousand US Dollar	Country, Region	Economic activity on the second digit	Survey	Annual	
15	1536006	Transport and Storage	Value Added of the Institutions of Transport, Storage (Inside Establishments)	Indicator measures the generated value of any unit that carries out any productive activity in the institutions of transport, storage (inside establishments)	Subtracting the value of intermediate consumption from the value of production for transport, storage	Thousand US Dollar	Country, Region	Economic activity on the second digit	Survey	Annual	
15	1536007	Transport and Storage	Value of Compensations of Employees in the Institutions of Transport and Storage Activities (Inside Establishments)	Indicator measures the total value of cash and kind wages in institutions, including social security contributions, which is paid to any employee for work performed	Total value of cash and kind wages in institutions, including social security contributions, which is paid to any paid employee for work performed in the institutions of transport, storage (inside establishments)	Thousand US Dollar	Country, Region	Economic activity on the second digit	Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1536008	Transport and Storage	Market Value at Beginning of Year of Transport, Storage Establishments	Indicator measures the total estimated value of the asset at the beginning of the year.	Estimating the market value of the asset at the beginning of the year.	Thousand US Dollar	Country, Region	Economic activity on the second digit	Survey	Annual	
15	1536009	Transport and Storage	Market Value at End of Year of Transport, Storage Establishments	Indicator measures the value of the asset at the beginning of the year plus the value of the purchased assets and the capital improvements and additions minus written off and losses and the sold assets and the depreciation value of the asset in the same year.	The total estimated value of the asset at the beginning of the year plus the value of the purchased assets and the capital improvements and additions minus written off and losses and the sold assets and the depreciation value of the asset in the same year	Thousand US Dollar	Country, Region	Economic activity on the second digit	Survey	Annual

Transport sector (Outside Establishments) Statistics Subject Code: 1537											
15	1537001	Transport sector (Outside Establishments)	Total Value Added in Transport Sector (Outside Establishments)	Indicator measures the generated value of any unit that carries out any productive activity in the transport sector outside establishments	Subtracting the value of intermediate consumption from the value of production for transport sector outside establishments	Thousand US Dollar	Country, Region	Economic activity on the second digit	Survey	Annual	
15	1537002	Transport sector (Outside Establishments)	Number of Employed Persons in Transport Sector (Outside Establishments)	Indicator measures the number of employed persons in the transport sector (outside establishments)	Total number of employed persons in the transport sector (outside establishments)	Number	Country, Region	Economic activity on the second digit	Survey	Annual	
15	1537003	Transport sector (Outside Establishments)	Number of Vehicles in the Transport Sector (Outside Establishments)	Indicator measures the number of vehicles in the transport sector (outside establishments)	Total number of vehicles in the transport sector (outside establishments)	Number	Country, Region	Vehicle type (passenger transport vehicles, freight transport vehicles)	Survey	Annual	
15	1537004	Transport sector (Outside Establishments)	Operating Surplus for the Transport Sector (Outside Establishments)	Indicator measures the total value added at basic prices minus the total compensation of employees (including compensation paid to non-residents), minus taxes minus subsidies on products	Value added minus the total compensation of employees, minus taxes minus subsidies on products	Thousand US Dollar	Country, Region	Economic activity in Transport outside Establishment sector	Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1537005	Transport sector (Outside Establishments)	Value of Intermediate Consumption- in	Indicator measures the total value of goods and services consumed as inputs, used up or transformed during the production it is measured during a specific period of time, in the transport sector outside establishments	Total value of goods and services consumed as inputs, used up or transformed during the production and estimated by purchasers price	Thousand US Dollar	Country, Region	Economic activity in Transport outside Establishment sector	Survey	Annual	
15	1537006	Transport sector (Outside Establishments)	Production Value of the Transport Sector (Outside Establishments)	Indicator measures the value of final products of services produced by the transport sector outside the establishments which provided to other units, although they can be self-consumed or for the purposes of self gross fixed capital formation	Total value of goods and services produced by transport institutions outside installations during a certain period of time .	Thousand US Dollar	Country, Region	Economic activity in Transport outside Establishment sector	Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1537007	Transport sector (Outside Establishments)	Value of Taxes on Production in Transport Sector (Outside Establishments)	Its compulsory payments in cash or in kind with no return paid by producers to the general government. Consists of product taxes paid on goods and services when produced, sold or discharged, and other taxes on production paid by the resident as a result of practicing of the production process	Total value of amounts paid by the producers to the government during a certain period of time including taxes on production	Thousand US Dollar	Country, Region	Economic activity in Transport outside Establishment sector	Survey	Annual	
15	1537008	Transport sector (Outside Establishments)	Market Value at Beginning of Year in the Transport Sector (Outside Establishments)	Indicator measures the total estimated value of the asset at the beginning of the year.	Estimating the market value of the asset at the beginning of the year.	Thousand US Dollar	Country, Region	Type of asset (Vehicles, Machines and Equipments), transport type (Other non-scheduled passenger transport, Freight transport by road)	Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1537009	Transport sector (Outside Establishments)	Market Value at End of Year in the Transport Sector (Outside Establishments)	Indicator measures the value of the asset at the beginning of the year plus the value of the purchased assets and the capital improvements and additions minus written off and losses and the sold assets and the depreciation value of the asset in the same year	The total estimated value of the asset at the beginning of the year plus the value of the purchased assets and the capital improvements and additions minus written off and losses and the sold assets and the depreciation value of the asset in the same year	Thousand US Dollar	Country, Region	Type of asset (Vehicles, Machines and Equipments), transport type (Other non-scheduled passenger transport, Freight transport by road)	Survey	Annual	
15	1537010	Transport sector (Outside Establishments)	Value of Compensations of Employees in the Transport Sector (Outside Establishments)	Indicator measures the total remuneration, in cash or in kind, including social security contributions, payable by an enterprise to an employee in return for work done by employed person (in Transport-Outside Establishments Sector)	Total remuneration, in cash or in kind, including social security contributions, payable by an enterprise to an employee in return for work done by employed person (in Transport-Outside Establishments Sector)	Thousand US Dollar	Country, Region	Economic activity in Transport outside Establishment sector	Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Telecommunications Statistics Subject Code: 1540											
15	1540001	Telecommunications	Number of Internet Subscribers by the Fast Lane (ADSL)	Indicator measures the internet subscribers by the fast lane (ADSL)	Total number of internet subscribers by the fast lane (ADSL)	Number	Country, Region		Administrative Records	Annual	
15	1540002	Telecommunications	Number of Subscribers in the Palestinian Cellular Phone Service	Indicator measures the number of subscribers in the Palestinian cellular phone service	Total number of subscribers in the Palestinian cellular phone service	Number	Country, Region		Administrative Records	Annual	
15	1540003	Telecommunications	Number of Postal Items	Indicator measures the number of postal items	Total number of postal items includes letters and parcels of various kinds	Number	Country, Region	Postal items (Inbox, Outbox),	Administrative Records	Annual	
15	1540004	Telecommunications	Number of Main Telephone Lines	Indicator measures the number of main telephone lines and the fixed telephone line refers to the telephone line that connects the client machine terminal (such as a phone or fax) with the public switched telephone network (PSTN), which has its own port to the phone switches	Total number of the main telephone lines	Number	Country, Region		Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1540005	Telecommunications	Monthly Average Number of Local Telephone Calls	Indicator measures the volume rate of local calls per month	Dividing the number of calls carried out in a period of time (a year, for example) by the number of months	Rate	Country, Region		Administrative Records	Annual	
15	1540006	Telecommunications	Monthly Average of Calls Duration	Indicator measures the calls duration divided by the number of months in the year	Dividing the sum of calls duration by the number of months in the year	Rate	Country, Region		Administrative Records	Annual

15	1555004	Industry	Number of Waged Employees in the Enterprises of Industry Activities	Indicator measures the number of waged employees in the enterprises of industry activities	Total number of waged employees in the enterprises of industry activities	Number	Country, Region	Economic activity at the second digit	Survey	Annual	
									Census	Every five years	
15	1555005	Industry	Number of Employed Persons in the Enterprises of Industry Activities	Indicator measures the number of employed persons in industry activities	Total number of employed persons in the industry activities	Number	Country, Region	Economic activity at the second digit	Survey	Annual	
									Census	Every five years	
15	1555006	Industry	Number of Waged Employees in Olive Presses	Indicator measures the number of waged employees in olive presses	Total number of waged employees in olive presses	Number	Country, Region, Governorate	The level of automation of the presses (traditional presses, semi-automatic, Automatic presses)	Survey	Annual	
15	1555007	Industry	Number of Enterprises in the Industry Activities	Indicator measures the number of enterprises in industry activities	Total number of the enterprises in industry activities	Number	Country, Region	Economic activity at the second digit	Survey	Annual	
									Census	Every five years	
15	1555008	Industry	Number of Olive Presses	Indicator measures the number of olive presses	Total number of olive presses	Number	Country, Region, Governorate	Operating status (Active, Temporarily Closed)	Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1555009	Industry	Value of Intermediate Consumption in Olive Presses	Indicator measures the total value of the goods and services consumed as inputs by a process of production, excluding fixed assets whose consumption is recorded as consumption of fixed capital, in olive presses	Total value of the goods and services consumed as inputs by a process of production, excluding fixed assets whose consumption is recorded as consumption of fixed capital and it is estimated by purchasers price	Thousand US Dollar	Country, Region, Governorate	The level of automation of the presses (traditional presses, semi-automatic, Automatic presses)	Survey	Annual	
15	1555010	Industry	Value of Intermediate Consumption in the Enterprises of Industry Activities	Indicator measures the total value of the goods and services consumed as inputs by a process of production, excluding fixed assets whose consumption is recorded as consumption of fixed capital, in the institution of industry activities	Total value of the goods and services consumed as inputs by a process of production, excluding fixed assets whose consumption is recorded as consumption of fixed capital and it is estimated by purchasers price	Thousand US Dollar	Country, Region	Economic activity at the second digit	Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1555011	Industry	Total Value of Production of the Enterprises of Industry Activities	Indicator measures the value of goods and services produced by a certain enterprises, capable of being provided to other units or it can be self- consumed for GFCF or own final consumption.	The value of goods and services produced by a certain enterprises, capable of being provided to other units or it can be self- consumed for GFCF or own final consumption.	Thousand US Dollar	Country, Region	Economic activity at the second digit	Survey	Annual	
15	1555012	Industry	Value of Fees and Taxes in Olive Presses	Indicator measures presses license fees and vehicles license fees, buildings taxes and other taxes	Total of presses license fees and vehicles license fees, buildings taxes and other taxes	Thousand US Dollar	Country, Region, Governorate	The level of automation of the presses (traditional presses, semi-automatic, Automatic presses)	Survey	Annual	
15	1555013	Industry	Value Added of the Enterprises of Industry Activities	Indicator measures the generated value of any unit that carries out any productive activity in the industry activities	Subtracting the value of intermediate consumption from the value of production for industry activities	Thousand US Dollar	Country, Region	Economic activity at the second digit	Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1555014	Industry	Total Value of Production of the Enterprises of Olive Presses Activities	Indicator measures the value of goods and services produced by a certain enterprises, capable of being provided to other units or it can be self- consumed for GFCF or own final consumption.	The value of goods and services produced by a certain enterprises, capable of being provided to other units or it can be self- consumed for GFCF or own final consumption.	Thousand US Dollar	Country, Region, Governorate	The level of automation of the presses (traditional presses, semi-automatic, Automatic presses)	Survey	Annual	
15	1555015	Industry	Value of Compensations of Employees in the Enterprises of Industry Activities	Indicator measures the total value of cash and kind wages in enterprises, including social security contributions, which is paid to any employee for work performed	Total compensation of employees in the enterprises of industry activities	Thousand US Dollar	Country, Region	Economic activity at the second digit	Survey	Annual	
15	1555016	Industry	Quantity of Oil Extracted	Indicator measures amount of oil extracted from olives	Total amount of oil extracted from olives	Ton	Country, Region, Governorate	The level of automation of the presses (traditional presses, semi-automatic, Automatic presses)	Survey	Annual	
15	1555017	Industry	Quantity of Olive Pressed	Indicator measures amount of pressed olives	Amount of pressed olives	Ton	Country, Region, Governorate	The level of automation of the presses (traditional presses, semi-automatic, Automatic presses)	Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
15	1555018	Industry	Ratio of Extraction	Indicator measures the amount of oil extracted from the amount of pressed olives	Represents the amount of oil extracted divided by the amount of pressed olives	Ratio	Country, Region, Governorate		Survey	Annual	
15	1555019	Industry	Market Value of the Asset at Beginning of Year in the Enterprises of Industry Activities	Indicator measures the total estimated value of the asset at the beginning of the year	Estimating the market value of the asset at the beginning of the year.	Thousand US Dollar	Country, Region	Economic activity at the second digit	Survey	Annual	
15	1555020	Industry	Market Value of the Asset at End of Year in the Enterprises of Industry Activities	Indicator measures the value of the asset at the beginning of the year plus the value of the purchased assets and the capital improvements and additions minus written off and losses and the sold assets and the depreciation value of the asset in the same year	The total estimated value of the asset at the beginning of the year plus the value of the purchased assets and the capital improvements and additions minus written off and losses and the sold assets and the depreciation value of the asset in the same year	Thousand US Dollar	Country, Region	Economic activity at the second digit	Survey	Annual

Housing and Housing Conditions Statistics Subject Code: 2015											
20	2015001	Housing and Housing Conditions	Number of Buildings	Indicator measures the number of buildings	Total number of buildings	Number	Country, Region, Governorate, Locality	Type of Building, Utilization of Building, Type of Ownership, Material of External Walls, Number of floors, Year of Construction, Number of Housing units in the Building	Census	Every ten years	
20	2015002	Housing and Housing Conditions	Number of Houses	Index measures the number of houses	Total number of Houses	Number	Country, Region, Governorate, Locality	Utilization	Census	Every ten years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2015003	Housing and Housing Conditions	Number of Occupied Housing Unit	Indicator measures the number of occupied housing unit	Total number of occupied housing unit	Number	Country, Region, Governorate, Locality	Type of locality, Housing Unit type, Tenure type, Number of rooms, Number of bedrooms, Main source of water, Connection to electricity, Connection to sewage, Availability of Kitchen, Availability Bathroom, Availability of Toilet, Housing Density, Availability of durable goods, Occupancy type	Survey	Every three years	
									Census	Every ten years	
20	2015004	Housing and Housing Conditions	Average of Monthly Rental of Housing Units	Indicator measures the monthly average rental of housing units	Dividing total monthly rental housing units, by the total number of rented housing units	Jordanian Dinar	Country, Region	Type of locality	Survey	Every three years	
20	2015005	Housing and Housing Conditions	Average Number of Rooms	Indicator measures the average number of rooms in the housing units	Dividing total number of rooms in a given area by the number of housing units in the same area	Average (room/ Housing unit)	Country, Region, Governorate	Type of locality	Survey	Every three years	
									Census	Every ten years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2015006	Housing and Housing Conditions	Average Number of Bedrooms	Indicator measures the average number of rooms for sleeping in housing units of Palestinian households	Dividing total number of bedrooms in a given area by the number of housing units in the same area	Average (bedroom/ Housing unit)	Country, Region, Governorate	Type of locality	Survey	Every three years	
									Census	Every ten years	
20	2015007	Housing and Housing Conditions	Housing Density	Indicator measures the number of people per room in the housing unit	Dividing total number of people in a given area by the total number of available rooms in housing units in the same area	Average (Person/ Room)	Country, Region, Governorate	Type of locality	Survey	Annual	
									Census	Every ten years	
20	2015008	Housing and Housing Conditions	Percentage of Durable Goods Available in the Housing Unit	Indicator measures the availability of durable goods in housing unit	Dividing the number of households that have some of durable goods, by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate	Type of locality, Type of goods (Special car, Refrigerator, Washing machine, Home library, Telephone, ...etc)	Survey	Annual	
									Census	Every ten years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2015009	Housing and Housing Conditions	Percentage of Households that Completed the Constructing of Housing Unit in Certain Period of Time	Indicator measures the percentage of households that completed the constructing of housing unit in certain period of time	Dividing number of households that completed constructing of housing unit in certain period of time by the total number of households, multiplied by hundred	Percentage	Country, Region	Type of locality	Survey	Every three years	
20	2015010	Housing and Housing Conditions	Percentage of Households with Specific Housing Unit Surface Area (Specific Area)	Indicator measures the percentage of households with specific housing unit surface area (specific area)	Dividing number of households with specific housing unit surface area (specific area in square meter) by total number of households, multiplied by hundred	Percentage	Country, Region	Type of locality	Survey	Every three years	
20	2015011	Housing and Housing Conditions	Percentage of Households that Live in Housing Units with Various Types of Tenure	Indicator measures the percentage of households that living in housing unit of certain type of tenure	Dividing number of households that live in housing unit of certain type of tenure by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate	Type of locality	Survey	Annual	
									Census	Every ten years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2015012	Housing and Housing Conditions	Percentage of Households that Live in Certain Type of Housing Units	Indicator measures the percentage of households that live in housing unit of certain type	Dividing number of households that live in housing unit of certain type by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate	Type of locality	Survey	Annual	
									Census	Every ten years	
20	2015013	Housing and Housing Conditions	Percentage of Households within a Certain Distance from Nearest Doctor Clinic	Indicator measures the percentage of households within a certain distance from nearest doctor clinic	Dividing number of households within a certain distance from nearest doctor clinic, by the total number of households, multiplied by hundred	Percentage	Country, Region	Type of locality	Survey	Every three years	
20	2015014	Housing and Housing Conditions	Percentage of Households within a Certain Distance from Nearest Elementary School	Indicator measures the percentage of households within a certain distance from the nearest elementary school	Dividing number of households within a certain distance from nearest elementary school, by the total number of households, multiplied by hundred	Percentage	Country, Region	Type of locality	Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2015015	Housing and Housing Conditions	Percentage of Households within a Certain Distance from Nearest Maternal and Childhood Center	Indicator measures the percentage of households within a certain distance from nearest maternal and childhood center	Dividing number of households within a certain distance from nearest maternal and childhood center, by the total number of households, multiplied by hundred	Percentage	Country, Region	Type of locality	Survey	Every three years	
20	2015016	Housing and Housing Conditions	Percentage of Households within a Certain Distance from Nearest Health Center	Indicator measures the percentage of households within a certain distance from nearest health center	Dividing number of households within a certain distance from nearest health center, by the total number of households, multiplied by hundred	Percentage	Country, Region	Type of locality	Survey	Every three years	
20	2015017	Housing and Housing Conditions	Percentage of Households within a Certain Distance from Nearest Hospital	Indicator measures the percentage of households within a certain distance from nearest hospital	Dividing number of households within a certain distance from nearest hospital, by the total number of households, multiplied by hundred	Percentage	Country, Region	Type of locality	Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2015018	Housing and Housing Conditions	Percentage of Households within a Certain Distance from Nearest Public Transportations	Indicator measures the percentage of households within a certain distance from nearest public transportations	Dividing number of households within a certain distance from nearest public transportations, by the total number of households, multiplied by hundred	Percentage	Country, Region	Type of locality	Survey	Every three years	
20	2015019	Housing and Housing Conditions	Percentage of Households with a Bathroom	Indicator measures the availability of bathroom in the housing unit	Dividing number of households with a bathroom by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate	Type of locality	Survey	Every three years	
									Census	Every ten years	
20	2015020	Housing and Housing Conditions	Percentage of Households with a Toilet	Indicator measures the availability of toilet in the housing unit	Dividing number of households with a toilet by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate	Type of locality	Survey	Every three years	
									Census	Every ten years	
20	2015021	Housing and Housing Conditions	Percentage of Households with a Kitchen	Indicator measures the availability of kitchen in the housing unit	Dividing number of households with a kitchen by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate	Type of locality	Survey	Every three years	
									Census	Every ten years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Environment Statistics Subject Code: 2020											
20	2020001	Environment	Cost of Waste Water Disposal	Indicator measures the cost of waste water disposal per year	Total payment for waste water disposal per year	Israeli Shekel (NIS)	Country, Region, Governorate	Sector (educational, household, health care, establishments)	Administrative Records	Every two years	
20	2020002	Environment	Monthly Cost of Consumed Water	Indicator measures the cost of water consumed during the month	Total payment for water consumption during the month	Israeli Shekel (NIS)	Country, Region, Governorate	Sector (educational, household, health care, establishment)	Administrative Records	Every two years	
20	2020003	Environment	Number of Used Toilets	Indicator measures the number of used toilets	Total of number of used toilets	Number	Country, Region, Governorate	Sector (educational, household, health care, establishments)	Administrative Records	Every two years	
20	2020004	Environment	Number of Rainy Days	Indicator measures the number of rainy days (rainy day means: The day in which the quantity of rain is 0.01 inch or its equivalent or more)	Total number of rainy days	Number	Meteorological Station		Administrative Records	Annual	
20	2020005	Environment	Number of Drinking Water Taps	Indicator measures the number of taps used for drinking in Educational Institutions	Number of taps used for drinking in Educational Institutions	Number	Country, Region, Governorate	Stage	Administrative Records	Every two years	
20	2020006	Environment	Number of Water Tanks	Indicator measures the number of water Tanks	number of water Tank in Enterprises or establishment	Number	Country, Region, Governorate	Sector (educational, household, health care, establishments)	Administrative Records	Every two years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020007	Environment	Number of Wastewater Treatment Plants	Indicator measures the number of wastewater treatment plants	Total number of wastewater treatment plants	Number	Country, Region, Governorate		Administrative Records	Unspecified periodicity	
20	2020008	Environment	Number of Waste Dumping Sites	Indicator measures the number of waste dumping sites	Total number of waste dumping sites	Number	Country, Region, Governorate		Administrative Records	Every two years	
20	2020009	Environment	Number of Times of Checking Tanks	Indicator measures the number of times of checking water tanks	Number of times of checking water tanks	Number	Country, Region, Governorate	Sector (educational, household, health care, establishments)	Administrative Records	Every two years	
20	2020010	Environment	Number of Cesspit Evacuation	Indicator measures the number of cesspit evacuation	Total number of cesspits evacuation	Ton	Country, Region	Sector (Domestic, Economic, Educational, Health Centers, Localities)	Survey	Every two years	
20	2020011	Environment	Quantities of Municipal Waste	Indicator measures the quantities of municipal waste	Total quantities of municipal waste	Ton	Country, Region, Governorate		Survey, Administrative Records	Every two years	
20	2020012	Environment	Evaporation Quantity	Indicator measures the evaporation quantity in Palestine	Total quantity of evaporation	MM	Meteorologic-al Station		Administrative Records	Annual	
20	2020013	Environment	Annual Rainfall	Indicator measures the annual rainfall	Total of annual rainfall	MM	Meteorologic-al Station		Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020014	Environment	Quantity of Separated Solid Waste	Indicator measures the quantity of separated Solid waste	Total amount of separated Solid waste	Ton	Country, Region	Sector (Domestic, Economic, Educational, Health care, Localities), type of separated solid waste, means of separated solid waste collection, periodicity of separated solid waste collection	Survey	Every two years	
20	2020015	Environment	Quantity of Non-Solid Separated Waste	Indicator measures quantity of non-separated solid waste	Total quantity of non-separated solid waste	Ton	Country, Region	Sector (Domestic, Economic, Educational, Health care, Localities), type of non-separated solid waste, means of non-separated solid waste collection, periodicity of non-separated solid waste collection	Survey	Every two years	
20	2020016	Environment	Quantity of Generated Waste	Indicator measures the quantity of generated waste	Total amount of generated waste	Ton	Country, Region, The Region (North, Middle, South of West Bank)	Sector (Domestic, Economic, Educational, Health care, Localities), type of generated waste	Survey	Every two years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020017	Environment	Average Daily Generation of Waste	Indicator measures the average daily generation of waste	Dividing the total volume of wastes generated daily in kilograms by total number of household establishment	Kg/ day	Country, Region	Sector (Domestic, Economic, Educational, Health care, Localities)	Survey	Every two years	
20	2020018	Environment	Average Daily Production Per Capita of Domestic Waste	Indicator measures the average daily production per capita of domestic waste	Dividing the total volume of wastes produced daily by individuals in kilograms by the total number of individuals	Kg/ day	Country, Region		Survey	Every two years	
20	2020019	Environment	Average Water Consumption	Indicator measures the average of water consumption	Quantity of Consumed Water divided by the number of measuring units	Liter / measuring units	Country, Region, Governorate	Sector (educational, household, health care, establishment)	Administrative Records	Every two years	
20	2020020	Environment	Average Annual Expenditure on Hygiene	Indicator measures the annual expenditure on hygiene	Annual expenditures on hygiene	Israeli Shekel (NIS)	Country, Region, Governorate	Sector (educational, household, health care, establishments)	Administrative Records	Every two years	
20	2020021	Environment	Mean of Relative Humidity	Indicator measures the ratio of water vapor in the air to total vapor needed to reach saturation	Dividing partial pressure of water vapor by the water vapor pressure multiplied by hundred	Percentage	Meteorologic-al Station		Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020022	Environment	The monthly Average of the Amounts Paid for Disposing of Solid Waste	Indicator measures the cost of disposing solid waste during a month	Total payment for disposing of solid waste during a month	Israeli Shekel (NIS)	Country, Region, Governorate	Sector (educational, household, health care, establishments)	Administrative Records	Every two years	
20	2020023	Environment	Mean of Atmospheric Pressure	Indicator measures mean of atmospheric pressure, it is defined as the weight of the air column laying on unit area (cm ²) at any point on the earth surface, measured in dyne/cm ² or Newton /m ² the common unit in meteorology is the Mill bar unit (bar equals a million dyne/ cm ²)	Atmospheric pressure measured by using mercurial barometer or metal barograph	Rate	Meteorologic-al Station		Administrative Records	Annual	
20	2020024	Environment	Overall Mean of Air Temperature	Indicator measures the air temperature means	Dividing sum of air temperature measurements at intervals in a station by the number of times of measurement	C°	Meteorologic-al Station		Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020025	Environment	Mean of Air Temperature	Indicator measures the mean air temperature (the maximum and the minimum)	Dividing the sum of air temperature (the maximum and the minimum) at intervals in a given station by the number of times of measurement	C°	Meteorological Station	Air temperature (maximum, minimum)	Administrative Records	Annual	
20	2020026	Environment	Average Hours of Solar Radiation	Indicator measures the average hours of solar luminosity during the day	Number of hours of solar luminosity during the day within specified period of time	Number of luminosity hours/day	Meteorological Station		Administrative Records	Annual	
20	2020027	Environment	Average Wind Speed	Indicator measures the average of wind speed	Dividing sum of wind speed measurements on intervals in a given station by the number of measurements	Km/ Hour	Meteorological Station		Administrative Records	Annual	
20	2020028	Environment	Percentage of Connection to Wastewater Network	Indicator measures the extent of connection to wastewater network	Dividing total number of enumeration units (housing unit, locality, Enterprise etc.) that connected to wastewater network, by total number of these units, multiplied by hundred	Percentage	Country, Region, The Region (North, Middle, South of West Bank)	Sector (Domestic, Economic, Educational, Health care, Localities)	Survey	Every two years	
									Census	Every ten years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020029	Environment	Percentage of Connection to Public Water Network	Indicator measures the extent of connect to public water network	Dividing total number of enumeration units (housing unit, locality, institution etc.) that connected to public water network, by total number of these units, multiplied by hundred	Percentage	Country, Region, The Region (North, Middle, South of West Bank)	Sector (Domestic, Economic, Educational, Health care, Localities)	Survey	Every two years	
									Census	Every ten years	
20	2020030	Environment	Percentage of Households within a Certain Distance from Source of Water	Indicator measures the percentage of households within a certain distance from source of water	Dividing number of households within a certain distance from source of water, by the total number of households, multiplied by hundred	Percentage	Country, Region		Survey	Every two years	
20	2020031	Environment	Percentage of Localities Connected to Electricity Network	Indicator measures the extent that localities connected to electricity network	Dividing number of localities that have public electricity network by total number of localities, multiplied by hundred	Percentage	Country, Region, Governorate		Survey, Administrative Records	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020032	Environment	Percentage of Wastewater Disposal	Indicator measures the extent of wastewater disposal	Dividing total number of enumeration units (housing unit, Locality, Enterprise etc.) that use a certain method for disposal of wastewater , by total number of these units, multiplied by hundred	Percentage	Country, Region, The Region (North, Middle, South of West Bank)	Sector (Domestic, Economic, Educational, Health care, Localities), method of wastewater disposal	Survey	Every two years	
									Census	Every ten years	
20	2020033	Environment	Percentage of Wastes Disposal	Indicator measures the various methods of wastes disposal	Dividing number of enumeration units that use a particular method for the disposal of waste by total number of these units, multiplied by hundred	Percentage	Country, Region, The Region (North, Middle, South of West Bank)	Sector (Domestic, Economic, Educational, Health care, Localities), Disposal Method of Solid Wastes (Thrown in the nearest container, Burned, Thrown into a dumping site, Thrown randomly, Others), Container Type, Site of Container, Responsibility Place waste disposal Periodic disposal of waste	Survey, Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020034	Environment	Percentage of Exposure to Pollutants	Indicator measured the extent of exposure to the various pollutants	Dividing number of enumeration units that expose to a particular type of various pollutants by total number of these units, multiplied by hundred	Percentage	Country, Region, The Region (North, Middle, South of West Bank)	Sector (Domestic, Economic, Educational, Health care, Localities), Type of pollutant (Smoke, Dust, Smells, Noise), Time of exposure, Pollutants sources, and the first source for any type of Pollutants	Survey	Every two years	
									Census	Every ten years	
20	2020035	Environment	Percentage of Composition of Solid Waste	Indicator measures the percentage of the various components of solid wastes produced by enumeration units	Dividing number of enumeration units that produce a particular component of solid wastes by total number of these units, multiplied by hundred	Percentage	Country, Region, The Region (North, Middle, South of West Bank)	Sector (Domestic, Economic, Educational, Health care, Localities), Component of Solid Wastes (Baby's nappy, Food wastes, Paper and cartoon, Other)	Survey	Every two years	
									Census	Every ten years	
20	2020036	Environment	Percentage of Establishments that Evacuate Cesspits	Indicator measures the percentage of establishments that evacuate cesspits	Dividing the number of establishments that evacuate cesspit by the total number of establishments multiplied by hundred	Percentage	Country, Region	Sector (Domestic, Economic, Educational, Health care, Localities)	Survey	Every two years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020037	Environment	Percentage of Evaluating Quality of Water	Indicator measures how enumeration units and interviewers evaluate quality of water	Dividing number of enumeration units that evaluated quality of water with certain description, by total number of these units, multiplied by hundred	Percentage	Country, Region, The Region (North, Middle, South of West Bank)	Sector (Domestic, Economic, Educational, Health care centers, Localities), Evaluating water (Good, Fairly good, Bad)	Survey	Every two years	
									Census	Every ten years	
20	2020038	Environment	Percentage of Area of Reuse Treated Wastewater	Indicator measures the extent of reuse wastewater in different areas	Dividing number of enumeration units that reuse wastewater in different areas by total number of these units, multiplied by hundred	Percentage	Country, Region	Domestic Sector	Survey	Every two years	
20	2020039	Environment	Percentage of Existence of Continuity of Water Supply Service	Indicator measures the extent of existence of continuity of water supply service	Dividing number of enumeration units that have continuity of water supply service by total number of these units, multiplied by hundred	Percentage	Country, Region	Domestic Sector	Survey	Every two years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020040	Environment	Percentage of Existence of Waste Collection Service	Indicator measures the extent of existence of waste collection service	Dividing number of enumeration units that have waste collection service by total number of these units, multiplied by hundred	Percentage	Country, Region, The Region (North, Middle, South of West Bank)	Sector (Domestic, Economic, Educational, Health care, Localities), type of method, Entity that collects waste	Survey, Administrative Records	Annual	
20	2020041	Environment	Percentage of Existence of Separation of Waste	Indicator measures the extent of existence of waste separation	Dividing number of enumeration units that have separation of wastes by total number of these units, multiplied by hundred	Percentage	Country, Region, The Region (North, Middle, South of West Bank)	Sector (Domestic, Economic, Educational, Health care, Localities), Type of Separation of Waste, The methods used to separate waste	Survey	Every two years	
									Census	Every ten years	
20	2020042	Environment	Percentage of Existence of Wastewater Treatment	Indicator measures the extent of existence of wastewater treatment	Dividing number of enumeration units that have treatment for wastewater by total number of these units, multiplied by hundred	Percentage	Country, Region, The Region (North, Middle, South of West Bank)	Sector (Domestic, Economic, Educational, Health care, Localities), the purpose of the use	Survey	Every two years	
20	2020043	Environment	Percentage of Existence of Solid Waste Treatment	Indicator measures the extent of existence of solid waste treatment	Dividing number of enumeration units that have treatment for waste by total number of these units, multiplied by hundred	Percentage	Country, Region, The Region (North, Middle, South of West Bank)	Sector (Domestic, Economic, Educational, Health care, Localities)	Survey	Every two years	
									Census	Every ten years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020044	Environment	Percentage of Existence of a Canteen or Cafeteria in the Educational Institutions	Indicator measures the existence of a canteen or cafeteria	Number of Educational Institutions which has canteen or cafeteria divided by total number of Educational Institutions	Percentage	Country, Region, Governorate	The nature of the cafeteria building, Site of cafeteria , Cafeteria space, Water source, existence of laundry, The distance between the cafeteria and Health Unit	Administrative Records	Every two years	
20	2020045	Environment	Percentage of Obtaining Water from a Different Sources	Indicator measures the different sources of water used by population	Dividing number of enumeration units that use certain source of water, by total number of these units, multiplied by hundred	Percentage	Country, Region, The Region (North, Middle, South of West Bank)	Sector (Domestic, Economic, Educational, Health care, Localities).	Survey	Every two years	
									Census	Every ten years	
20	2020046	Environment	Emissions of Carbon Dioxide Per Capita	Indicator measures the average amount of carbon dioxide per capita emitted into the air during a specified period of time	Dividing the amount of carbon dioxide emitted into the air during a specific period of time by the total population for the same period	Metric Ton (MT)	Country, Region		Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020047	Environment	Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030	Indicator measures the number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework	Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework	Number	Country		Estimated by United Nations International Strategy for Disaster Reduction (UNISDR)	Unspecified periodicity	SDGs Indicator 1.5.3 11.b.1 13.1.2
20	2020048	Environment	Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies	Indicator measures the local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies	Dividing number of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies by total of all local government in Country	Percentage	Country, Governorate		Estimated by United Nations International Strategy for Disaster Reduction (UNISDR)	Unspecified periodicity	SDGs Indicator 1.5.4 11.b.2 13.1.3

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020049	Environment	CO2 emission per unit of value added	Indicator measures the ratio between CO2 emissions from fuel combustion and the value added of associated economic activities	Dividing CO2 emission for all sectors in (kg) by manufacturing value Added in (USD).	KG/ US Dollar	Country		Estimated by United Nations of Statistics Division (UNSD), and International Energy Agency (IEA).	Annual	SDGs Indicator 9.4.1
20	2020050	Environment	Number of countries with sustainable consumption and production (SCP) national action plans or SCP mainstreamed as a priority or a target into national policies	Indicator measures the Number of countries with sustainable consumption and production (SCP) national action plans or SCP mainstreamed as a priority or a target into national policies	Number of countries with sustainable consumption and production (SCP) national action plans or SCP mainstreamed as a priority or a target into national policies	Number	Country		Estimated by United Nations Environment Program (UNEP)	Unspecified periodicity	SDGs Indicator 12.1.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020051	Environment	Number of parties to international multilateral environmental agreements on hazardous waste, and other chemicals that meet their commitments and obligations in transmitting information as required by each relevant agreement	Indicator measures the Number of parties to international multilateral environmental agreements on hazardous waste, and other chemicals that meet their commitments and obligations in transmitting information as required by each relevant agreement	Number of parties to international multilateral environmental agreements on hazardous waste, and other chemicals that meet their commitments and obligations in transmitting information as required by each relevant agreement	Number	Country		Estimated by United Nations Environment Program (UNEP)	Unspecified periodicity	SDGs Indicator 12.4.1
20	2020052	Environment	Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population	https://reliefweb.int/sites/reliefweb.int/files/resources/54970_techguidancefdigitalhr.pdf	https://reliefweb.int/sites/reliefweb.int/files/resources/54970_techguidancefdigitalhr.pdf	Number	Country		Estimated by United Nations International Strategy for Disaster Reduction (UNISDR)	Annual	SDGs Indicator 13.1.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020053	Environment	Proportion of important sites for terrestrial and freshwater biodiversity that are covered by protected areas	Indicator measures the Proportion of important sites for terrestrial and freshwater biodiversity that are covered by protected areas, shows temporal trends in the mean percentage of each important site for terrestrial and freshwater biodiversity (i.e., those that contribute significantly to the global persistence of biodiversity) that is covered by designated protected areas.	https://www.unesco.org/sites/www.unescwa.org/files/goal_15_ecosystem.pdf#%5B%7B%22name%22%3A%22FitH%22%7D%2C846%5D	Percentage	Country	Ecosystem type	Estimated by International Union for Conservation of Nature (IUCN)	Annual	SDGs Indicator 15.1.2

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020054	Environment	Coverage by protected areas of important sites for mountain biodiversity	Indicator Coverage by protected areas of important sites for mountain biodiversity shows temporal trends in the mean percentage of each important site for mountain biodiversity (i.e., those that contribute significantly to the global persistence of biodiversity) that is covered by designated protected areas.	https://www.unescwa.org/sites/www.unescwa.org/files/goal_15_ecosystem.pdf#%5B%7B%22name%22%3A%22FitH%22%7D%2C%7B%22um%22%3A67%2C%22gen%22%3A0%7D%2C%7B%22name%22%3A%22FitH%22%7D%2C846%5D	KM²	Country		Estimated by International Union for Conservation of Nature (IUCN)	Annual	SDGs Indicator 15.4.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020055	Environment	Red List Index	Indicator measures the Red List of Threatened Species (also known as the IUCN Red List or Red Data List), founded in 1965, has evolved to become the world's most comprehensive inventory of the global conservation status of biological species. It uses a set of criteria to evaluate the extinction risk of thousands of species and subspecies	https://www.unesco.org/sites/www.unesco.org/files/goal_15_ecosystem.pdf#%5B%7B%22name%22%3A%22FitH%22%7D%2C846%5D	Rate	Country		Estimated by International Union for Conservation of Nature (IUCN)	Annual	SDGs Indicator 15.5.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020056	Environment	Proportion of population using safely managed drinking water services	Indicator measures the proportion of population using safely managed drinking water services is currently being measured by the proportion of population using an improved basic drinking water source which is located on premises and available when needed and free of fecal (and priority chemical) contamination. 'Improved' source defined the same as used for MDG monitoring i.e. piped water into dwelling, yard or plot; public taps or standpipes; boreholes or tube wells; protected dug wells; protected springs and rainwater.	Dividing the number of population benefiting from safe-drinking water services by the total population multiplied by hundred.	Percentage	Governorate		Survey, Census	Every two years	SDGs Indicator 6.1.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2020057	Environment	Proportion of population using safely managed sanitation services, including a hand-washing facility with soap and water.	Indicator measured by the proportion of the population using an improved basic sanitation facility at the household level which is not shared with other households and where excreta is safely disposed in situ or treated off-site. 'Improved' source defined the same as used for MDG monitoring i.e. flush or pour flush toilets to sewer systems, septic tanks or pit latrines, ventilated improved pit latrines, pit latrines with a slab, and composting toilets. Population with a hand washing facility: a device to contain, transport or regulate the flow of water to facilitate hand washing with soap and water in the household.	Household surveys and censuses provide data on use of types of basic sanitation facilities listed above, as well as the presence of hand washing materials in the home. The percentage of the population using safely managed sanitation services is calculated by combining data on the proportion of the population using different types of basic sanitation facilities with estimates of the proportion of fecal waste which is safely disposed in situ or treated off-site.	Percentage	Governorate		Survey, Census	Every two years	SDGs Indicator 6.2.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Water Statistics						Subject Code: 2025					
20	2025001	Water	Daily Per Capita Share of Water	Indicator measures the daily quantity share of water for the Palestinian individual	Dividing total quantity of pumped water to domestic sector for population in an area for one day, by the total number of population	Liter/Capita /Day	Country, Region, Governorate		Administrative Records	Annual	
20	2025002	Water	Number of Groundwater Wells	Indicator measures the number of groundwater wells	Total number of groundwater wells	Number	Country, Region, Governorate	Type of well (Domestic, Agriculture)	Administrative Records	Annual	
20	2025003	Water	Number of Groundwater Wells of the Israeli Water Company (Mekorot)	Indicator measures the number of groundwater wells of the Israeli water company (Mekorot)	Total number of groundwater wells of the Israeli water company (Mekorot)	Number	Country, Region, Governorate		Administrative Records	Annual	
20	2025004	Water	Number of Subscribers Connected to Public Water Network	Indicator measures number of subscribers connected to public water network	Total number of subscribers connected to public water network	Number	Country, Region		Survey	Annual	
20	2025005	Water	Number of Springs	Indicator measures the number of springs	Total number of springs	Number	Country, Region, Governorate		Administrative Records	Annual	
20	2025006	Water	Quantity of Annual Discharge from Springs	Indicator measures the quantity of annual discharge from springs	Total quantity of annual discharge from springs	Thousand Cubic Meter /Year	Country, Region, Governorate		Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2025007	Water	Amount of Actual Deficit for Domestic Use	Indicator measures the amount of actual deficit for domestic use	Subtracting the amount of used water from the amount of consumed water	Million Cubic Meter (MCM)	Country, Region, Governorate		Administrative Records	Annual	
20	2025008	Water	Quantity of Lost Water	Indicator measures the quantity of lost water	Total quantity of lost water	Thousand Cubic Meter /Year	Country, Region, Governorate		Administrative Records	Annual	
20	2025009	Water	Quantity of Fresh Surface Water	Indicator measures the quantity of fresh surface water	Total quantity of water flowing in the valleys, floods and streams, whether seasonal or permanent	Cubic Meter	Country		Administrative Records	Annual	
20	2025010	Water	Available Quantity of Water	Indicator measures the available quantity of water	Sum of water pumped from wells, discharged from springs and purchased water from the Israeli water company, Mekorot	Million Cubic Meter /Year	Country, Region		Administrative Records	Annual	
20	2025011	Water	Quantity of Water Supply for Domestic Sector	Indicator measures quantity of water supply for domestic sector	Total quantity of water pumped from ground water wells, water discharged from springs and water purchased from (Mekorot) for domestic use	Million Cubic Meter /Year	Country, Region, Governorate	Water source (Domestic wells, Agriculture groundwater wells, Mekorot company)	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2025012	Water	Quantity of Consumed Water	Indicator measures quantity of water consumed	Total quantity of water consumed from different resources	Thousand Cubic Meter /Year	Country, Region, Governorate		Survey, Administrative Records	Annual	
20	2025013	Water	Quantity of Water Purchased (Imported) for Domestic Use From Israeli Water Company (Mekorot)	Indicator measures the quantity of water purchased (imported) for domestic use from Israeli water company (Mekorot)	Total quantity of water purchased (imported) for domestic use from Israeli water company (Mekorot)	Thousand Cubic Meter /Year	Country, Region, Governorate		Administrative Records	Annual	
20	2025014	Water	Quantity of Needed Water	Indicator measures the quantity of needed water	Total quantity of water needed based on a water supply of 150 l/c.d	Million Cubic Meter /Year	Country, Region, Governorate		Administrative Records	Annual	
20	2025015	Water	Quantity of Yearly Pumped Water from Groundwater Wells	Indicator measures yearly pumped water from groundwater wells	Total quantity of pumped water from groundwater wells in a year	Thousand Cubic Meter /Year	Country, Region, Governorate		Administrative Records	Annual	
20	2025016	Water	Average Household Consumption of Water	Indicator measures average household consumption of water	Dividing the total household consumption of water within specific region and time period by the number of households	Cubic Meter	Country, Region, Governorate		Survey, Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2025017	Water	Percentage of Households that Conserve Water	Indicator measures the percentage of households that conserve water	Dividing the number of households that using conservation methods by the total number of households, multiplied by hundred	Percentage	Country, Region		Survey	Unspecified periodicity	
20	2025018	Water	Percentage of Households that Purify Drinking Water	Indicator measures the percentage of households that purify drinking water	Dividing the number of households that using purification methods by the total number of households multiplied by hundred	Percentage	Country, Region		Survey	Unspecified periodicity	
20	2025019	Water	Level of water stress: freshwater withdrawal as a proportion of available freshwater resources	https://unstats.un.org/sdgs/metadata/files/Metadata-06-04-02.pdf	https://unstats.un.org/sdgs/metadata/files/Metadata-06-04-02.pdf	Percentage	Country		Estimated by Food and Agriculture Organization of the United Nations (FAO)	Unspecified periodicity	SDGs Indicator 6.4.2

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Energy Statistics Subject Code: 2030											
20	2030001	Energy	Quantity of Produced Electricity	Indicator measures the quantity of produced electricity	Total quantities of produced electricity	Electricity (terajoule, megawatt. hour)	Country		Administrative Records	Annual	
20	2030002	Energy	Quantity of Consumed Energy by Economic Activities	Indicator measures the quantity of consumed energy by economic activities	Total quantities of consumed energy by economic activities	Electricity (terajoule, kilowatt. hour), Gasoline, Diesel, Kerosene (terajoule, thousand liters) LPG, Bitumen, Charcoal, Firewood, Oil and Lubricants (Terajoule, Ton)	Country	Type of Fuel (Electricity, gasoline, diesel, LPG, kerosene, oil and lubricants, bitumen, charcoal, wood), Type of activity (Industry, Services, Internal trade, Transport)	Survey, Administrative Records	Annual	
20	2030003	Energy	Quantity of Energy Consumed by Households Sector	Indicator measures the quantity of energy consumed by households sector	Total quantities of energy consumed by households sector	Electricity (terajoule, kilowatt. Hour), gasoline, diesel, kerosene (terajoule, thousand liters) LPG, bitumen, charcoal, wood, oil and lubricants (terajoule, Ton)	Country	Type of Fuel (Electricity, gasoline, diesel, LPG, kerosene, oil and lubricants, bitumen, charcoal, wood)	Survey, Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2030004	Energy	Quantity of Imported Energy	Indicator measures the quantity of imported energy	Total quantities of imported forms of energy	Electricity (terajoule, kilowatt. hour), Gasoline, Diesel, Kerosene (terajoule, thousand liters) LPG, Bitumen, Charcoal, Wood, Oil and Lubricants (Terajoule, Ton)	Country	Type of Fuel (Electricity, gasoline, diesel, LPG, kerosene, oil and lubricants, bitumen, charcoal, wood), Type of activity (Industry, Services, Internal trade, Transport)	Administrative Records	Annual	
20	2030005	Energy	Average Household Consumption for Different Types of Energy	Indicator measures the average household consumption for different types of energy	Dividing the total consumption of households of different types of energy by households number	Electricity (Kilowatt. Hour/ household), LPG, Charcoal, Wood, Olive cake “Jefet” (Kg/ household), Gasoline, Diesel, Kerosene (Liter/ household)	Country, Region	Type of Fuel (Electricity, Gasoline, Diesel, LPG, Kerosene, Charcoal, Wood, Olive Cake “Jefet”)	Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2030006	Energy	Average Per Capita Consumption of Different Types of Energy	Indicator measures the average per capita consumption of different types of energy	Dividing the total individual consumption of different types of energy by total individuals	Electricity (Kilowatt. Hour/Person), LPG, Charcoal, Wood, Olive cake “Jefet” (Kg/ Person), Gasoline, Diesel, Kerosene (Liter/ Person)	Country, Region	Type of Energy (Electricity, Gasoline, Diesel, LPG, Kerosene, Charcoal, wood, Olive Cake “Jefet”)	Survey	Annual	
20	2030007	Energy	Annual Average Price of Energy Forms	Indicator measures the annual average price of forms of energy	Dividing total of monthly price averages in a year by 12	LPG, Bitumen, Charcoal, Wood, Oil and Lubricants (Shekel/ Kg), Gasoline, Diesel, Kerosene (Shekel/ Liter)	Country, Region	Type of Energy (gasoline, diesel, LPG, kerosene, oil and lubricants, bitumen, charcoal, wood)	Administrative Records	Annual	
20	2030008	Energy	Percentage of Households that Use a Solar Heater	Indicator measures the percentage of households that use a solar heater	Dividing the number of households that use a solar heater by the total number of households, multiplied by hundred	Percentage	Country, Region		Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2030009	Energy	Percentage of Households that Use a Prepaid Electricity Meter	Indicator measures the percentage of households that use a prepaid electricity meter	Dividing the number of households that use a prepaid electricity meter by the total number of households, multiplied by hundred	Percentage	Country, Region		Survey	Annual	
20	2030010	Energy	Percentage of Households that Use Different Types of Energy	Indicator measures the percentage of households that use different types of energy	Dividing the number of households using different types of energy by the total number of households, multiplied by hundred	Percentage	Country, Region	Type of Fuel (Electricity, Gasoline, Diesel, LPG, Kerosene, Charcoal, Wood, Olive Cake “Jefet”)	Survey	Annual	
20	2030011	Energy	Total Fuel Consumed by Vehicles	Indicator measures the total fuel consumed by vehicles	Multiply the number of vehicles by quantity consumed by vehicle.	Thousand Liters	Country, Region	Vehicle Type (Passengers Vehicles, Goods Vehicles, Other Vehicles) Fuel Type (Gasoline, Diesel)	Survey	Unspecified periodicity	
20	2030012	Energy	Total Number of Kilometers Traveled by Vehicles	Indicator measures the total number of kilometers traveled by vehicles	Multiply the number of vehicles by total number of kilometers traveled by vehicle.	Thousand Km	Country, Region	Vehicle Type (Passengers Vehicles, Goods Vehicles, Other Vehicles) Fuel Type (Gasoline, Diesel)	Survey	Unspecified periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2030013	Energy	Average Number of Kilometers Traveled per Liter	Indicator measures the average number of kilometers traveled per liter by vehicle.	Dividing the total quantity of monthly fuel consumed by number of monthly kilometers traveled.	Km\Liter	Country, Region	Vehicle Type (Passengers Vehicles, Goods Vehicles, Other Vehicles) Fuel Type (Gasoline, Diesel) Production Year (2004 or Less, 2005 or Higher) Engine Capacity (2500 or Less, Higher Than 2500)	Survey	Unspecified periodicity	
20	2030014	Energy	Average Value of Monthly Fuel Consumed by Vehicles	Indicator measures the average value of monthly fuel consumed by vehicle.	Dividing the total value of monthly fuel consumed by vehicles by number of Vehicles.	Israeli Shekel (NIS)\Liter	Country, Region	Vehicle Type (Passengers Vehicles, freight, Other Vehicles) Fuel Type (Gasoline, Diesel) Production Year (2004 or Less, 2005 or Higher) Engine Capacity (2500 or Less, Higher Than 2500)	Survey	Unspecified periodicity	
20	2030015	Energy	Average Annual Insurance Value	Indicator measures the average annual insurance value by vehicle.	Dividing the total annual value of insurance by number of vehicles.	Israeli Shekel (NIS) \vehicle	Country, Region	Vehicle Type (Cars, Bus, Motorcycle, freight, Other Vehicles)	Survey	Unspecified periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2030016	Energy	Average Annual Maintenance Value	Indicator measures the average annual maintenance value by vehicle.	Dividing the total annual value of maintenance by number of vehicles.	Israeli Shekel (NIS) \vehicle	Country, Region	Vehicle Type (Cars, Bus, Motorcycle, freight, Other Vehicles)	Survey	Unspecified periodicity	
20	2030017	Energy	Average Quantity of Monthly Fuel Consumed by Vehicles.	Indicator measures the average monthly fuel consumed by vehicle.	Dividing the total monthly fuel consumed by vehicles by number of Vehicles.	Liter	Country, Region	Vehicle Type (Passengers Vehicles, freight, Other Vehicles) Fuel Type (Gasoline, Diesel) Production Year (2004 or Less, 2005 or Higher) Engine Capacity (2500 or Less, Higher Than 2500)	Survey	Unspecified periodicity	
20	2030018	Energy	Percent Use of the Vehicles Inside and Outside the Localities	Indicator measures the percentage distribution of the use of the vehicles inside and outside the localities	Average rate of vehicle use inside and outside localities	Percentage	Country, Region	Vehicle Type (Passengers Vehicles, freight, Other Vehicles)	Survey	Unspecified periodicity	
20	2030019	Energy	Proportion of population with access to electricity	Indicator measures the percentage of the households that has access to electricity	Dividing the number of households connected to electricity by total number of households multiplied by hundred	Percentage	Governorate		Survey, Census	Annual	SDGs Indicator 7.1.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2030020	Energy	Proportion of population with primary reliance on clean fuels and technology	Indicator measures the Proportion of population with primary reliance on clean fuels and technology is calculated as the number of people using clean fuels and technologies for cooking, heating and lighting divided by total population reporting that any cooking, heating or lighting, expressed as percentage	Proportion of population with primary reliance on clean fuels and technology is calculated as dividing the number of people using clean fuels and technologies for cooking, heating and lighting by total population reporting that any cooking, heating or lighting, expressed as percentage	Percentage	Governorate		Survey, Census	Annual	SDGs Indicator 7.1.2
20	2030021	Energy	Renewable energy share in the total final energy consumption	Indicator measures the percentage of final consumption of energy that is derived from renewable resources	Dividing consumption of energy from all renewable sources by total final energy consumption multiplied by hundred	Percentage	Governorate		Survey, Census	Annual	SDGs Indicator 7.2.1
20	2030022	Energy	Energy intensity measured in terms of primary energy and GDP	Indicator measures the energy supplied to the economy per unit value of economic output	Dividing Energy intensity is obtained by total energy supply over GDP	MJ/USD	Country		Administrative Records	Annual	SDGs Indicator 7.3.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Land Use Statistics Subject Code: 2035											
20	2035001	Land Use	Permanent Per Capita of Agricultural Land	Indicator measures the permanent per capita of agricultural land	Dividing the area of permanent agricultural land by the number of Population within a specific area	Square Meter /Person	Country, Region, Governorate		Survey, Administrative Records	Annual	
20	2035002	Land Use	Number of Settlers in the Israeli Settlements	Indicator measures the number of settlers in the Israeli settlements	Total number of settlers in Israeli settlements	Number	Country, Region, Governorate	Type of settlement (Urban, Rural, Moshav, Kibbutz, Institutional Settlement, Communal Settlement), Regional Council, Geographical Dispersion, Religious ideology, Institutional dependency	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2035003	Land Use	Number of Israeli Occupation Sites	Indicator measures the number of Israeli occupation sites	Total number of Israeli occupation sites	Number	Country, Region, Governorate	Type of occupation site (settlements, outposts, military settlements, semi-military settlements, agricultural settlements, Israeli industrial areas and Israeli military bases), Type of settlement (Urban, Rural, Moshav, Kibbutz, Institutional Settlement, Communal Settlement), Regional Council, Geographical Dispersion, Religious ideology, Institutional dependency	Administrative Records	Annual	
20	2035004	Land Use	Value Added of Plant Production	Indicator measures the value added of plant production	Subtracting total value of intermediate consumption from total value of production for plant production activities	US Dollar	Country, Region, Governorate		Survey, Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2035005	Land Use	Area of Agricultural Land	Indicator measures the area of agricultural land	Total area of agricultural land	Square Kilometers	Country, Region, Governorate	Type of agricultural land (Irrigated, Rainfed, Permanent, Temporary)	Survey, Administrative Records	Annual	
20	2035006	Land Use	Area of Arable Land	Indicator measures the area of arable land	Total area of arable land	Square Kilometers	Country, Region, Governorate		Administrative Records	Annual	
20	2035007	Land Use	Area of Built-Up Land	Indicator measures the area of built-up land	Total area of built-up land	Square Kilometers	Country, Region, Governorate	Type Use of Built-Up Land (Commercial, manufacture, Services ...etc.)	Survey, Administrative Records	Annual	
20	2035008	Land Use	Area of Land	Indicator measures the area of the land of Palestine	Total area of the land of Palestine	Square Kilometers	Country, Region, Governorate	Type of land Use (Built, Agricultural, Forests, Natural reserves, Pastures, Inland waters...etc)	Administrative Records	Annual	
20	2035009	Land Use	Percentage Area of Agricultural Land	Indicator measures the percentage of area of agricultural land	Dividing the area of agricultural land by the total area of the country, multiplied by hundred	Percentage	Country, Region, Governorate	Type of agricultural land (Irrigated, Rainfed, Permanent, Temporary)	Survey, Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2035010	Land Use	Percentage of Lands Covered with Forests and Woodland	Indicator measures the percentage of land covered with forests and woodland to the total area of the country	Dividing the area of land covered with forests and woodland (Km ²) by the total area of the country, multiplied by hundred	Percentage	Country		Administrative Records	Annual	SDGs Indicator 15.1.1
20	2035011	Land Use	Percentage Area of Nature Reserved	Indicator measures the percentage area of nature reserved to the total area of the country	Dividing the area of nature reserved by the total area of the country, multiplied by hundred	Percentage	Country		Administrative Records	Annual	
20	2035012	Land Use	Percentage Area of Permanent Meadows and Pastures	Indicator measures the percentage area of permanent meadows and pastures to the total area of the country	Dividing the area of permanent meadows and pastures by the total area of the country, multiplied by hundred	Percentage	Country		Administrative Records	Annual	
20	2035013	Land Use	Proportion of land that is degraded over total land area	https://www.unescwa.org/sites/www.unescwa.org/files/goal_15_ecosystem.pdf#%5B%7B%22num%22%3A162%2C%22gen%22%3A0%7D%2C%7B%22name%22%3A%22FitH%22%7D%2C796%5D	https://www.unescwa.org/sites/www.unescwa.org/files/goal_15_ecosystem.pdf#%5B%7B%22num%22%3A162%2C%22gen%22%3A0%7D%2C%7B%22name%22%3A%22FitH%22%7D%2C796%5D	Percentage	Country		Estimated by United Nations Convention to Combat Desertification (UNCCD)	Annual	SDGs Indicator 15.3.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2035014	Land Use	Mountain Green Cover Index	https://www.unescwa.org/sites/www.unescwa.org/files/goal_15_ecosystem.pdf#%5B%7B%22num%22%3A162%2C%22gen%22%3A0%7D%2C%7B%22name%22%3A%22FitH%22%7D%2C796%5D	https://www.unescwa.org/sites/www.unescwa.org/files/goal_15_ecosystem.pdf#%5B%7B%22num%22%3A162%2C%22gen%22%3A0%7D%2C%7B%22name%22%3A%22FitH%22%7D%2C796%5D	Square Kilometers	Country		Administrative Records	Annual	SDGs Indicator 15.4.2

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Agriculture Statistics Subject Code: 2040											
20	2040001	Agriculture	Total Value of Agricultural Production	Indicator measures the total value of agricultural production (plant and animal)	Total value of agricultural production (plant and animal)	Thousand US Dollars	Country, Region, Governorate		Administrative Records	Annual	
20	2040002	Agriculture	Number of Camels	Indicator measures the number of camels	Total number of camels	Number	Country, Region, Governorate, Locality	Sex (male, female)	Census	Every ten years	
								Sex, system of raising, main purpose of raising	Survey	Unspecified periodicity	
20	2040003	Agriculture	Number of Turkeys	Indicator measures the number of turkeys	Total number of turkeys	Number	Country, Region, Governorate, Locality	Area of worked barns, Average cycles per year, Maximum capacity of Barns, sex	Census	Every ten years	
								System of raising	Survey	Unspecified periodicity	
20	2040004	Agriculture	Number of Layers	Indicator measures the number of layers	Total number of layers	Number	Country, Region, Governorate, Locality		Administrative Records	Annual	
								Area of worked barns, maximum capacity of barns	Census	Every ten years	
								System of raising	Survey	Unspecified periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040005	Agriculture	Number of Broilers	Indicator measures the number of broilers	Total number of broilers	Number	Country, Region, Governorate, Locality		Administrative Records	Annual	
								Area of worked barns, average cycles, maximum capacity of barns	Census	Every ten years	
								System of raising	Survey	Unspecified periodicity	
20	2040006	Agriculture	Number of Domestic Poultry	Indicator measures the number of domestic poultry	Total number of domestic poultry	Number	Country, Region, Governorate, Locality	Type of poultry (Chicken, Turkey, Pigeons, Rabbits, Others.)	Census	Every ten years	
									Survey	Unspecified periodicity	
20	2040007	Agriculture	Number of Sheep	Indicator measures the number of sheep	Total number of sheep	Number	Country, Region, Governorate, Locality	Strain, sex	Administrative Records	Annual	
								Strain, sex, age, system of raising, type of raising , main purpose of raising	Survey	Unspecified periodicity	
									Census	Every ten years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040008	Agriculture	Number of Agricultural Employed persons in Agricultural Holdings	Indicator measures the number of agricultural employed persons in agricultural holdings	Total number of agricultural employed persons in agricultural holdings	Number	Country, Region, Governorate	Type of employment (family members permanent or temporary, permanent wage employee, temporary wage employee), Age group of employed persons, Sex, type of employment, age group of employed persons, type of agricultural holding	Survey	Unspecified periodicity	
									Census	Every ten years	
20	2040009	Agriculture	Number of Goats	Indicator measures the number of goats	Total number of goats	Number	Country, Region, Governorate, Locality	Strain, Sex	Administrative Records	Annual	
								Strain, sex, age, system of raising, type of raising , main purpose of raising	Census	Every ten years	
									Survey	Unspecified periodicity	
20	2040010	Agriculture	Number of Agricultural Nurseries	Indicator measures the number of agricultural nurseries	Total number of agricultural nurseries	Number	Country, Region	Type of agricultural nursery (horticulture trees, ornamental plants, forest, mixed, vegetables, others)	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040011	Agriculture	Number of Equines	Indicator measures the number of equines	Total number of equines	Number	Country, Region, Governorate, Locality	Type of equine (Horses, Mules, Donkeys)	Census	Every ten years	
									Survey	Unspecified periodicity	
20	2040012	Agriculture	Costs of Agricultural Intermediate Consumption	Indicator measures the costs of agricultural intermediate consumption	Total of the costs of agricultural intermediate consumption	Thousand US Dollars	Country, Region, Governorate	Type of agricultural production (Plant and Animal)	Administrative Records	Annual	
20	2040013	Agriculture	The Maximum Capacity of Barns	Indicator measures the maximum capacity of barns	The maximum capacity of barns	Number (Birds)	Country, Region, Governorate	Type of Poultry (broile-rs mothers, broilers, layers, turkey male, turkey female)	Survey	Unspecified periodicity	
20	2040014	Agriculture	Number of Poultry Slaughterhous-es	Indicator measures the number of poultry slaughterhouses	Total number of poultry slaughterhouses	Number	Country, Region, Governorate		Administrative Records	Annual	
20	2040015	Agriculture	Number of Horticulture Trees	Indicator measures the number of horticulture trees	Total number of horticulture trees	Number	Country, Region, Governorate, Locality	Type of crop, method of farming, status of crop, type of irrigation, method of irrigation, type of protection	Census	Every ten years	
									Survey	Unspecified Periodicity	
20	2040016	Agriculture	Number of Cattle	Indicator measures the number of cattle	Total number of cattle	Number	Country, Region, Governorate, Locality	Strain, sex	Administrative Records	Annual	
								Strain, sex, age, system of raising, main purpose of raising	Census	Every ten years	
									Survey	Unspecified Periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040017	Agriculture	Number of Rabbits	Indicator measures number of rabbits	Total number of rabbits	Number	Country, Region, Governorate	System of raising	Survey	Unspecified Periodicity	
20	2040018	Agriculture	Number of Veterinarians	Indicator measures the number of veterinarians	Total number of veterinarians	Number	Country, Region	Specialization(Veterinary, The veterinary science, The animal Health)	Administrative Records	Annual	
20	2040019	Agriculture	Number of Agricultural Machines and Equipments	Indicator measures the number agricultural machines and equipments	Total number of agricultural machines and equipments	Number	Country, Region, Governorate, Locality	Type of Machine	Survey	Unspecified Periodicity	
									Administrative Records	Annual	
20	2040020	Agriculture	Number of Operational Agricultural Cooperatives Societies	Indicator measures the number of operational agricultural cooperatives societies	Total number of operational agricultural cooperatives societies	Number	Country, Region	Type of cooperative society	Administrative Records	Annual	
20	2040021	Agriculture	Number of Agricultural Holders	Indicator measures the number of agricultural holders	Total number of agricultural holders	Number	Country, Region, Governorate, Locality	Main occupation (Agricultural, other than Agricultural), Age groups, Educational attainment(Illiterate, can read and write, Elementary, Preparatory, Secondary, Associate diploma, Bachelor's, Higher diploma, Master, PHD)	Census	Every ten years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040022	Agriculture	Number of Agricultural Holdings	Indicator measures the number of agricultural holdings	Total number of agricultural holdings	Number	Country, Region, Governorate	Type of the holding, main purpose of production, holdings area group in dunum, size of holder household, holding management method, land tenure, average holding size (dunum), main source of irrigation, main source of agricultural extension, Type of government services, legal Status of holder, sex of holder, age group of holder, type of crops, type of irrigation, type of agricultural Practice, type of livestock, (continued)	Census	Every ten years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
								type of employee (family members permanent or temporary, permanent wage employee, temporary wage employee), type of agricultural machines, Source of machine, type of constrained, type of the holding, type of livestock, internal organs distribution patterns, skins distribution patterns	Survey	Unspecified Periodicity	
							Country, Region	Type of locality, subjecting to damage due to Israeli measures			
20	2040023	Agriculture	Number of Acquired Animal	Indicator measures the number of acquired animal during agricultural year	Total number of acquired animal during agricultural year	Number	Country, Region, Governorate	Type of animal (cattles, sheep, goats, camels), source of acquired	Survey	Unspecified Periodicity	
20	2040024	Agriculture	Number of Animals Died	Indicator measures the number of died animal during agricultural year	Total number of died animal during agricultural year	Number	Country	Type of animal (cattles, sheep, goats, camels), cause of died	Survey	Unspecified Periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040025	Agriculture	Number of Fishermen	Indicator measures the number of fishermen	Total number of fishermen	Number	Gaza Strip Governorates		Administrative Records	Annual	
20	2040026	Agriculture	Number of Slaughtered Birds	Indicator measures the number of slaughtered birds	Total number of slaughtered birds	Number	Country, Region, Governorate		Administrative Records	Annual	
20	2040027	Agriculture	Number of Operating Hatcheries	Indicator measures the number of operating hatcheries	Total number of operating hatcheries	Number	Country, Region		Administrative Records	Annual	
20	2040028	Agriculture	Number of Vaccines Given to the Animals	Indicator measures the number of vaccines given to the animals	Total number of vaccines given to the animals	Number	Country, Region	Type of animal (cattles, sheep, goats, camels)l, Type of vaccine	Administrative Records	Annual	
20	2040029	Agriculture	Number of Agricultural Buildings	Indicator measures number of agricultural buildings	Total number of agricultural building	Number	Country, Region, Governorate	Type of building (cattle barns, sheep and goat barns, equines stables, buildings for different purposes, holder's house(not for housing only))	Survey	Unspecified Periodicity	
20	2040030	Agriculture	Number of Boats Used in Fishing	Indicator measures the number of boats used in fishing	Total number of boats used in fishing	Number	Gaza Strip Governorates	Type of boat (lunch trawler, launch shanshula, hasaka motor, hasaka with oars and felucca)	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040031	Agriculture	Number of Agricultural Engineers	Indicator measures the number of agricultural engineers	Total number of agricultural engineers	Number	Country, Region	Specialization(plant production, animal breeding, food industry, plant protection, general specialization in agriculture, horticulture, soil science, land reclamation, agricultural pests, production and machinery, other specialization)	Administrative Records	Annual	
20	2040032	Agriculture	Number of Disposed Animal	Indicator measures the number of disposed animal during agricultural year	Total number of disposed animal during agricultural year	Number	Country, Region, Governorate	Type of animal (cattles, sheep, goats, camels), source of disposed (sold, consumption in holding, givens gift, died)	Survey	Unspecified Periodicity	
20	2040033	Agriculture	Number of Broilers Mothers	Indicator measures number of broilers mothers	Total number of broilers mothers	Number (in thousands)	Country, Region, Governorate	Area of worked barns, The maximum capacity of barns	Census	Every ten years	
								System of raising (Open, Closed, Semi-Closed)	Survey	Unspecified Periodicity	
20	2040034	Agriculture	Number of Female Cattles Aged more than two years	Indicator measures the number of female cattles aged more than two years	Total number of female cattles aged more than two years	Number	Country, Region, Governorate	Milk status, purpose of raising (Breeding, Fattening)	Survey	Unspecified Periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040035	Agriculture	Number of Female Sheep Aged more than one year	Indicator measures the Number of female Sheep aged more than one year	Total Number of female Sheep aged more than one year	Number	Country, Region, Governorate	Milk status, purpose of raising (Breeding, Fattening)	Survey	Unspecified Periodicity	
20	2040036	Agriculture	Number of Female Goats Aged more than one year	Indicator measures the number of female goats aged more than one year	Total number of female goats aged more than one year	Number	Country, Region, Governorate	Milk status, purpose of raising (Breeding, Fattening)	Survey	Unspecified Periodicity	
20	2040037	Agriculture	Number of Livestock Slaughtered in Animal and Mixed Holdings	Indicator measures number of livestock slaughtered in animal and mixed holdings	Total number of livestock slaughtered in animal and mixed holdings	Number	Country, Region, Governorate	Type of animal (cattles, sheep, goats, camels), average live weight, average carcass weight, internal organs distribution patterns, skins distribution patterns	Survey	Unspecified Periodicity	
20	2040038	Agriculture	Number of Livestock Slaughtered in Operating Slaughterhouses	Indicator measures number of livestock slaughtered in operating slaughterhouses	Total number of livestock slaughtered in operating slaughterhouses	Number	Country, Region, Governorate	Type of animal (cattles, sheep, goats, camels)	Administrative Records	Annual	
20	2040039	Agriculture	Number of Beehives	Indicator measures the number of beehives	Total number of beehives	Number	Country, Region, Governorate, Locality	Type of Beehives (Modern, Traditional)	Administrative Records	Annual	
									Census	Every ten years	
								Type of Beehives (Modern, Traditional), Strain (Local, Italian, Other)	Survey	Unspecified Periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040040	Agriculture	Number of Poultry Chicks Produced	Indicator measures the number of poultry chicks produced	Total number of poultry chicks produced	Number	Country, Region, Governorate	Type of poultry (Broiler, Layer)	Administrative Records	Annual	
20	2040041	Agriculture	Number of Slaughtered Livestock	Indicator measures the number of slaughtered livestock	Total number of slaughtered livestock	Number	Country, Region, Governorate	Type of animal (cattles, sheep, goats, camels)	Administrative Records	Annual	
20	2040042	Agriculture	Value of Animal Production	Indicator measures the production value of meat, milk, eggs, honey and other animal products	Total value of production of meat, milk, eggs, honey, and other animal products	Thousand US Dollars	Country, Region, Governorate	Type of animal production (Meat, Milk, Eggs, Honey, and Other animal products)	Administrative Records	Annual	
						Thousand Israeli Shekel (NIS)			Survey	Unspecified Periodicity	
20	2040043	Agriculture	Value of Plant Production	Indicator measures the value of horticulture trees, vegetables, and field crops	Total value of horticulture trees, vegetables, and field crops	Thousand US Dollars	Country, Region, Governorate	Crop type (Tomatoes, Cucumbers, Potatoes, Wheat, Barley, Lentils ...etc).	Administrative Records	Annual	
20	2040044	Agriculture	Value of Slaughtered Camels and Ruminants	Indicator measures total value of Slaughtered camels and ruminants in animal and mixed holdings	Total value of slaughtered camels and ruminants in animal and mixed holdings	Thousand Israeli Shekel (NIS)	Country, Region, Governorate	Type of animal (cattles, sheep, goats, camels)	Survey	Unspecified Periodicity	
20	2040045	Agriculture	Value Added of Agricultural Production	Indicator measures the value added of agricultural production	Subtracting total value of intermediate consumption from total value of production for agricultural activities	Thousand US Dollars	Country, Region, Governorate	Type of agricultural production (Plant and Animal)	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040046	Agriculture	Value of Compensation in Animal and Mixed Holdings	Indicator measures value of compensation in animal and mixed holdings	Total value of compensation in animal and mixed holdings	Thousand Israeli Shekel (NIS)	Country, Region, Governorate	Sex, type of employment	Survey	Unspecified Periodicity	
20	2040047	Agriculture	Value of Animal Intermediate Consumption	Indicator measures value of animal intermediate consumption	Total value of animal intermediate consumption	Thousand US Dollars	Country, Region, Governorate	Type of animal intermediate consumption (water, electricity, gas, ..., etc)	Administrative Records	Annual	
						Thousand Israeli Shekel (NIS)			Survey	Unspecified Periodicity	
20	2040048	Agriculture	Quantity of Caught Fish	Indicator measures the quantity of caught fish	Quantity of caught fish	Ton	Gaza Strip Governorates	Type of caught fish	Administrative Records	Annual	
20	2040049	Agriculture	Quantity of Plant Production	Indicator measures the production quantity of horticulture trees, vegetables and field crops	Total production quantity of horticulture trees, vegetables and field crops	Metric Ton	Country, Region, Governorate	Type of Crop, type of Irrigation, Type of protection	Administrative Records	Annual	
									Survey	Unspecified Periodicity	
20	2040050	Agriculture	Quantity of Animal Production	Indicator measures quantity of animal production	Quantity of animal production	Ton , Kg, Head, Cubic Meter, Liter	Country, Region, Governorate	Type of animal, type of product (meat, milk, eggs, honey, ..., etc)	Administrative Records	Annual	
									Survey	Unspecified Periodicity	
20	2040051	Agriculture	Quantity of Animal Intermediate Consumption	Indicator measures quantity of animal intermediate consumption	Quantity of animal intermediate consumption	Thousand Cubic Meter Thousand Liter, Thousand Chick, Thousand Sack, Ton, Head, GWh	Country, Region, Governorate	Type of animal intermediate consumption (water, electricity, gas, ..., etc)	Survey	Unspecified Periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040052	Agriculture	Area of Agricultural Holdings	Indicator measures the area of agricultural holdings, cultivated and uncultivated	Area of agricultural holdings, cultivated and uncultivated	Dunum	Country, Region, Governorate, Locality	Type of land use (cultivated Area, Wooded Land, Land under Temporarily fallow, Nurseries, Buildings used for holding purposes, Permanent meadows and pastures, Temporary fallow land)	Survey	Unspecified Periodicity	
									Census	Every ten years	
20	2040053	Agriculture	Area of Worked Barns	Indicator measures area of worked barns	Total area of worked barns	Square Meter	Country, Region, Governorate	Type of Poultry (broile-rs mothers, broilers, layers, turkey male, turkey female)	Survey	Unspecified Periodicity	
20	2040054	Agriculture	Area of Agricultural Building	Indicator measures area of agricultural building	Total area of agricultural building	Square Meter	Country, Region, Governorate	Type of building (Cattle barns, Sheep and Goats barns, Equines stables, Buildings for different purposes, Holder's house (Not for housing only))	Survey	Unspecified Periodicity	
20	2040055	Agriculture	Harvested Area of Temporary Crops	Indicator measures the harvested area of temporary crops (vegetables and field crop)	Total harvested area for vegetables and field crops	Dunum	Country, Region, Governorate, Locality	Type of crops (Tomato, Cucumber, Potato, Wheat, Barley, Vech, ..., etc)	Census	Every ten years	
									Survey	Unspecified Periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040056	Agriculture	Cultivated Area	Indicator measures the cultivated area with horticulture trees, vegetables and field crops	Total area cultivated with horticulture trees, vegetables and field crop	Dunum	Country, Region, Governorate, Locality	Type of Irrigation (Rainfed, Irrigated (Surface, Drip, Sprinkler)), Type of Protection (Protected(Surface Tunnel, French Plastic Tunnel, House), Open), Type of Crop	Administrative Records	Annual	
								Type of Irrigation, Method of irrigation, Type of protection, Agricultural session, Status of crop, method of farming	Census	Every ten years	
									Survey	Unspecified Periodicity	
20	2040057	Agriculture	Area of Agricultural Nurseries	Indicator measures the area of agricultural nurseries	Total area of agricultural nurseries	Dunum	Country, Region	Type of agricultural nursery	Administrative Records	Annual	
20	2040058	Agriculture	The Average Daily Wage in Animal and Mixed Holdings	Indicator measures the average daily wage in animal and mixed holdings	The average daily wage in animal and mixed holdings	Israeli Shekel (NIS)	Country, Region, Governorate	Sex, type of employment (Permanent Employees Family Member, Temporary Employees Family Member, Temporary wage employee, Permanent wage employee)	Survey	Unspecified Periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040059	Agriculture	Average of Cycles per year	Indicator measures average of cycles per year for Poultry	Average of cycles per year for Poultry	Rate	Country, Region, Governorate	Type of Poultry (Chicken, Turkey, Pigeons, Rabbits, Others)	Survey	Unspecified Periodicity	
20	2040060	Agriculture	Percentage of Households that have a Garden	Indicator measures the Percentage of Household that have a garden	Dividing the number of households that have a garden by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate	Practice of agricultural activity, group area of garden, locality type, total area of garden, reason of not practice of agricultural activity, product distribution pattern	Survey	Unspecified Periodicity	
20	2040061	Agriculture	Percentage of Agricultural Holders	Indicator measures the percentage of agricultural holders	Dividing number of one type of agricultural holders by the total number of agricultural holders, multiplied by hundred	Percentage	Country, Region, Governorate	Age group, Legal status, Sex, Participating the Holders in Agricultural Organizations or Unions, Relation to the head of household, Attending the Holders an Agricultural Training Courses, size of holder household, Educational attainment	Survey	Unspecified Periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040062	Agriculture	Percentage of Agricultural Holdings	Indicator measures the percentage of agricultural holdings	Dividing number of one type of agricultural holdings by the total number of agricultural holdings multiplied by hundred	Percentage	Country, Region	Size group, main purpose of production, holdings area group in dunum, type of livestock, holding management method, land tenure, main source of irrigation, main Irrigation system, main source of agricultural extension, method used for harvesting, number of permanent employees, using temporary employment, using the temporary agricultural services, type of agricultural practice, supplementary activities, subjecting to damage due to measures Israeli (continued)	Survey	Unspecified Periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
							Country, Region, Governorate	Type of the holding, area group in dunum size of holder household, sex of holder, main occupation of holder , age group holder, of educational attainment, legal status of holder, relation of holder to the head of household, holding management method, land tenure, main source of water, main source of electricity, main purpose of production, main source of agricultural extension, type of veterinary service and service agency, area group of cultivated fodder, product distribution pattern, main party for marketing, type of agricultural Practice, source of machines			

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040063	Agriculture	Percentage of Cultivated Area	Indicator measures the percentage of cultivated area with horticulture trees, vegetables and field crops	Dividing cultivated area with horticulture trees, vegetables and field crops by the total area of the country, multiplied by hundred	Percentage	Country, Region, Governorate	Method used for harvesting fruit, Method Used for Packaging Fruits, Main purpose of production, Agriculture method, Fruits storage place, Crop status at the marketing, Age groups	Survey	Unspecified Periodicity	
20	2040064	Agriculture	Percentage of Manure Product Distribution Pattern	Indicator measures percentage of manure product distribution pattern	Dividing number of enumeration units (type of animal) which use specific distribution pattern by total number of these unit (type of animal) multiplied by hundred	Percentage	Country, Region	Type of animal (cattles, sheep, goats, camels)	Survey	Unspecified Periodicity	
20	2040065	Agriculture	Percentage of Guano Product Distribution Pattern	Indicator measures percentage of guano product distribution pattern	Dividing number of enumeration units (type of poultry) which use specific distribution pattern by total number of these unit (type of poultry) multiplied by hundred	Percentage	Country, Region	Type of poultry (Chicken, Turkey, Pigeons, Rabbits, others.)	Survey	Unspecified Periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
20	2040066	Agriculture	Number of Livestock (Domestic)	Indicator measures number of Livestock (Domestic)	Total number of Livestock (Domestic)	Number	Country, Region	Type of animal (sheep, goats, poultry, beehives)	Survey	Unspecified periodicity	
20	2040067	Agriculture	Percentage of Households that Rearing of Livestock (Domestic)	Indicator measures the Percentage of Household that Rearing of Livestock (Domestic)	Dividing the number of households that Rearing of Livestock (Domestic) by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate	Product distribution method	Survey	Unspecified Periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Population and Social Statistics											
Population & Demography Statistics											
Subject Code: 2510											
25	2510001	Population & Demography	Number of Registered Marriage Contracts	Indicator measures the number of registered marriage contracts during a specified period	Total number of registered marriage contracts during a specified period	Number	Country, Region, Governorate		Administrative Records	Annual	
25	2510002	Population & Demography	Number of Registered Divorce Contracts	Indicator measures the number of registered divorces contracts during a specified period	Total number of divorce contracts during a specified period	Number	Country, Region, Governorate		Administrative Records	Annual	
25	2510003	Population & Demography	Life Expectancy at Birth	Indicator measures the average number of years that a born might live if current mortality trends by age continue is the same, and until the death of all members of that born regiment	From life tables	Year	Country, Region	Sex	Survey, Census, Population Projections	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2510004	Population & Demography	Palestinian Population	Indicator measures the Estimated Palestinian Population	Calculated by populations censuses and projections, Field surveys conducted in host countries. In addition, other sources were used, including administrative records available to international organizations, studies conducted by establishments and individuals to estimate the number of Palestinians and their demographic and social characteristics, including the report of the Commissioner General of UNRWA, and websites belonging to centers dealing with the Palestinian issue around the world.	Person	World, Country, Region, Locality, 1948 Territory, Arabian Countries and Foreign Countries	Sex	Census, Population Projections	Annual	
25	2510005	Population & Demography	Number of Registered Live Births	Indicator measures the number of registered live births	Total number of registered live births	Number	Country, Region, Governorate	Sex, month of birth, year of birth	Administrative Records/ Population Register	Annual	
25	2510006	Population & Demography	Number of Deaths Registered	Indicator measures the number of registered deaths	Total number of registered deaths	Number	Country, Region, Governorate	Sex, month of death, year of death, Age	Administrative Records/ Population Register	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2510007	Population & Demography	Median Age	Indicator measures the age that divides the population in two parts of equal size	The age that divides the population in two parts of equal size	Year	Country, Region, Governorate		Survey, Census, Administrative Records	Annual	
25	2510008	Population & Demography	Median Age at First Marriage	Indicator measures the age at first marriage that divides ages of marriages (at first marriage) into two equal groups	The age at first marriage that divides ages of marriages (at first marriage) into two equal groups	Year	Country, Region, Governorate	Sex	Census, Administrative Records	Annual	
25	2510009	Population & Demography	Population Density	Indicator measures the Population per square kilometer	Number of population divided by the surface area (Km ²)	Population per area (Km ²)	Country, Region, Governorate		Census, Population Projections	Annual	
25	2510010	Population & Demography	Average Household Size	Indicator measures average household size in the target population	Dividing the population by the total number of households in the target population	Person/ Household	Country, Region		Survey, Census	Annual	
25	2510011	Population & Demography	Age-Specific Fertility Rates	Indicator measures the Number of births to women in a particular age group, divided by the number of women in that age group	Dividing the number of births to women in a particular age group by the number of women in that age group multiplied by thousand	Rate	Country, Region	Age group	Survey, Census	(3-5) years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2510012	Population & Demography	Total Fertility Rate (TFR)	Indicator measures the average number of children a hypothetical cohort of women would have at the end of their reproductive period if they were subject during their whole lives to the fertility rates of a given period and if they were not subject to mortality	Average number of live births per woman (or a group of women) during the period of her (their) reproductive life according to age- fertility rates for a given year, it is the sum of total age detailed fertility rates, multiplied by five	Rate	Country, Region		Survey, Census	(3-5) years	
25	2510013	Population & Demography	Crude Marriage Rate	Indicator measures the number of marriages per thousand population in a given year	Dividing the number of marriages in a given year by the mid-year population number, multiplied by thousand	Rate	Country, Region, Governorate		Administrative Records, population projections	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2510014	Population & Demography	Rate of Natural Increase	Indicator measures the difference between crude birth rate and crude death rate	Subtracting the crude death rate from the crude birth rate for a given year expressed as a percentage	Rate	Country, Region		Census, Population Projections	Annual	
25	2510015	Population & Demography	Crude Divorce Rate	Indicator measures the number of divorces per thousand population in a given year	Dividing the number of divorces in a given year by the mid-year population number, multiplied by thousand	Rate	Country, Region, Governorate		Administrative Records, population projections	Annual	
25	2510016	Population & Demography	Crude Birth Rate	Indicator measures the number of live births per thousand population in a given year	Dividing the number of live births within a given year by the number of population in the middle of that year multiplied by thousand	Rate	Country, Region		Census, Administrative Records, Population Projections	Annual	
25	2510017	Population & Demography	Population Growth Rate	Indicator measures the difference between births and deaths added to net international migration divided by population in mid-year	The difference between births and deaths added to net international migration divided by population in mid-year	Rate	Country, Region		Survey, Census, Population Projections	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2510018	Population & Demography	Crude Death Rate	Indicator measures the number of deaths per thousand population in a given year.	Dividing the number of deaths during a given year by the total population in the middle of that year, multiplied by thousand	Rate	Country, Region		Census, Administrative Records, Population Projections	Annual	
25	2510019	Population & Demography	Neonatal Mortality Rate	Indicator measures the number of deaths infants under 28 days or (the first four week) of age in a given year per thousand live births in that year	Dividing the number of deaths infants under 28 days or (the first four week) of age in a given year by the number of births during the same year, multiplied by thousand	Rate	Country, Region		Survey, Census	(3-5) years	SDGs Indicator 3.2.2
25	2510020	Population & Demography	Under-Five Mortality Rate	Indicator measures the probability of dying between birth and exact age 5	Dividing the number of children who died before completing five years of their age, by the total number of live children five years old or less multiplied by thousand	Rate	Country, Region		Survey, Census	(3-5) years	SDGs Indicator 3.2.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2510021	Population & Demography	Infant Mortality Rate	Indicator measures the probability of dying between birth and exact age 1	Dividing the number of deaths (under one year of age) in a given year by the total number of live births for the same year, multiplied by thousand	Rate	Country, Region		Survey, Census	(3-5) years	
25	2510022	Population & Demography	Post-Neonatal Mortality Rate	Indicator measures the number of deaths of infants ages 28 days to 1 year (1-11 month) per 1,000 live births in a given year	Dividing the number of deaths of newborn infants in the age (1-11) months in a given year by the number of births during the same year, multiplied by thousand	Rate	Country, Region		Survey, Census	(3-5) years	
25	2510023	Population & Demography	Percentage of One-Person Households	Indicator measures prevalence of households consisting of one person in the target population	Dividing the number of households consisting of one person by the total number of households, multiplied by hundred	Percentage	Country, Region		Survey, Census	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2510024	Population & Demography	Percentage of Households Headed by Women	Indicator measures prevalence of households headed by women	Dividing the number of households headed by women by the total number of households, multiplied by hundred	Percentage	Country, Region		Survey, Census	Annual	
25	2510025	Population & Demography	Percentage of Composite Households	Indicator measures prevalence of composite households	Dividing the number of composite households by the total number of households, multiplied by hundred	Percentage	Country, Region		Survey, Census	Annual	
25	2510026	Population & Demography	Percentage of Extended Households	Indicator measures prevalence of extended households	Dividing the number of extended households by the total number of households, multiplied by hundred	Percentage	Country, Region		Survey, Census	Annual	
25	2510027	Population & Demography	Percentage of Nuclear Family	Indicator measures prevalence of nuclear households (families) in the target population	Dividing the number of nuclear households (families) by the total number of households multiplied by hundred	Percentage	Country, Region		Survey, Census	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2510028	Population & Demography	Dependency Ratio	Indicator measures the number of dependents per hundred people in the working age	Sum of the Population less than 15 years and that aged 65 years and over, to the population aged 15-64 years	percentage	Country, Region		Survey, Census, Administrative Records, Population Projections	Annual	
25	2510029	Population & Demography	Sex Ratio	Indicator measures the number of males per one hundred females in a given year	Dividing the number of male births to female births in a given year, multiplied by hundred	Ratio Male/hundred Female	Country, Region		Census, Administrative Records, Projections	Annual	
25	2510030	Population & Demography	Percentage of Marital Status of Individuals 14 Years and Over	Indicator measures percentage of marital status of individuals 14 years and over	Dividing number of individuals aged 14 years and over with certain marital status to population in same age group, multiplied by hundred	Percentage	Country, Region	Marital status (single, married, divorced, widow, separated), sex	Survey, Census, Administrative Records	Annual	
25	2510031	Population & Demography	Percentage of Population in a Specific Age Group	Indicator measures the population in a specific age group divided by the total population	Number of population in the specified age group divided by the total number of population, multiplied by hundred	Percentage	Country, Region	Five-year age groups	Census, Population Projections	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2510032	Population & Demography	Percentage of Married Adolescents (15-19) Year	Indicator measures the prevalence of adolescents marriage	Dividing the number of actual married adolescent (15-19 years old) to the total number of adolescent aged (15-19) years, multiplied by hundred	Percentage	Country, Region	Sex	Survey, Census	Annual	
25	2510033	Population & Demography	Percentage of Polygamy	Indicator measures the number of husbands having more than one wife at the same time	Dividing the number of husbands having more than one wife at the same time by the all married men, multiplied by hundred	Percentage	Country, Region		Survey	Unspecified Periodicity	
25	2510034	Population & Demography	Duplicated of Population	Indicator measures the number of years required for the population of an area to double its present size, given the current rate of population growth remains unchanged	Dividing the natural logarithm of number 2, which is (0.69), by the rate of population growth, the indicator calculated in completed years	Year	Country, Region		Census, Population Projections	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2510035	Population & Demography	Proportion of women aged 20-24 years who were married or in a union before age 15 and before age 18	Women aged 20-24 years who were married or in a union before age 15 and before age 18	Dividing the number of women aged 20-24 who were first married or in union before age 15 (or before age 18) by the total number of women aged 20- 24 in the population multiplied by hundred	Percentage	Country, Region		Survey	Unspecified Periodicity	SDGs Indicator 5.3.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Labour Statistics Subject Code: 2515											
25	2515001	Labour	Median Daily Wage by	Indicator measures the middle value of wages boundary between the highest 50% of wage and the lowest 50% of wage	Calculated the boundary between the 50% highest of wage and the 50% the lowest of wage	Israeli Shekel (NIS)	Country, Region, Governorate	Sex, Place of work, Economic activity	Survey	Quarterly Annual	
25	2515002	Labour	Share of Women in Wage Employment in non-Agricultural Sector	Indicator measures the number of employed women in wage employment in the non-agricultural sector, expressed as a percentage of total wage employment in the non-agricultural sector	Dividing the total number of women in wage employment in the industrial and service sectors by the total number of people in paid employment in that same sector, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Quarterly Annual	
25	2515003	Labour	Average Daily Wage for Paid Employee	Indicator measures net cash wage paid to wage employees for time worked or work done	Dividing the sum of net wage paid to all wage employees by the number of employees by the exchange rate for the quarter	Israeli Shekel (NIS)	Country, Region, Governorate	Sex, Place of work, Qualification (Primary, Preparatory, Secondary, Associate Diploma, Bachelor degree or higher)	Survey	Quarterly Annual	
25	2515004	Labour	Average Monthly Working Days	Indicator measures the number of days at work during the month, excluding week-end, holidays, sick and other paid leaves	Dividing the sum of monthly work days for all employees by the total number of employees	Rate	Country, Region, Governorate	Sex, Economic activity, Occupation, Place of work	Survey	Quarterly Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515005	Labour	Average Weekly Working Hours	Indicator measures the actually weekly work hours during normal period of work	Dividing weekly aggregate hours by the total number of persons of whom the hours of work have been counted	Rate	Country, Region, Governorate	Sex, Economic activity, Occupation, Place of work	Survey	Quarterly Annual	
25	2515006	Labour	Percentage of Child Labor	Indicator measures children aged 10-17 years who worked at least one hour either for pay (cash or in-kind), or unpaid family member during the reference period.	Dividing the number of children aged (10-17) years who were worked by the total number of those children within the same age group multiplied by hundred	Percentage	Country, Region, Governorate	Sex , Age groups, Economic activity	Survey	Quarterly Annual	SDGs Indicator 8.7.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515007	Labour	Percentage of Unpaid services activity for own household	Indicator measures percentage of persons who provided service mainly for themselves or their families, including purchasing goods or household accounting, prepare meals, cleaning or arranging the house and garden, waste disposal, baby care or teaching and taking them to public places, or caring for elderly, maintenance or improvement of small house repairs, and acts of simple decoration, vehicle maintenance or small repairs	Dividing the number of persons who provide services for own final use who aged (15 years and above) by the total number of persons aged (15 years and above) multiplied by hundred	Percentage	Country, Region	Occupation, weekly work hour	Survey	Quarterly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515008	Labour	Percentage of Individuals Outside the Labor Force	Indicator measures size of persons who were not economically active during the reference period because of attendance at educational institutions, or engagement in household duties, retirement or old age, or other reasons	Dividing the number of persons aged (15 years and above) who are outside the labor force by total number of persons (15 years and above) multiplied by hundred	Percentage	Country, Region	Sex, Age groups, Reason been outside labor force, type of disability	Survey	Quarterly	
							Country, Region, Governorate			Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515009	Labour	Percentage of Volunteer Work	Indicator measures percentage of person in volunteer work who are performed any unpaid activity, non compulsory activity to produce goods or provide services for others, it includes work done through, or for, self help, mutual aid or community based groups of which volunteer is a member, which transportation allowance or meals or gifts that offered to volunteer are not considered as wage, and unpaid work required as part of education or training programmers are excluded from volunteer work	Dividing the number of persons in volunteer work who aged (15 years and above) by total number of persons aged (15 years and above) multiplied by hundred	Percentage	Country, Region	Economic activity, Occupation, weekly work hours	Survey	Quarterly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515010	Labour	Percentage of Own-Use Production Work	Indicator measures percentage of person who performed any activity to produce goods or provide services for their own final consumption or for their households consumption, including producing or processing for storage agricultural, fishing, hunting and gathering products, and manufacturing household goods (clothing, food, and furniture)	Dividing the number of persons in own-use production who aged (15 years and above) by total number of persons aged (15 years and above) multiplied by hundred	Percentage	Country, Region	Occupation, weekly work hour	Survey	Quarterly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515011	Labour	Percentage of Unemployed /Unemployment Rate) (ILO)	Indicator measures size of persons (15 years and above) who during the reference period were without work, currently available for work, and seeking work in the last 4 weeks preceding the interview by taken specific steps may include registration at public or private employment exchange, checking at worksites, seeking assistance of friend or relative	Dividing the number of unemployed persons aged (15 years and above) by the number of participants in labor force in the same age group, multiplied by hundred	Percentage	Country, Region	Sex, Years of schooling, Age groups, Refugee status, specialization, Marital status, locality type, type of disability	Survey	Quarterly	SDGs Indicator 8.5.2
							Country, Region, Governorate			Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515012	Labour	Percentage of Unemployed (Unemployment Rate) (Relaxed Definition)	Indicator measures size of unemployed persons according to the standards of the international labor organization (ILO) plus persons who were outside labor force due to discouragement	Dividing the number of unemployed persons aged (15 years and above) (relaxed definition) by the number of persons who are participants in labor force and those who were out labor force due to discouragement in the same age group, multiplied by hundred	Percentage	Country, Region	Sex	Survey	Quarterly	
							Country, Region, Governorate			Annual	
25	2515013	Labour	Percentage of Employed Persons	Indicator measures the size of persons aged (15 years and above) who were during the reference period at work for at least one hour, or who were temporarily absent from work due to illness or injury, holiday or vacation, strike or lockout, educational or training leave, maternity, or reduction of economic activity...etc	Dividing the number of employed persons aged (15 years and above) by the total number of participants in the labor force, multiplied by hundred	Percentage	Country, Region	Sex, Place of work, Work hours, Wages rates, Employment status, Occupation, Economic activity, Years of schooling, Age groups, type of disability	Survey	Quarterly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515014	Labour	Percentage of Full Employment	Indicator measures percentage of persons aged (15 years and above) who during the reference period worked 35 hours and more, were in the following categories: Paid employment and self-employment (employer, self employed, unpaid family member)	Dividing the number of persons in this categories by the number of participants in labor force, multiplied by hundred	Percentage	Country, Region	Sex, Age groups, Years of schooling	Survey	Quarterly	
							Country, Region, Governorate			Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515015	Labour	Percentage of Underemploy-ment	Indicator measures the percentage of persons in employment who worked less than 35 hours a week, and satisfy the following three criteria during the reference period used to define employment: willing to work additional hours (wanted other job in addition to their current job to increase their total hours of work), available to work additional hours, and worked less than a threshold relating to working time	Dividing the number of persons who work partially by the total number of participants in labor force, multiplied by hundred	Percentage	Country, Region	Sex, Age groups, Years of schooling, Type of employment (visible, invisible), Employment status, Economic activity, Occupation	Survey	Quarterly	
							Country, Region, Governorate			Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515016	Labour	Percentage of Time Related underemployment	Indicator measures the percentage of persons who were employed during a short reference period and the total actual hours worked in all jobs were less than 35 hours and they wanted to work additional hours, who were available to work additional hours if they are given an opportunity for additional work.	Dividing the number of all persons (15 years and above) who were in time related underemployment by the total number of persons in the labor force aged (15 years and above) multiplied by hundred	Percentage	Country, Region	Sex, Years of schooling, Employment status, Economic activity, Occupation	Survey	Quarterly, Annual	
25	2515017	Labour	Percentage of Labor Force Participants	Indicator measure size of persons (15 years and above) who fulfill the requirements for inclusion among the employed or the unemployed	Dividing the number of persons (15 years and above) who are employed and unemployed by the total number of manpower aged (15 years and above), multiplied by hundred	Percentage	Country, Region	Type of locality, Sex, Years of schooling, Age groups, Refugee status, Marital status, type of disability	Survey	Quarterly	
							Country, Region, Governorate			Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515018	Labour	Percentage of Unpaid Trainees	Indicator measures the percentage of persons who performed any unpaid work to produce goods and services for others, in order to acquire experience or skills in the workplace in order to be able to find jobs, transportation or allowance or meals or gifts that offered to trainees are not considered as wage	Dividing the number of unpaid trainees aged (15 years and above) by total number of persons aged (15 years and above) multiplied by hundred	Percentage	Country, Region	Economic activity, Occupation, weekly work hours	Survey	Quarterly, Annual	
25	2515019	Labour	Percentage of Youth (15- 29 years) Completed the Transition Period	Indicator measures percentage of Youth (15- 29 years) who is currently employed in a stable or a satisfactory job	Dividing number of young people (15- 29 years) who transited by total number of young people multiplied by hundred	Percentage	Country, Region	Sex, Locality type	Survey	Unspecified Periodicity	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515020	Labour	Percentage of Youth (15- 29 years) did not Start the Transition Period	Indicator measures percentage of Youth (15- 29 years) who is currently inactive and not in education, with no intention of looking for work.	Dividing number of young people (15- 29 years) who not started the transition by total number of young people multiplied by hundred	Percentage	Country, Region	Sex, Locality type	Survey	Unspecified Periodicity	
25	2515021	Labour	Percentage of Youth (15- 29 years) Who in Transition Period	Indicator measures percentage of youth (15- 29 years) person who is currently unemployed or employed in a temporary and non-satisfactory job	Dividing number of youth (15- 29 years) in transition period by total number of young people multiplied by hundred	Percentage	Country, Region	Sex, Locality type	Survey	Unspecified Periodicity	
25	2515022	Labour	Percentage of Ill/Old Outside the Labor Force	Indicator measures Old and Illness persons who are outside labor force due to old and illness from all persons aged (15 years and above) who are classified outside labor force.	Dividing the number of old and illness persons by the total number of persons outside labor force (15 years and above) multiplied by hundred.	Percentage	Country, Region	Sex, Age groups	Survey	Quarterly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515023	Labour	Percentage of Persons Outside Labor Force Due to Housekeeping	Indicator measures persons who are outside labor force due to housekeeping from all persons aged (15 years and above) who are classified outside labor force..	Dividing the number of persons outside labor force due to housekeeping by the total number of persons outside labor force (15 years and above) multiplied by hundred	Percentage	Country, Region	Age groups	Survey	Quarterly, Annual	
25	2515024	Labour	Percentage of Persons Outside Labor Force Due to Study and Training	Indicator measures persons who are outside labor force due to study or training from all persons aged (15 years and above) who are classified outside labor force.	Dividing the number of persons outside labor force due to Study or training by the total number of persons outside labor force (15 years and above) by hundred	Percentage	Country, Region	Sex, Age groups	Survey	Quarterly, Annual	
25	2515025	Labour	Average of Unemployment Duration	Indicator measures the time period from the beginning of the searching work until the beginning of the reference period of the data collection	Dividing the sum of months looking for work for all seekers by the number of seekers	Average	Country, Region	Sex	Survey	Quarterly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515026	Labour	Combined rate of time- related underemploym-ent and unemployment	Indicator measures the percentage of individuals aged 15 years and above who were during the reference period unemployed or employed as time-related underemployment	Dividing number of individuals aged 15 years and above Who were unemployed plus number of employed as a time-related underemployment by the number of individuals participated in the labour force multiplied by hundred	Percentage	Country, Region	Sex	Survey	Quarterly, Annual	
25	2515027	Labour	Combined rate of unemployment and potential labour force	Indicator measures the percentage of individuals aged 15 years and above who were during the reference period unemployed or individuals considered as a potential labour force.	Dividing number of individuals aged 15 years and above Who were unemployed plus number of individuals considered as a potential labour force by the number of individuals participated in the labour force plus individuals considered as a potential labour force multiplied by hundred	Percentage	Country, Region	Sex	Survey	Quarterly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515028	Labour	Composite rate of labour underutilization	Indicator measures the percentage of individuals aged 15 years and above who were during the reference period unemployed or individuals considered as a potential labour force or employed as time-related underemployment	Dividing number of individuals aged 15 years and above Who were unemployed plus number of individuals considered as a potential labour force plus the number of employed as time-related underemployment by the number of individuals participated in the labour force plus individuals considered as a potential labour force multiplied by hundred	Percentage	Country, Region	Sex	Survey	Quarterly, Annual	
25	2515029	Labour	Percentage of discouraged jobseekers	Indicator measures the percentage of individuals aged 15 years and above who were during the reference period available to work but didn't seek work because of discouraged to find a job	Dividing number of individuals aged 15 years and above who were available to work during the reference period and didn't seek work because of being discouraged to find a job by the number of individuals outside the labour force, multiplied by hundred	Percentage	Country, Region	Sex	Survey	Quarterly, Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2515030	Labour	Percentage of informal employment	Indicator measures the percentage of Individuals aged (15 years and above) who are working in informal sector by the total number of employment	Dividing the number of Individuals (15 years and above) who are working in informal sector by the total number of employment, multiplied by hundred	Percentage	Country, Region	Sex, Economic activity	Survey	Quarterly, Annual	SDGs Indicator 8.3.1
25	2515031	Labour	Percentage of individuals (aged 15-24 years) not in education, employment or training	Indicator measures the percentage of individuals aged (15–24 years) not in employment, education or training.	Dividing the number of individuals (15-24 years) who are not in employment, education or training by the total number of individuals (15-24 years) multiplied by hundred	Percentage	Country, Region	Sex	Survey	Quarterly, Annual	SDGs Indicator 8.6.1
25	2515032	Labour	Percentage of employment in Manufacturing sector	Indicator measures the Percentage of Manufacturing employment as a proportion of total employment	Dividing the number of Manufacturing employment by the total number employment, multiplied by hundred	Percentage	Country, Region	Sex	Survey	Quarterly, Annual	SDGs Indicator 9.2.2

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Information & communication Technology Statistics Subject Code: 2520											
25	2520001	Information & communication Technology	ICT sector share of Gross Value Added	Indicator measures the size of ICT share of gross value added	Dividing the value added of ICT activity by the gross value added multiplied by hundred	Percentage	Country		Survey	Annual	
25	2520002	Information & communication Technology	Number of Computers Per Hundred Inhabitants	Indicator measures the extent of computer ownership	Dividing the estimated number of computers in use by the population, multiplied by hundred	Computer/hundred inhabitants	Country, Region, Governorate		Survey	Every three years	
25	2520003	Information & communication Technology	Number of Researchers in Research & Development	Indicator measures the researchers in research & development	Total number of the researchers in research & development	Number	Country, Region		Survey	Annual	
25	2520004	Information & communication Technology	Number of Researchers in Research & Development by Full – Time Equivalent (FTE) (SDGs Indicator)	Indicator measures the number of researchers in research & development by full – time equivalent (calculated as spending 90% or more of total annual working hours in research and development)	Total number of the researchers in research & development by full – time equivalent (calculated as spending 90% or more of total annual working hours in research and development)	Number	Country, Region		Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520005	Information & communication Technology	Number of Computers in Schools Per Hundred Students	Indicator measures the availability of computers in schools for students	Dividing the number of computers for students in schools by the total number of students, multiplied by hundred	Computer /hundred Student	Country, Region, Governorate		Administrative Records	Annual	
25	2520006	Information & communication Technology	Number of Fixed Telephone Lines per Hundred Inhabitants	Indicator measures the extent of the use of fixed telephones lines among population	Dividing the number of fixed telephone lines by the population and multiplying by hundred	Telephone /hundred inhabitants	Country, Region		Administrative Records	Annual	
25	2520007	Information & communication Technology	Number of Research and Development Personnel	Indicator measures the research and development personnel	Total number of the research and development personnel	Number	Country, Region		Survey	Annual	
25	2520008	Information & communication Technology	Number of Research & Development Personnel by Full – Time Equivalent (FTE)	Indicator measures the number of research & development personnel by full – time equivalent (calculated as spending 90% or more of total annual working hours in research and development)	Total number of the research & development personnel by full – time equivalent (calculated as spending 90% or more of total annual working hours in research and development)	Number	Country, Region		Survey	Annual	
25	2520009	Information & communication Technology	Number of Mobile Cellular Subscribers per Hundred Inhabitants	Indicator measures the extent of the use of mobile cellular among population	Dividing the number of mobile cellular subscribers by the population and multiplying by hundred	Subscriber /hundred inhabitants	Country, Region		Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520010	Information & communication Technology	Number of Fixed Internet Subscribers per Hundred Inhabitants	Indicator measures the extent of the use of fixed internet among population	Dividing the number of internet subscribers by the population, multiplied by hundred	Subscriber /hundred inhabitants	Country, Region		Administrative Records	Annual	
25	2520011	Information & communication Technology	Number of Fixed Broadband Internet Subscribers per Hundred Inhabitants	Indicator measures the extent of the use of fixed broadband internet (more than 256 kbps) among population	Dividing the number of broadband internet subscribers by the population, multiplied by hundred	Subscriber /hundred inhabitants	Country, Region	Speed	Administrative Records	Annual	SDGs Indicator 17.6.2
25	2520012	Information & communication Technology	Expenditure on Research & Development	Indicator measures current and capital expenditures (including overhead costs) spent on systematic and creative activities designed to increase knowledge. Includes basic and applied research and development processes, based on tests that lead to the production of tools or hardware or new manufacturing processes	Calculates the current and capital expenditures (including overhead costs) spent on the systematic and creative activities designed to increase knowledge. Include basic and applied research and development processes, based on tests that lead to the production of tools or hardware or new manufacturing processes	US Dollar	Country, Region		Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520013	Information & communication Technology	Expenditure on Research & Development Per Researcher by (FTE)	Indicator measures Current and capital expenditures (including overhead costs) that are expended for each researcher in full time equivalents	Dividing the Total Expenditure on Research & Development by the Number of Researcher (FTE). To Calculate the current and capital expenditures (including overhead costs) spent on research & development per researcher by Full time equivalent (FTE) ((The full time equivalent was calculated on the basis that workers spend 90% or more of their total work hours in research and development))	US Dollar	Country, Region		Survey	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520014	Information & communication Technology	Percentage of Households Monitoring Programs Used by their Children (5 -17 Years) on the Electronic Means	Indicator measures the extent of households measures the type of programs used by their children (5-17 years) on the electronic means	Dividing the number of households that monitor the type of programs used by their children aged (5-17 years) on electronic means by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate	The Electronic Means (Computer, Internet)	Survey	Every five years	
25	2520015	Information & communication Technology	Percentage of Households that Control the Number of Daily Hours of Computer Use for their Children (5-17 Years)	Indicator measures the percentage of households that control the number of daily hours of computer use for their children (5-17 years)	Dividing the number of households that control the number of daily hours of computer use for their children (5-17) years by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every five years	
25	2520016	Information & communication Technology	Percentage of Households with a Mobile Cellular Telephone	Indicator measures the extent of households with a mobile cellular telephone	Dividing the number of in-scope households with a mobile cellular telephone by the total number of in-scope households, multiplied by hundred	Percentage	Country, Region, Governorate	Type of locality	Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520017	Information & communication Technology	Percentage of Households who their Children (5-17 Years) Using the Computer	Indicator measures the percentage of households who their children (5-17 years) using the computer	Dividing the number of households who their children (5-17 years) using the computer by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every five years	
25	2520018	Information & communication Technology	Percentage of Households with a DVD	Indicator measures the extent of households with a DVD	Dividing the number of in-scope households with a DVD by the total number of in-scope households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every three years	
25	2520019	Information & communication Technology	Percentage of Households with a Computer	Indicator measures the extent of households with a computer. A computer refers to a desktop computer, a laptop (portable) computer or a tablet (or similar handheld computer)	Dividing the number of in-scope households with a computer by the total number of in-scope households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520020	Information & communication Technology	Percentage of Households with a Video	Indicator measures the extent of households with a video	Dividing the number of in-scope households with a video by the total number of in-scope households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every three years	
25	2520021	Information & communication Technology	Percentage of Households with a Satellite	Indicator measures the extent of households with a satellite	Dividing the number of in-scope households with a satellite by the total number of in-scope households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every three years	
25	2520022	Information & communication Technology	Percentage of Households with Internet Access at Home	Indicator measures the extent of the phenomenon of internet access from home among households	Dividing the number of in-scope households with internet access by the total number of in-scope households, multiplied by hundred	Percentage	Country, Region, Governorate	Locality Type	Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520023	Information & communication Technology	Percentage of Individuals (10 Years and above) who have a mobile cellular telephone	Indicator measures the extent of having a mobile cellular telephone among individuals (10 years and above)	Dividing the total number of in-scope individuals who have a mobile cellular telephone by the total number of in-scope individuals, multiplied by hundred	Percentage	Country, Region, Governorate	Sex, age groups, locality type	Survey	Every three years	
25	2520024	Information & communication Technology	Percentage of Individuals (10 Years and above) who have Personal E-mail	Indicator measures the extent of having personal e-mail among individuals (10 years and above)	Dividing the number of individuals (10 years and above) who have personal e-mail by the total number of individuals in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Sex, age groups, locality type	Survey	Every three years	
25	2520025	Information & communication Technology	Percentage of Individuals (10 Years and above) Who Use Internet	Indicator measures the extent of using internet among individuals (10 years and above)	Dividing the total number of in-scope individuals who used the internet by the total number of in-scope individuals, multiplied by hundred	Percentage	Country, Region, Governorate	Sex, age groups, purpose, locality type	Survey	Every three years	SDGs Indicator 17.8.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520026	Information & communication Technology	Percentage of Individuals (10 Years and above) Who Use Computer	Indicator measures the extent of using computers among individuals (10 years and above) A computer refers to a desktop computer, a laptop (portable) computer or a tablet (or similar handheld computer)	Dividing the total number of in-scope individuals who used a computer by the total number of in-scope individuals, multiplied by hundred	Percentage	Country, Region, Governorate	Sex, age groups	Survey	Every three years	
25	2520027	Information & communication Technology	Percentage of Researches	Indicator measures the types of researches and its percentage of total researches	Dividing the number of researches by type, of the total number of researches undertaken in certain time and place, multiplied by hundred	Percentage	Country, Region	Research type (pure\ orientated, applied, experimental)	Administrative Records	Annual	
25	2520028	Information & communication Technology	Percentage of Direct Funding from Abroad on Research and Development	Indicator measures the direct funding from abroad on research and development	Dividing the value of direct funding from abroad the Palestine, by the total funding for research and development, multiplied by hundred	Percentage	Country, Region		Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520029	Information & communication Technology	Percentage of Employed Persons Using Internet	Indicator measures the extent of using internet among employed persons within their work	Dividing the number of employed persons using the internet (in all in-scope businesses) by the total number of employed persons (in all in scope businesses), multiplied by hundred	Percentage	Country, Region		Survey	Every two years	
25	2520030	Information & communication Technology	Percentage of Employed Persons Using Computers	Indicator measures the extent of using computers among employed persons within their work	Dividing the number of employed persons using computers (in all in-scope businesses) by the total number of employed persons (in all in scope businesses), multiplied by hundred	Percentage	Country, Region		Survey	Every two years	
25	2520031	Information & communication Technology	Percentage of Employed Persons Engaged in the ICT Activity of the Total Labour force	Indicator measures the percentage of employed persons engaged in the ICT activity of the total labour force	Dividing the number of employed persons engaged in the ICT activity by the total labour force, multiplied by hundred	Percentage	Country, Region		Survey	Every two years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520032	Information & communication Technology	Percentage of Schools with TV used for Educational Purpose	Indicator measures the availability of TV used for educational purposes in schools	Dividing the number of schools with TV used for educational purposes by the total number of schools in a specific academic year, multiplied by hundred	Percentage	Country, Region		Administrative Records	Annual	
25	2520033	Information & communication Technology	Percentage of Schools with Computers Used for Educational Purpose	Indicator measures the availability of computers used for educational purposes in schools	Dividing the number of schools with computers used for educational purposes by the total number of schools in a specific academic year, multiplied by hundred	Percentage	Country, Region		Administrative Records	Annual	
25	2520034	Information & communication Technology	Percentage of Schools with Internet Access	Indicator measures the availability of internet access within schools	Dividing the number of schools with internet access by the total number of schools in the academic year, multiplied by hundred	Percentage	Country, Region, Governorate		Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520035	Information & communication Technology	Percentage of Schools with a Telephone	Indicator measures the availability of telephone in schools	Dividing the number of schools with telephone by the total number of schools in a specific academic year, multiplied by hundred	Percentage	Country, Region		Administrative Records	Annual	
25	2520036	Information & communication Technology	ICT Exports as a Percentage of Total Exports	Indicator measures the size of ICT exports of total exports	Dividing the value of ICT exports by the total exports multiplied by hundred	Percentage	Country		Administrative Records	Annual	
25	2520037	Information & communication Technology	Percentage of Enterprises Receiving\ Placing Orders Over the Internet	Indicator measures the extent of enterprises receiving\ placing orders over the internet	Dividing the number of in-scope enterprises receiving\ placing orders over the internet by the total number of in-scope enterprises multiplied by hundred	Percentage	Country, Region		Survey	Every two years	
25	2520038	Information & communication Technology	Percentage of Enterprises Using the Internet	Indicator measures the extent of using internet among enterprises	Dividing the number of in-scope enterprises using the internet by the total number of in-scope enterprises, multiplied by hundred	Percentage	Country, Region	Employment size, economic activity at the fourth digit	Survey	Every two years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520039	Information & communication Technology	Percentage of Enterprises Using Computers	Indicator measures the extent of using computers among enterprises	Dividing the number of in-scope enterprises using computers during the 12-month reference period by the total number of in-scope enterprises, multiplied by hundred	Percentage	Country, Region	Employment size, economic activity at the fourth digit	Survey	Every two years	
25	2520040	Information & communication Technology	Percentage of Enterprises with a Network	Indicator measures the extent of enterprises with networks (LAN, Intranet, Extranet)	Dividing the number of in-scope enterprises with networks (LAN, Intranet, Extranet) by the total number of in-scope enterprises, multiplied by hundred	Percentage	Country, Region	Network type (Local "LAN", Intranet, External ")	Survey	Every two years	
25	2520041	Information & communication Technology	Percentage of Enterprises with WEB Site	Indicator measures the extent of the phenomenon of enterprises with websites	Dividing the number of in-scope enterprises with a web site by the total number of in-scope enterprises, multiplied by hundred	Percentage	Country, Region		Survey	Every two years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520042	Information & communication Technology	ICT Imports as a Percentage of Total Imports	Indicator measures the size of ICT imports of total imports	Dividing the value of ICT imports by the total imports multiplied by hundred	Percentage	Country		Administrative Records	Annual	
25	2520043	Information & communication Technology	Percentage of Internet Users (10 Years and above) Exposed to Informatics Threats on the Internet	Indicator measures the percentage of Internet Users (10 Years and above) Exposed to Informatics Threats	Dividing the total number of in-scope individuals who used the internet and Exposed to Informatics Threats by the total number of in-scope individuals, multiplied by hundred	Percentage	Country, Region	Type of Informatics Threats: (Entry of Viruses through the Internet, Damage of Information, Publish of Pornographic Content, Theft of Personal Data, Theft of Credit Card Numbers, Other)	Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520044	Information & communication Technology	Proportion of youth and adults with information and communications technology (ICT) skills.	Indicator measures the proportion of youth and adults with information and communications technology (ICT) skills, by type of skill as defined as the percentage of youth (aged 15-24 years) and adults (aged 15 years and above) that have undertaken certain computer-related activities in a given time period (e.g. last three months)	Calculated as the percentage of people in a given population who have responded 'yes' to a selected number of variables	Percentage	Country, Region, Governorate	Type of skill, Sex, age groups, locality type	Survey	Every three years	SDGs Indicator 4.4.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520045	Information & communication Technology	Research and development expenditure as a proportion of GDP	Indicator measures current and capital expenditures (including overhead costs) spent on systematic and creative activities designed to increase knowledge. Includes basic and applied research and development processes, based on tests that lead to the production of tools or hardware or new manufacturing processes as % of GDP	Dividing the total Research and development (R&D) expenditure as a proportion of Gross Domestic Product (GDP) is the amount of R&D expenditure by the total output of the economy, multiplied by hundred.	Percentage	Country		Survey	Every five years	SDGs Indicator 9.5.1
25	2520046	Information & communication Technology	Proportion of population covered by a mobile network	Proportion of population covered by a mobile network, broken down by technology, refers to the percentage of inhabitants living within range of a mobile-cellular signal, irrespective of whether or not they are mobile phone subscribers or users.	Dividing the number of inhabitants within range of a mobile-cellular signal by the total population, multiplied by hundred.	Percentage	Country	Technology	Administrative Records	Annual	SDGs Indicator 9.c.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
	2520047	Information & communication Technology	Researchers (in full-time equivalent) per million inhabitants	Indicator measures The researchers (in full-time equivalent) per million inhabitants is a direct measure of the number of research and development workers per one million people	Dividing the number of research and development workers (in full-time equivalents) by the number of people multiplied by one million.	Researcher/ million inhabitants	Country		Survey	Every five years	SDGs Indicator 9.5.2
25	2520048	Information & communication Technology	Percentage of Households that Have a Smart Phone	Indicator measures the extent of a Smart Phone among households	Dividing the number of in-scope households that Have a Smart Phone by the total number of in-scope households, multiplied by hundred	Percentage	Country, Region	Type of locality	Survey	Every three years	
25	2520049	Information & communication Technology	Percentage of Individuals (10 Years and above) who used a Smart Phone	Indicator measures the extent of using Smart Phone among individuals (10 years and above	Dividing the total number of in-scope individuals who used a Smart Phone by the total number of in-scope individuals, multiplied by hundred	Percentage	Country, Region	Type of locality	Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520050	Information & communication Technology	Percentage of Households that Have a Smart Phone	Indicator measures the extent of having a Smart Phone among individuals (10 years and above)	Dividing the total number of in-scope individuals who have a Smart Phone by the total number of in-scope individuals, multiplied by hundred	Percentage	Country, Region	Type of locality	Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520051	Information & communication Technology	Percentage of Individuals (18 Years and Above) Who Purchased Goods or Services Online	Indicator measures the extent of E-commerce among individuals (18 years and above)	Dividing the total number of Individuals (18 Years and Above) who purchased goods or services online by the total number of in-scope individuals that using internet, multiplied by hundred	Percentage	Country, Region	Type of locality, Type of commodity or service purchased, Payment method (cash on delivery, credit card via the Internet, direct debit card or electronic bank transfer via the Internet, mobile financial account (an account connected to a mobile phone number), online payment services (PayPal), Method of delivery (direct delivery to the buyer using regular mail services, delivery of purchases at points of sale or service delivery points, online delivery / electronic delivery by downloading from a website or through an application or programming or another device (such as purchases through applications)	Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2520052	Information & communication Technology	Percentage of Individuals (18 Years and Above) Who Did Not Purchase Goods or Services Online	This indicator measures the extent of not purchase goods or services online	Dividing the total number of individuals (18 years and above) who did not purchase goods or services online by the total number of in-scope individuals, multiplied by hundred	Percentage	Country, Region	Reason not to buy	Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Living Standards Statistics						Subject Code: 2525					
25	2525001	Living Standards	Share of Poorest Quintile (20%) of the Population in Total National Consumption	Indicator measures fairness of distribution, by measuring the share of the poorest 20% of the population in total national consumption	Dividing the total consumed by the poorest 20% of the population by the value of total national consumption at a specific moment of time, multiplied by hundred	Percentage	Country, Region		Survey	Every three years	
25	2525002	Living Standards	Poverty Severity	Indicator measures the distance separating the poor from the poverty line (the poverty gap), but also the inequality among the poor. That is, a higher weight is placed on those households who are further away from the poverty line	Measured by finding the arithmetic mean of the total relative squares of poverty gaps for all the poor	Percentage	Country, Region, Governorate	Household size, main source of income, educational attainment of head of household, dependency ratio, sex of the head of the household, refugee status of the head of the household	Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2525003	Living Standards	Average Household Consumption	Indicator measures the Palestinian average household consumption of goods and services	Average amount of cash spent on the purchase of goods and services for living purposes, and the value of goods and services payments or part of payments received from employer and allocated for household consumption, own-produced goods, consumed during the recording period, and imputed rent for owned occupied dwellings	Jordanian Dinar (JD)	Country, Region, Governorate	Household size, main source of income, educational attainment of head of household, dependency ratio, sex of the head of the household, refugee status of the head of the household	Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2525004	Living Standards	Average Household Expenditure	Indicator measures the Palestinian average household expenditure on goods and services	Average amount of cash spent on the purchase of goods and services for living purposes, and the value of goods and services payments or part of payments received from employer and cash expenditure spent as taxes (non commercial or non-industrial), gifts, contributions, interest on debts, and other non-consumption items, and cash transfers paid	Jordanian Dinar (JD)	Country, Region, Governorate	Household Size, main source of income, educational attainment of head of household, dependency ratio, sex of the head of the household, refugee status of the head of the household	Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2525006	Living Standards	Standards of Living	Indicator measures the share of food consumption of total consumption	Dividing the total consumption of food by the total consumption, households are distributed according to this ratio into three categories	Percentage	Country, Region	Living Standards Level: (less than 30%), (30-44%), (45-100%)	Survey	Every three years	
25	2525007	Living Standards	Percentage of Children Living below the Poverty Line	Indicator measures the percentage of children aged less than 18 years and belonging to poor households (i.e. its monthly consumption below the national poverty line)	Dividing the number of children aged less than 18 years and belonging to poor households (i.e. its monthly consumption below the national poverty line) by the total number of children in the same age group, multiplied by hundred	Percentage	Country, Region		Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2525008	Living Standards	Poverty Percentage	Indicator measures the share of the population whose income or consumption is below the poverty line, that is, the share of the population that cannot afford to buy a basic basket of goods. An analyst using several poverty lines, say one for poverty and one for extreme/deep poverty, can estimate the incidence of both poverty and extreme/deep poverty	Dividing the number of households living below the national poverty line by the total number of households multiplied by hundred	Percentage	Country, Region, Governorate	Household Size, main source of income, educational attainment of head of household, dependency ratio, sex of the head of the household, refugee status of the head of the household	Survey	Every three years	SDGs Indicator 1.2.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2525009	Living Standards	Percentage of Poverty Gap	This provides information regarding how far off poor households are from the poverty line. This measure captures the mean aggregate income or consumption shortfall relative to the poverty line across the whole population. It gives the total resources needed to bring all the poor to the level of the poverty line. The amount that one would have to transfer to the poor under perfect targeting (i.e. each poor getting exactly the amount he/ she needs to be lifted out of poverty) to bring them all out of poverty	Poverty line- Consumption of poor people divided by poverty line, multiplied by hundred	Percentage	Country, Region, Governorate	Household Size, main source of income, educational attainment of head of household, dependency ratio, sex of the head of the household, refugee status of the head of the household	Survey	Every three years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2525010	Living Standards	Proportion of population with large household expenditures on health as a share of total household expenditure or income	Indicator measures the proportion of population with large household expenditures on health as a share of total household expenditure or income	Dividing the health expenditure over total expenditure then categorized within more than 10% and more than 20%	Percentage	Country, Region		Survey	Every three years	SDGs Indicator 3.8.2
25	2525011	Living Standards	Growth rates of household expenditure or income per capita among the bottom 40 per cent of the population and the total population	Indicator measures the growth rates of household expenditure or income per capita among the bottom 40 per cent of the population and the total population	Comparing the share of the lowest 40% with their share in the reference year	Percentage	Country, Region		Survey	Every three years	SDGs Indicator 10.1.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Education & Culture Statistics Subject Code: 2530											
25	2530001	Education & Culture	Number of Cultural Activities Offered by Cultural Centers	Indicator measures the cultural activities offered by cultural centers	Total number of cultural activities offered by cultural centers	Number	Country, Region, Governorate	Type of Cultural Activity (Lectures, Symposiums, Courses, Art shows, Exhibitions, Other), month	Administrative Records	Annual	
25	2530002	Education & Culture	Numbers of Churches	Indicator measures the number of operating churches	Total number of operating churches	Number	Country, Region, Governorate		Administrative Records	Annual	
25	2530003	Education & Culture	Numbers of Mosques	Indicator measures the number of operating mosques	Total number of operating mosques	Number	Country, Region, Governorate		Administrative Records	Annual	
25	2530004	Education & Culture	Number of Participants in Cultural Activities	Indicator measures the number of participants in cultural activities offered by cultural centers	Total number of participants in cultural activities	Number	Country, Region, Governorate	Month, type of cultural activity (Lectures, Symposiums, Courses, Art shows, Exhibitions, Other)	Administrative Records	Annual	
25	2530005	Education & Culture	Number of Graduates	Indicator measures the size of graduates batches of higher education institutions	Total number of graduates from different higher education institutions, regardless of specialization	Number	Country, Region	Sex, institutions of higher education (Universities, Community Colleges)	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530006	Education & Culture	Number of Classes	Indicator measures the number of classes in schools	Total number of educational classes in all schools	Number	Country, Region, Governorate	Supervising authority (Government, UNRWA, Private), sex of class	Administrative Records	Annual	
25	2530007	Education & Culture	Number of Newspapers	Indicator measures the number of newspapers	Total number of newspapers	Number	Country, Region, Governorate		Administrative Records	Annual	
25	2530008	Education & Culture	Number of Students in Palestine	Indicator measures the number of students in Palestine	Total number of students in Palestine	Number	Country, Region, Governorate	Sex, stage of education (Kindergarten, Basic, Secondary, Intermediate Community Colleges, Universities)	Administrative Records	Annual	
25	2530009	Education & Culture	Number of Employees in Radio and Television Institutions	Indicator measures the number of employees in radio and television institutions	Total number of employees in radio and television institutions	Number	Country, Region, Governorate		Administrative Records	Annual	
25	2530010	Education & Culture	Number of Operating Magazines	Indicator measures the number of operating magazines	Total number of operating magazines	Number	Country, Region, Governorate		Administrative Records	Annual	
25	2530011	Education & Culture	Number of Schools	Indicator measures the number of schools in the country	Total number of schools in various governorates, regardless of educational stage and supervising authority	Number	Country, Region, Governorate	Supervising authority (Government, UNRWA, Private), sex of school, stage of education (Basic, Secondary)	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530012	Education & Culture	Number of Stage Shows	Indicator measures the number of stage shows	Total number of stage shows	Number	Country, Region, Governorate	Month, targeted audience, nationality of actors	Administrative Records	Annual	
25	2530013	Education & Culture	Number of Audience of Stage Shows	Indicator measures the number of audiences of stage shows	Total number of audiences of stage shows	Number	Country, Region, Governorate	Month	Administrative Records	Annual	
25	2530014	Education & Culture	Number of Teachers	Indicator measures the number of teachers.	Total number of teachers in all schools	Number	Country, Region, Governorate	Sex, supervising authority (Government, UNRWA, Private, Private Kindergartens stage)	Administrative Records	Annual	
25	2530015	Education & Culture	Number of Public Libraries	Indicator measures the number of public libraries	Total number of public libraries	Number	Country, Region, Governorate		Administrative Records	Annual	
25	2530016	Education & Culture	Number of Cultural Institutions	Indicator measures the number of the cultural institutions	Total number of cultural institutions	Number	Country, Region, Governorate	Cultural Institutions (Theaters, Museums, Cultural Centers, Publishing and Distribution Institutions, Local Radio and TV stations, and Cinema)	Administrative Records	Annual	
25	2530017	Education & Culture	Number of Kindergartens	Indicator measures the number of kindergartens	Total number of kindergartens	Number	Country, Region, Governorate	Supervising Authority (Government, Private)	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530018	Education & Culture	Number of Visitors to Cultural Institutions	Indicator measures the number of visitors to cultural institutions	Total number of visitors to cultural institutions	Number	Country, Region, Governorate	Month	Administrative Records	Annual	
25	2530019	Education & Culture	Weekly Average Number of Books Pages Read by Individuals (10 Years and above)	Indicator measures the weekly average number of books pages read by individuals (10 years and above)	Dividing the total number of books pages read by individuals (10 years and above) by the total number of individuals within the same age group	Rate	Country, Region, Governorate	Sex	Survey	Every five years	
25	2530020	Education & Culture	Average daily listening Hours to Radio by Individuals (10 Years and above)	Indicator measures the daily listening hours to radio by individuals (10 years and above)	Dividing the total number of hours spent by individuals (10 years and above) listening to the radio by the total number of individuals within the same age group	Rate	Country, Region, Governorate	Sex	Survey	Every five years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530021	Education & Culture	Gross Enrollment Rate	Indicator measures total enrolment in a specific stage of education, regardless of age, expressed as a percentage of the eligible official school-age population corresponding to the same stage of education in a given scholastic year	Dividing the number of students enrolled in a given stage of education regardless of age by the population of the age-group which officially corresponds to the given stage of education, multiplied by hundred	Rate	Country, Region, Governorate	Sex, stage of education (Kindergarten, Basic, Secondary, High Education)	Administrative Records	Annual	
25	2530022	Education & Culture	Average Number of Students Per Class	Indicator measures the extent of crowding in the educational classes	Dividing the number of students in a given year by the number of classes available for them	Rate, Student/ Class	Country, Region, Governorate	Sex, supervising authority (Government, UNRWA, Private), stage of education (Kindergartens, Basic, Secondary)	Administrative Records	Annual	
25	2530023	Education & Culture	Average Number of Students per Teacher	Indicator measures average number of students per teacher at a specific stage of education in a given scholastic year	Dividing the total number of students enrolled at the specified stage of education by the number of teachers at the same stage.	Rate, Student/ Teacher	Country, Region, Governorate	Sex, supervising authority (Government, UNRWA, Private), Kindergartens stage	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530024	Education & Culture	Average Number of Books Read During 12 Months by Individuals (10 Years and above)	Indicator measures the average number of books read during 12 months by individuals (10 years and above)	Dividing the total number of books read over 12 months by individuals (10 years and above) by the total number of people within the age group	Book/ Individual	Country, Region, Governorate	Sex	Survey	Every five years	
25	2530025	Education & Culture	Average Number of Weekly Reading Hours Among Individuals (10 Years and above)	Indicator measures the average number of weekly reading hours among individuals (10 years and above)	Dividing the total number of hours spent weekly by individuals (10 years and above) to exercise the habit of reading by the total number of individuals within the same age group	Hour/ Individual	Country, Region, Governorate	Sex	Survey	Every five years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530026	Education & Culture	Percentage of Households with Cultural Facilities	Indicator measures the prevalence of households that have cultural facilities, which are the cultural goods and services (resources) available for household, includes: 1 - Resources associated with the modern media (books, magazines, newspapers) radios, televisions, recorders, tapes). 2 - Resources that form the oral tradition concept mediator for the dissemination of culture	Dividing the number of households that have cultural facilities by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every five years	
25	2530027	Education & Culture	Percentage of Households Who Receive Daily Newspapers	Indicator measures the extent of the phenomenon of households receiving daily newspapers	Dividing the number of households who receive the daily newspaper regularly by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every five years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530028	Education & Culture	Percentage of Households who have TV set and Monitor daily Hours Watched for TV by their Children Aged (5-17 Years)	Indicator measures the extent of households monitor the number of daily hours of watching television by their children aged (5-17 years)	Dividing the number of households that monitor the number of daily hours that their children aged (5-17 years) watched television by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every five years	
25	2530029	Education & Culture	Percentage of Households who have TV set and Monitor TV Programs Watched by their Children Aged (5-17 Years)	Indicator measures the extent of households who have TV set and monitor the type of television programs watched by their children aged (5-17 years)	Dividing the number of households who have TV set and monitor the type of television programs watched by their children aged (5-17 years) by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every five years	
25	2530030	Education & Culture	Percentage of Households that Listen to the Radio	Indicator measures the extent of households that listen to the radio	Dividing the number of households that listen to the radio by total number of households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every five years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530031	Education & Culture	Percentage of Households that Watch TV	Indicator measures the prevalence of households that watch television	Dividing the number of households that watch TV by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every five years	
25	2530032	Education & Culture	Percentage of Households that Watch TV Channels	Indicator measures the prevalence of households that watch TV channels	Dividing the number of households that watch TV channel by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate	Type of TV stations (Local, Satellite)	Survey	Every five years	
25	2530033	Education & Culture	Percentage of Households that Watch TV Series	Indicator measures the prevalence of households that watch TV series	Dividing the number of households that watch certain TV series by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate	Type of TV series (Translated into Arabic, Dubbed into Arabic)	Survey	Every five years	
25	2530034	Education & Culture	Percentage of Households that Watch Palestine Satellite Channel (PSC)	Indicator measures the prevalence of households that watch Palestine satellite channel (PSC)	Dividing the number of households that watch Palestine satellite channel (PSC) by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every five years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530035	Education & Culture	Percentage of Households with Children and have Home-Library	Indicator measures the prevalence of households with children and have home-library (i.e. collection of books, magazines or periodicals that are not academic, which is often used for the development of cultural or religious aspects, which contains 10 books at least	Dividing number of households with children and have home-library by the total number of households with children, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every five years	
25	2530036	Education & Culture	Percentage of Households with a Television	Indicator measures the prevalence of households with a television	Dividing the number of households that have a TV by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every five years	
25	2530037	Education & Culture	Percentage of Households with Adequate Knowledge of their Children's Friends	Indicator measures the extent of adequate knowledge of households about their children's friends	Dividing the number of households that have adequate knowledge about their children's friends by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every five years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530038	Education & Culture	Percentage of Households that Discuss Some Traditional Cultural Themes in Home	Indicator measures the extent of households that discuss some traditional cultural themes in home	Dividing the number of households that discuss some traditional cultural themes by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate	Traditional cultural theme (Myths, Superstitions, Inherited stories and tales, True stories, Funny tales from the heritage folklore poetry and singing, Wise sayings and proverbs, Riddles)	Survey	Every five years	
25	2530039	Education & Culture	Percentage of Households with a Home Library	Indicator measures the extent of households that have home library	Dividing the number of households with home library by total number of households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every five years	
25	2530040	Education & Culture	Percentage of Children who Visit Cultural Institutions	Indicator measures children visits to cultural institutions	Dividing the number of children who visit cultural institutions by the total number of children, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every five years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530041	Education & Culture	Percentage of Individuals (10 Years and above) who have Leisure Time	Indicator measures the percentage of individuals (10 years and above) who have leisure time	Dividing the number of individuals (10 years and above) who have leisure time by the total number of individuals (10 years and above), multiplied by hundred	Percentage	Country, Region, Governorate	Sex, leisure time (a lot, enough, little)	Survey	Every five years	
25	2530042	Education & Culture	Percentage of Individuals (10 Years and above) who Wish to do a Cultural Activity in their Leisure Time and Did not Do it	Indicator measures the percentage of individuals (10 years and above) who wish to do a cultural activity in their leisure time but did not do it	Dividing the number of individuals (10 years and above) who wish to do a cultural activity in their leisure time and did not do it by the total number of individuals (10 years and above), multiplied by hundred	Percentage	Country, Region, Governorate	Sex, and main activity that he\she willing to perform	Survey	Every five years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530043	Education & Culture	Percentage of Individuals (10 Years and above) who Listen to Voice of Palestine Station	Indicator measures the prevalence of listening to the voice of Palestine station by individuals (10 years and above)	Dividing the number of individuals (10 years and above) who listen to voice of Palestine by the total number of individuals within the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Sex	Survey	Every five years	
25	2530044	Education & Culture	Percentage of Individuals (10 Years and above) who Listen to Radio	Indicator measures the percentage of individuals (10 years and above) that listen to radio	Dividing the number of individuals (10 years and above) that listen to radio by the total number of individuals within the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Sex, and the most frequent listening place (at home, at work, while traveling, other)	Survey	Every five years	
25	2530045	Education & Culture	Percentage of Individuals (10 Years and above) that Watch TV	Indicator measures the prevalence of watching TV by individuals (10 years and above)	Dividing the number of individuals (10 years and above) that watch TV by the total number of individuals in this age group multiplied by hundred	Percentage	Country, Region, Governorate	Sex	Survey	Every five years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530046	Education & Culture	Percentage of Individuals (10 Years and above) who Read Newspapers	Indicator measures the extent of reading newspapers among individuals	Dividing the number of individuals (10 years and above) who read daily newspapers by the total number of individuals (10 years and above), multiplied by hundred	Percentage	Country, Region, Governorate	Sex	Survey	Every five years	
25	2530047	Education & Culture	Percentage of Individuals (10 Years and above) who have the Habit of Reading	Indicator measures the extent of the reading habit among individuals (10 years and above)	Dividing the number of individuals (10 years and above) who have the habit of reading by the total number of individuals (10 years and above) multiplied by hundred	Percentage	Country, Region, Governorate	Sex	Survey	Every five years	
25	2530048	Education & Culture	Percentage of Individuals (10 Years and above) who Belong to Public Institutions	Indicator measures the percentage of individuals (10 years and above) who belong to Public institutions	Dividing the number of individuals (10 years and above) who belong to Public institutions by the total number of individuals (10 years and above), multiplied by hundred	Percentage	Country, Region, Governorate	Sex, type of Institution (sport clubs, cultural clubs, public library, societies, trade union /federation, political party, youth movement)	Survey	Every five years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530049	Education & Culture	Enrollment Rate for Individuals (6 Years and above)	Indicator measures the percentage of individuals (6 years and above) enrolled or who were enrolled in formal education	Dividing the number of individuals (6 years and above) enrolled or who were enrolled in formal education in certain place and time, by the total number of population who are (6 years and above), multiplied by hundred	Rate	Country, Region	Sex, age groups.	Survey, Census	Annual	
25	2530050	Education & Culture	Ratio of Females to Males in Education Stages	Indicator measures the extent of female enrollment in basic education compared to males and compares the result by sex ratio in the parallel age group in the community, the difference indicates the defect, if it exists	Dividing the number of females enrolled in basic education by the number of males at the same stage multiplied by hundred. The result could be more than hundred/ hundred	Ratio	Country, Region, Governorate	Stage of education (Kindergartens, Basic, Secondary, Higher Education)	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530051	Education & Culture	Dropout Rate	Indicator measures proportion of students from a cohort enrolled in a given stage at a given scholastic year who are no longer enrolled in the following scholastic year.	Subtracting the sum of promotion rate and repetition rate from hundred in the given scholastic year.	Rate	Country, Region, Governorate	Sex, stage of education (Basic, Secondary)	Administrative Records	Annual	
25	2530052	Education & Culture	Percentage of students Starting Grade One Who Reach Last Grade of Primary Education	Indicator measures the extent students complete entire basic education	Percentage of total students who complete successfully (or graduated from) the last year of basic education stage in a given year, by the total number of students officially in graduating age, (number of student who are above specified grade age may be included within the numerator, of repeaters in one or more classes in the basic stage, but now they are graduated to their success, multiplied by hundred	Percentage	Country, Region	Sex	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530053	Education & Culture	Total of Repetition	Indicator measures the number of students who are enrolled in the same grade as the previous year, expressed as a percentage of total enrolment in the given grade of education	Dividing the number of students repeating a given grade in a given scholastic year by the number of students enrolled in the same grade in the same scholastic year and multiply by hundred. It can be calculated for the whole stage of education by dividing the sum of repeaters in all grades of the given stage by the total enrolment of that stage of education, multiplied by hundred	Rate	Country, Region, Governorate	Sex, stage of education (Primary, Secondary)	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530054	Education & Culture	The Percentage of the Palestinian Population (15 Years and above) who Completed Successfully an Educational Stage	Indicator measures the percentage of the Palestinian population (15 years and above) who completed successfully an educational Stage	Dividing the number of Palestinian population (15 years and above) who completed successfully an educational stage by the total population of the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Sex, qualification (None, Primary, Preparatory, Secondary, Associate Diploma, Bachelor degree or higher)	Survey, Census	Annual	
25	2530055	Education & Culture	Literacy Rate	Indicator measures the number of literate persons in a given age group, expressed as a rate of the total population in that age group. The adult literacy rate measures literacy among persons aged 15 years and above, and the youth literacy rate measures literacy among persons aged 15 years and above	Dividing the number of literates of a given age range by the corresponding age group population, multiplied by hundred. Alternatively, apply the same method using the number of illiterates to derive the illiteracy rate; or by subtracting the literacy rate from hundred	Percentage	Country, Region, Governorate	Sex, age groups	Survey, Census	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530056	Education & Culture	Participation rate in organized learning (one year before the official primary entry age)	Indicator measures the percentage of children in the given age range who participate in one or more organized learning program, including programs which offer a combination of education and care. Participation in early childhood and in primary education are both included. the official age for entry to primary education in Palestine is 6 years.	The number of children in the relevant age group who participate in an organized learning programme is expressed as a percentage of the total population in the same age range.	Rate	Country	Sex	Administrative Records	Annual	SDGs Indicator 4.2.2
25	2530057	Education & Culture	Parity indices (female/male, rural/urban, bottom/top wealth quintile and others such as disability status, indigenous peoples and conflict-affected, as data become available) for all education indicators on this list that can be disaggregated	Parity indices require data for the specific groups of interest. They represent the ratio of the indicator value for one group to that of the other. Typically, the likely more disadvantaged group is placed in the numerator. A value of exactly 1 indicates parity between the two groups.	The indicator value of the likely more disadvantaged group is divided by the indicator value of the other sub-population of interest.	Rate	Country	Sex, Disability	Survey, Census Administrative Records,	Annual	SDGs Indicator 4.5.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530058	Education & Culture	Proportion of schools with access to: (a) electricity; (b) the Internet for pedagogical purposes; (c) computers for pedagogical purposes; (d) adapted infrastructure and materials for students with disabilities; (e) basic drinking water; (f) single-sex basic sanitation facilities; and (g) basic hand washing facilities (as per the WASH indicator definitions)	Indicator measures the percentage of schools by level of education (primary education) with access to the given facility or service.	Dividing The number of schools in a given level of education with access to the relevant facilities by all schools at that level of education, multiplied by hundred	Percentage	Country, Region	Level of Education	Administrative Records	Annual	SDGs Indicator 4.a.1
25	2530059	Education & Culture	Volume of official development assistance flows for scholarships by sector and type of study	Indicator measures the gross disbursements of total ODA from all donors for scholarships.	The sum of ODA flows from all donors to developing countries for scholarships.	Million US Dollar	Country	Sector, and Type of study	Estimated by Organization for Economic Co-operation and Development (OECD)	Annual	SDGs Indicator 4.b.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530060	Education & Culture	Proportion of teachers in: (a) pre-primary; (b) primary; (c) lower secondary; and (d) upper secondary education who have received at least the minimum organized teacher training (e.g. pedagogical training) pre-service or in-service required for teaching at the relevant level in a given country	Indicator measures the percentage of teachers by level of education taught (pre-primary, primary, lower secondary and upper secondary education) who have received at least the minimum organized pedagogical teacher training pre-service and in-service required for teaching at the relevant level in a given country	The number of teachers in a given level of education who are trained is expressed as a percentage of all teachers in that level of education multiplied by hundred.	Percentage	Region	Educational level	Administrative Records	Annual	SDGs Indicator 4.c.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530061	Education & Culture	Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading (ii) numeracy	Percentage of children who successfully completed three foundational reading tasks (i) Age 7-14 years (ii) Age for grade 2/3 (iii) Attending grade 2/3. Percentage of children who successfully completed four foundational numeracy tasks (i) Age 7-14 years (ii) Age for grade 2/3 (iii) Attending grade 2/3	The number of children and/or young people at the relevant stage of education in a scholastic year achieving or exceeding the pre-defined proficiency level in subject expressed as a percentage of the number of children and/or young people at the same stage of education, in the same scholastic year , in any proficiency level in subject.	Percentage	Region	Sex	Multiple Indicator Cluster Survey	Five years	SDG 4.1.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2530062	Education & Culture	Proportion of children 3-4 years of age who are developmentally on track in health, learning and psychosocial well-being.	Percentage of children age 36-59 months who are developmentally on track in at least three of the following four domains: literacy-numeracy, physical, social-emotional, and learning	The number of children aged 24 to 59 months who are developmentally on track in health, learning and psychosocial well-being divided by the total number of children aged 24 to 59 months in the population multiplied by 100.	Percentage	Region	Sex	Multiple Indicator Cluster Survey	Five years	SDG 4.2.1
25	2530063	Education & Culture	Completion rate (primary education, lower secondary education, upper secondary education)	Percentage of a cohort of children or young people aged 3-5 years above the intended age for the last grade of each level of education who have completed that grade.	The number of persons in the relevant age group who have completed the last grade of a given level of education is divided by the total population (in the survey sample) of the same age group.	Rate	Region	Sex	Labor Force Survey	Annual	SDG 4.1.2

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Health Statistics						Subject Code: 2535					
25	2535001	Health	Number of Entries of Patients	Indicator measures the number of patient admissions (access to a hospital or medical institution for examination or treatment and staying for at least one day or night)	Total number of entries of patients (access to a hospital or medical institution for examination or treatment and staying for at least one day or night)	Number	Country, Region, Governorate		Administrative Records	Annual	
25	2535002	Health	Number of Beds	Indicator measures the number of beds	Total number of beds in hospitals	Number	Country, Region, Governorate	Supervisory Authority (Government, NGOs, UNRWA, Military), Type of hospital (General, Specialized, Births, Psychiatric)	Administrative Records	Annual	
25	2535003	Health	Number of Dentists	Indicator measures the availability of dentists	Total number of dentists at a specific time and place	Number	Country, Region, Governorate	Sex	Administrative Records	Annual	
25	2535004	Health	Number of Physicians	Indicator measures the availability of physicians	Total number of physicians regardless of specialization	Number	Country, Region, Governorate	Sex	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535005	Health	Number of Disabled Children	Indicator measures the prevalence of disability among children in the community (0-17) years due to disability or physical disability that limits or prevents their ability as compared with normal children matched by age, sex and social conditions	Total number of disabled children	Number	Country, Region, Governorate	Sex, type of disability	Survey	Unspecified Periodicity	
									Census	Every ten years	
25	2535006	Health	Number of Hospitalization Days	Indicator measures the number of hospitalization days	Total number of nursing days	Number	Country, Region, Governorate		Administrative Records	Annual	
25	2535007	Health	Number of Outpatient Visits	Indicator measures the number of outpatient visits	Total number of the outpatient visits	Number	Country, Region, Governorate	Clinic (Ophthalmology, Ear, Nose and Throat, Skin, heart surgery, Plastic Surgery, Pediatric Surgery,...)	Administrative Records	Annual	
25	2535008	Health	Number of Pharmacists	Indicator measures the availability of pharmacists	Total number of pharmacists	Number	Country, Region, Governorate	Sex	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535009	Health	Number of Assistance Medical Staff	Indicator measures the availability of medical staff assistance	Total number of assistance medical staff	Number	Country, Region, Governorate	Sex, occupation type (Laboratory Technicians, Anesthesia Technicians, Radiologists,..)	Administrative Records	Annual	
25	2535010	Health	Number of Health Clinics	Indicator measures the number of health clinics	Total number of health clinics	Number	Country, Region, Governorate		Administrative Records	Annual	
25	2535011	Health	Number of Maternal and Childhood Centers	Indicator measures the number of maternal and childhood centers	Total number of maternal and childhood centers	Number	Country, Region, Governorate		Administrative Records	Annual	
25	2535012	Health	Number of Hospitals	Indicator measures the availability of hospitals	Total number of hospitals regardless of the supervising authority	Number	Country, Region, Governorate	Supervising Authority (Governmental and Non-Governmental)	Administrative Records	Annual	
25	2535013	Health	Number of Nurses	Indicator measures the availability of nurses	Total number of nurses	Number	Country, Region, Governorate		Administrative Records	Annual	
25	2535014	Health	Overall Beds Occupancy Rate	Indicator measures the rate of available beds which have been occupied over a given period	Dividing the number of days of staying of patients admitted to hospitals by the number of beds available, multiplied by the number of days of the year	Rate	Country, Region, Governorate		Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535015	Health	Average Number of Beds per thousand of Population	Indicator measures the availability of nursing beds for population	Dividing the total number of beds in hospitals by total number of population, multiplied by thousand	Rate	Country, Region, Governorate		Administrative Records	Annual	
25	2535016	Health	Average Number of Physicians per thousand of Population	Indicator measures the availability of physicians for the people in the country	Dividing the number of working physicians in a certain time and place by the total number of the population, multiplied by thousand	Rate	Country, Region, Governorate		Administrative Records	Annual	SDGs Indicator 3.c.1
25	2535017	Health	Average Number of Nurses per thousand of Population	Indicator measures the availability of nurses for the people in the country	Dividing the number of working nurses in a certain time and place by the total number of the population, multiplied by thousand	Rate	Country, Region, Governorate	Sex	Administrative Records	Annual	SDGs Indicator 3.c.1
25	2535018	Health	Average length of Stay in Hospitals	Indicator measures the average length of stay of patients in hospitals	Dividing the total number of days spent by patients in hospitals by the number of patients during a specified period of time	Rate	Country, Region, Governorate		Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535019	Health	Weight at Birth Rate	Indicator measures the first weight of a newborn, the normal weight for a newborn is 2.5-4 kg at birth, comparing this indicator to normal birth weight provides an understanding about the health of newborns	Dividing the total weight of newborns in kilograms in specified period of time by their number	Rate	Country, Region, Governorate		Survey	Every four years	
25	2535020	Health	Maternal Mortality Rate	Indicator measures the number of mothers who die due to pregnancy and childbirth per hundred thousand live births in a given year	Dividing number of mothers who died due to causes related to pregnancy or childbirth, during pregnancy or 6 weeks after birth by the number of live births, multiplied by hundred thousand	Rate	Country	Age groups	Administrative Records	Annual	SDGs Indicator 3.1.1
25	2535021	Health	Adolescent Birth Rate	Indicator measures the average number of births to adolescent wives per thousand births in a given year.	Dividing the total number of births for a group of married adolescent females (15-19 years) by their total number, multiplied by thousand	Rate	Country, Region, Governorate		Survey	Every four years	SDGs Indicator 3.7.2

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535022	Health	Percentage Use of Family Planning Methods	Indicator measures the extent to which spouses use (one or both of them) family planning methods	Dividing the number of women aged 15-49 years currently married at the reference period who use (by themselves or by their husbands) any method of family planning by the total number of women currently married in same age group at the reference period, multiplied by hundred	Percentage	Country, Region, Governorate	Type of family planning methods	Survey	Every four years	
25	2535023	Health	Percentage of Continuation of Breastfeeding	Indicator measures the rate of continuation of breastfeeding among children aged two years or less	Dividing the number of children who are still breastfed (from specific age groups, 6 months, year, 23 months, two years) by the total number of children in these age groups, multiplied by hundred	Percentage	Country, Region, Governorate	Sex	Survey	Every four years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535024	Health	Percentage of Households Using Safe Drinking Water Source	Indicator measures the extent of availability of safe sources of drinking water for population	Dividing number of households that use safe source of drinking water by the total number of households in Palestine, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every four years	
25	2535025	Health	Percentage of Households Consuming Iodized Salt	Indicator measures the extent of household consumption of iodized salt	Dividing the number of households that consume iodized salt by the total number of households, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every four years	
25	2535026	Health	Percentage of Children under Five who were Breastfed	Indicator measures the prevalence of breastfeeding	Dividing number of children under five who were breastfed by total number of children in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Sex, age in months, mother's education	Survey	Every four years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535027	Health	Percentage of Children (under 5 Years) who are Ill	Indicator measures the extent of infection by diseases among children aged less than 5 years	Dividing number of children (under 5 years) who infected by diseases by the total number of children in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Type of disease (Diarrhea, Respiratory infections), age in months, sex, mother's education	Survey	Every four years	
25	2535028	Health	Percentage of Children who Received Nutrition	Indicator measures the extent of giving nutrients to children in infancy	Dividing number of children who received nutrition by total number of children in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Type of Nutrition (Subsidized, Complementary), sex, age in months, mother's education	Survey	Every four years	
25	2535029	Health	Percentage of Children (0-11 Months) who Received Vitamin A/D	Indicator measures the extent of receiving vitamin A/D by children aged (0-11 months)	Dividing the number of children who received vitamin A/D by total number of children in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Sex, age in months, mother's education	Survey	Every four years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535030	Health	Percentage of Children under 5 Years who Suffer from Anemia	Indicator measures the prevalence of anemia among children	Dividing the number of children with anemia under five years by the total number of children within the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Age in months, sex, mother's education	Survey	Every four years	
25	2535031	Health	Percentage of Children (0 - 5) Months who were Exclusively Breastfed	Indicator measures the extent of exclusive breastfeeding the children (0-5 months)	Dividing number of children (0-5 months) who were exclusively breastfed by total number of children in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Sex, age in months, mother's education	Survey	Every four years	
25	2535032	Health	Percentage of Children under 5 years of age who suffer from Underweight	Indicator measures the percentage of children under age 5 who fall below minus two standard deviations of the median weight for age of the WHO standard	Dividing the number of children under 5 years who fall below minus two standard deviations of the median weight for age of the WHO standard by the total number of children in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Age in months, Sex, Mother's education	Survey	Every four years	SDGs Indicator 2.2.2

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535033	Health	Percentage of Individuals who have Health Insurance	Indicator measures the percentage of individuals who have health insurance	Dividing the number of individuals who have health insurance by total number of individuals, multiplied by hundred	Percentage	Country, Region, Governorate	Type of insurance, sex, age groups	Survey	Every four years	
25	2535034	Health	Percentage of Individuals who Suffer at Least from a Chronic Disease Diagnosed by a Physician	Indicator measures the percentage of individuals who suffer at least from a chronic disease diagnosed by a physician	Dividing the number of individuals who suffer at least from a chronic disease diagnosed by a physician by total number of individuals, multiplied by hundred	Percentage	Country, Region, Governorate	Sex	Survey	Every four years	
25	2535035	Health	Prevalence Percentage of Using Rehydration Solution (for Children under 5 Years Old)	Indicator measures the prevalence of the use of rehydration solution	Dividing the number of children (under the age of 5 years) who received treatment by rehydration solution by the total number of children in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every four years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535036	Health	Percentage of Prevalence of Disability	Indicator measures the prevalence of disability	Dividing the number of individuals who have a disability according to the standard definition of disability by the total number of individuals, multiplied by hundred	Percentage	Country, Region, Governorate	Type of disability, sex, age groups, reason)	Survey	Unspecified periodicity	
									Census	Every ten years	
25	2535037	Health	Antenatal Care Coverage Percentage (Before Giving Birth by Qualified Medical Staff)	Indicator measures the extent of care received by pregnant women (15-49 years) during pregnancy (at least one visit). (health care provided to pregnant women during pregnancy by qualified medical staff)	Dividing the number of women in the age group (15-49 years) who were supervised by qualified medical staff during pregnancy within the two previous years before the survey by the number of women in the same age group who gave live births during the two years preceding the survey, multiplied by hundred	Percentage	Country, Region, Governorate	Mother age in years, mother's education)	Survey	Every four years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535038	Health	Immunizations Coverage for Children Aged (12 - 23) Months	Indicator measures the coverage of immunizations programs against diseases (a way for the formation of immune resistance against repeated infection through different vaccinations)	Dividing the number of children aged 12-23 months immunized against diseases by the total number of children in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every four years	
25	2535039	Health	Percentage of Vaccination Coverage (all vaccines) for Children (12-23) Months	Indicator measures the coverage of immunizations programs for children aged (12-23) months	Dividing the number of immunized aged (12 - 23 months) by the total number of children in this age group, multiplied by hundred	Percentage	Country, Region, Governorate	Type of vaccination (Polio vaccination, BCG vaccination, MMR vaccination, DPT vaccine, Measles vaccination)	Survey	Every four years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535040	Health	Percentage of Receiving Post-Natal Care	Indicator measures the extent to which women (15 -49 years old) receive medical care after birth (i.e. care provided to women after childbirth through qualified medical staff (doctor, nurse, or midwife)	Dividing the number of women (15-49 years) who received medical care after birth (at least one visit) by the total number of women in the targeted community (who gave birth during reference period) in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Mother age in years, mother's education)	Survey	Every four years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535041	Health	Percentage of Unmet Needs in the Field of Family Planning	Indicator measures the percentage of women (15-49 years) currently married in the reference period and who desire to avoid or postpone pregnancy and not using family planning to all women in the same age group	Dividing of the number of women aged 15-49 years and currently married in the reference period and who desire to avoid or delay pregnancy and who are not using family planning methods at present at the reference period by the total number of women in the same age group and are married at reference period, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every four years	
25	2535042	Health	Percentage of Smokers	Indicator measures the percentage of individuals (18 years and above) who consume smoked tobacco	Dividing the number of individuals (18 years and above) who consume smoked tobacco, by the total number of individuals within the same age, multiplied by hundred	Percentage	Country, Region, Governorate	Tobacco type(Smoke hookah, Cigarettes, Pipes), sex, age groups.	Survey	Every four years	SDGs Indicator 3.a.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535043	Health	Percentage of Adolescent Women Aged (15-19) Years who are Mothers	Indicator measures the percentage of the phenomenon of adolescent mothers in Palestinian society	Dividing the number of women aged (15-19) years who are mothers by total number of married women in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Age groups	Survey	Every four years	
25	2535044	Health	Percentage of Adolescent Women Aged (15-19) Years Pregnant for the First Time	Indicator measures the percentage of adolescent women who are pregnant for the first time, of married adolescent girls	Dividing the number of women aged (15-19) years who are pregnant for the first time by total number of married women in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every four years	
25	2535045	Health	Percentage of Women (15 - 49 Years) who Suffer from Anemia	Indicator measures the prevalence of anemia among women in the age group (15-49) years	Dividing the number of women in the age group (15-49) years who suffer from anemia by the total number of women within the same age, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every four years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535046	Health	Percentage of Women Aged 15-49 Years with Comprehensive Knowledge about the Prevention of Infection by HIV/AIDS	Indicator measures the percentage of women with comprehensive knowledge about the prevention of infection by HIV/AIDS	Dividing the number of women (15-49 years) who know two correct methods of prevention of infection with human immunodeficiency (HIV) and who understand that a person who appears to be healthy can be infected with HIV and who know two erroneous facts about modes of transmission of the virus that causes AIDS by the total number of women in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every four years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535048	Health	Percentage of Women who Received Folic Acid and Iron During Pregnancy	Indicator measures the extent of receiving folic acid and iron during pregnancy by women	Dividing the number of women (15-49 years) who received iron and folic acid (vitamins) during pregnancy by the total number of pregnant women in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every four years	
25	2535049	Health	Percentage of Births under the Supervision of Qualified Medical Staff	Indicator measures the extent of births under the supervision of qualified medical staff	Dividing the number of women (15-49 years) who gave live births during the two years preceding the survey and who were supervised by qualified medical staff by the number of women in the same age group who gave live births, multiplied by hundred	Percentage	Country, Region, Governorate		Survey	Every four years	SDGs Indicator 3.1.2

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535050	Health	Percentage of Children under 5 years of age who suffer from stunting	Indicator measures the percentage of children under age 5 who fall below minus two standard deviations of the median height for age of the WHO standard	Dividing the number of children under 5 Years who fall below minus two standard deviations of the median height for age of the WHO standard by the total number of children in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Age in months, sex, mother's education	Survey	Every four years	SDGs Indicator 2.2.1
25	2535051	Health	Percentage of Children under 5 years of age who suffer from wasting	Indicator measures the percentage of children under age 5 who fall below minus two standard deviations of the median weight for height of the WHO standard	Dividing the number of children under 5 Years who fall below minus two standard deviations of the median weight for height of the WHO standard by the total number of children in the same age group, multiplied by hundred	Percentage	Country, Region, Governorate	Age in months, sex, mother's education	Survey	Every four years	SDGs Indicator 2.2.2

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535052	Health	Percentage of met Needs in the Field of Family Planning	Indicator measures the percentage of married women in reproductive age (15-49 years) who desire either to have no (additional) children or to postpone the next child and who are currently using a modern contraceptive method.	Dividing the number of married women in reproductive age (15-49 years old) who are currently using at least one modern contraceptive method. by the total demand for family planning (the sum of contraceptive prevalence (any method) and the unmet need for family planning). multiplied by hundred	Percentage	Country, Region, Governorate	Age in months, sex, mother's education	Survey	Every four years	SDGs Indicator 3.7.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535053	Health	Number of new HIV infections per thousand uninfected population	Indicators measures the number of new HIV infections per thousand uninfected population, by sex, age and key populations as defined as the number of new HIV infections per thousand person-years among the uninfected population.	Dividing number of new HIV infections during a given year by mid-year population multiplied by thousand	Infection/ thousand uninfected population	Country, Region	Age group, sex, key populations	Administrative Records	Annual	SDGs Indicator 3.3.1
25	2535054	Health	Tuberculosis incidence per hundred thousand population	Indicator measures the estimated number of new and relapse TB cases (all forms of TB, including cases in people living with HIV) arising in a given year, expressed as a rate per hundred thousand population.	Dividing number of tuberculosis cases notified during a given year by mid-year population multiplied by hundred thousand	Incidence/ hundred thousand	Country, Region		Administrative Records	Annual	SDGs Indicator 3.3.2
25	2535055	Health	Malaria incidence per thousand population	Indicators measures the number of new cases of malaria per thousand people at risk each year	Dividing number of Malaria cases notified during a given year by total population multiplied by thousand	Incidence/ thousand	Country, Region		Administrative Records	Annual	SDGs Indicator 3.3.3

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2535056	Health	Mortality rate attributed to cardiovascular disease, cancer, diabetes or chronic respiratory disease	Indicators measures the per cent of 30 year-old-people who would die before their 70th birthday from cardiovascular disease, cancer, diabetes, or chronic respiratory disease, assuming that s/he would experience current mortality rates at every age and s/he would not die from any other cause of death (e.g., injuries or HIV/AIDS)	This indicator is calculated applying the cause-specific mortality rate by only the four NCDs for each 5-year age between the age 30 and 70 years	Rate	Country, Region		Administrative Records	Annual	SDGs Indicator 3.4.1

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
Gender Statistics Subject Code: 2546											
25	2546001	Gender	Numbers of Legislative Council Election Candidates	Indicator measures the number of legislative council election candidates	Total number of legislative council election candidates	Number	Country, Region	Sex	Administrative Records	Every four years	
25	2546002	Gender	Number of Holders of Senior Positions	Indicator measures the number of staff in senior positions in ministries, including ministers agents, general directors and department directors	Total number of staff in senior positions in ministries, including ministers agents, general directors and department directors	Number	Country, Region	Sex	Administrative Records	Annual	
25	2546003	Gender	Number of Members of Municipalities and Local Councils	Indicator measures the number of members of municipalities and local councils	Total number of members of municipalities and local councils	Number	Country, Region, Governorate	Sex	Administrative Records	Annual	
25	2546004	Gender	Number of Students Councils Members	Indicator measures the number of students councils members in colleges and universities	Total number of students councils members in colleges and universities	Number	Country, Region, Governorate	Sex	Administrative Records	Annual	
25	2546005	Gender	Numbers of Legislative Council Members	Indicator measures the number of legislative council members	Total number of legislative council members	Number	Country, Region	Sex	Administrative Records	Every four years	
25	2546006	Gender	Number of Cabinet Members	Indicator measures the number of the cabinet members	Total number of cabinet members	Number	Country, Region	Sex	Administrative Records	Annual	
25	2546007	Gender	Number of Palestinian National Council Members	Indicator measures the number of national council members	Total number of national council members	Number	Country, Region	Sex	Administrative Records	Annual	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2546008	Gender	Number of Labor Unions Members	Indicator measures the number of members in labor unions	Total number of members in labor unions	Number	Country, Region	Sex	Administrative Records	Annual	
25	2546009	Gender	Number of Ambassadors and Staff in the Ministry of Foreign Affairs	Indicator measures the number of ambassadors and staff in the Ministry of Foreign Affairs	Total number of ambassadors and staff in the Ministry of Foreign Affairs	Number	Country, Region	Sex	Administrative Records	Annual	
25	2546010	Gender	Number of Journalists Registered with a Press Card	Indicator measures the number of journalists who are registered and have a press card	Total number of journalists who are registered and have a press card	Number	Country, Region	Sex	Administrative Records	Annual	
25	2546012	Gender	Average Actual Time Used to Implement Activities for Individuals who Implement the Activity	Indicator measures the average time spent by individuals who actually practiced various activities in the 24 hours	Dividing the time spent by individuals in the activities for those who actually implement the activity, by the number of those individuals	Rate, Minute/ Hour	Country, Region	Activities, Age groups, Sex, Educational status, Employment status, Locality type	Survey	Every ten years	
25	2546013	Gender	Average Time Used by Individuals to Implement Activities whether they do the Activity or not	Indicator measures the average time used by individuals in the implementation of activities, whether performed or not	Dividing the time that spent by individuals in the implementation of activities, whether accomplished activity or not, by the number of those individuals	Rate, Minute/ Hour	Country, Region	Activities, Age groups, Sex, Educational status, Employment status, Locality type	Survey	Every ten years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2546014	Gender	Percentage of Children (12-17) Years who have been Subjected Once at Least to a Form of Violence	Indicator measures percentage of children (12-17) years who have been subjected once at least to a form of violence	Dividing total number of children (12-17) years who have been subjected once at least to a form of violence, by total number of children (12-17) years, multiplied by hundred	Percentage	Country, Region, (North, Middle and South of West Bank)	Sex, Type of violence (by family members, by others), Orientations of children who are subjected to violence	Survey	Every five years	
25	2546015	Gender	Percentage of Individuals (65 Years and above) who have been subjected to a Form of Violence by a Family Member	Indicator measures percentage of individuals (65 years and above) who have been subjected to a form of psychological, physical, sexual, social or economic violence by a member of the family	Dividing total number of individuals (65 years and above) who have been subjected to a form of violence by a member of the family, by total number of individuals (65 years and above), multiplied by hundred	Percentage	Country, Region, (North, Middle and South of West Bank)	Sex, Type of violence (by family members, by others), Orientations of elders to address the phenomenon of violence	Survey	Every five years	
25	2546016	Gender	Percentage of persons who performed the activities	Indicator measures percentage of persons who performed the activities	Dividing total number of persons who did the activity by total members of the sample multiplied by hundred	Percentage	Country, Region	Sex, Education Status, Labour Status, Marital Status, Days	Survey	Every ten years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2546017	Gender	Percentage of Individuals who have Never Married (aged 18-64 Years) and Subjected to Violence by a Member of the Family	Indicator measures percentage of individuals who have never married (aged 18-64 years) and subjected to psychological, physical, sexual, social or economic violence by a member of the family	Dividing total number of individuals who have never married (aged 18-64 years) and subjected to violence by a member of the family, by total number of individuals who have never married (aged 18-64 years), multiplied by hundred	Percentage	Country, Region, Governorate	Sex, Educational status, Employment status, Aggressor, Violence by others not family members, Violence location, Refugee status, Age groups	Survey	Every five years	
25	2546018	Gender	Percentage of Females who have been Married and Subjected to a Form of Violence by the Husband	Indicator measures percentage of females who have been married and subjected to a form of psychological, physical, sexual, social or economic violence by husband	Dividing total number of females who have been married and subjected to a form of psychological, physical, sexual, social or economic violence by husband, by the total number of females who have been married, multiplied by hundred	Percentage	Country, Region, Governorate	Type of violence by husband, Orientation of women to address this phenomenon	Survey	Every five years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2546019	Gender	Percentage of Men who have been Subjected to a Form of Violence by the Wife, According to the Statement by their Wives	Indicator measures percentage of men who have been subjected to violence by the wife, whether such violence was psychological or physical, according to the statement by wife	Dividing total number of women who stated that their husbands have been subjected to violence according to wife statement, by total number of women who have been married and said so, multiplied by hundred	Percentage	Country, Region, Governorate	Educational status, Employment status, Refugee status, Age groups, Violence by others not family members, Type of violence (Psychological, Physical, Sexual Social or economic)	Survey	Every five years	
25	2546020	Gender	Percentage of Seats Held by Women in the Legislative Council	Indicator measures the percentage of seats held by women in the legislative council	Dividing the number of women in legislative council by the number of council members, multiplied by hundred	Percentage	Country, Region		Administrative Records	Every four years	SDGs Indicator 5.5.1
25	2546021	Gender	Percentage of Women who have been Married or any of Household Members who have been Subjected to Violence by Occupation Forces or Settlers	Indicator measures percentage of women who have been married or any of household members who have been subjected to violence by occupation forces or settlers	Dividing total number of women or any of household members who have been subjected to violence by occupation forces or settlers, by total number of women or members of household, multiplied by hundred	Percentage	Country, Region, Governorate	Educational status, Employment status, Refugee status	Survey	Every five years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
25	2546022	Gender	Percentage of Women who have been Married, and Subjected to a Form of Violence	Indicator measures percentage of women who have been subjected to a form of violence, (psychological, physical, sexual, social or economic)	Dividing total number of women who have been married and subjected to a form of violence, by the total number of women who have been married, multiplied by hundred	Percentage	Country, Region, Governorate	Educational status, Employment status, Refugee status, Age groups, Violence by others not family members, Type of violence (Psychological, Physical, Sexual Social or economic)	Survey	Every five years	SDGs Indicator 5.2.2
25	2546023	Gender	Number of heads of Local Councils	Indicator measures the number of heads of local councils	Total number of heads local councils	Number	Country, Region	Sex	Administrative Records	Annual	
25	2546024	Gender	Percentage of time devoted to unpaid domestic and caring work, by sex, age and location	Indicator measures the percentage of time devoted to household and unpaid care work, by sex, age and location	It is calculated by dividing the sum of the individuals who carried out the activities by the sum of the individuals of the sample multiplied by one hundred	percent	Country, Region	Activities, Age groups, Gender, Educational status, Working status, and Locality type	Survey	Every ten years	
25	2546025	Gender	Number of Orphaned Children	Indicator measures the number of orphaned children	Total number of orphaned children	Number	Country, Region		Administrative Records	Annual	
25	2546026	Gender	Number of Victimized Children	Indicator measures the number of victimized children	Total number of victimized children	Number	Country, Region	Age, Sex, Type of Criminal Offense	Survey, Administrative Records	Annual

45	4515006	Governance and Democracy	Percentage of Public Employees by their Opinion of Prevalence of Wasta/ Nepotism	Indicator measures the Percentage of Public Employees by their Opinion of Prevalence of Wasta/ Nepotism	Dividing the number of Public Employees who stated their opinion of prevalence of Wasta/ Nepotism by the total number of Public Employees, multiplied by hundred	Percentage	West Bank	Official Grade, Sex	Survey	Every five years	

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
45	4515007	Governance and Democracy	Prevalence of moderate or severe food insecurity in the population, based on the Food Insecurity Experience Scale (FIES)	The indicator measures the percentage of individuals in the population who have experienced food insecurity at moderate or severe levels during the reference period. The severity of food insecurity, defined as a latent trait, is measured on the Food Insecurity Experience Scale global reference scale, a measurement standard established by FAO through the application of the Food Insecurity Experience Scale in more than 140 countries worldwide, starting in 2014.	Data at the individual or household level is collected by applying an experience-based food security scale questionnaire within a survey. The food security survey module collects answers to questions asking respondents to report the occurrence of several typical experiences and conditions associated with food insecurity	Percentage	Country, Region	location, household income, composition, sex, age and education	Estimated by Food and Agriculture Organization of the United Nations (FAO)	Annual	SDGs Indicator 2.1.2

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
45	4515008	Governance and Democracy	Proportion of persons who had at least one contact with a public official and who paid a bribe to a public official, or were asked for a bribe by those public officials, during the previous 12 months	Indicator measures the percentage of persons who paid at least one bribe (gave a public official money, a gift or counter favor) to a public official, or were asked for a bribe by these public officials, in the last 12 months, as a percentage of persons who had at least one contact with a public official in the same period	The indicator is calculated as the total number of persons who paid at least one bribe to a public official in the last 12 months, or were asked for a bribe in the same period, over the total number of persons who had at least one contact with a public official in the same period, multiplied by hundred.	Percentage	Country, Region	Age and sex of bribe-givers, type of official income, level of bribe-givers education, attainment of bribe-givers	Survey	Every five years	SDGs Indicator 16.5.1
45	4515009	Governance and Democracy	Proportion of businesses that had at least one contact with a public official and that paid a bribe to a public official, or were asked for a bribe by those public officials during the previous 12 months	Indicator measures the proportion of firms asked for a gift or informal payment when meeting with tax officials	The indicator is calculated for each country, by looking at the proportion of firms which answered 'yes' to the survey question. For all Enterprise Survey projects conducted since 2006, the resulting dataset has sampling weights. Hence the indicator value, which is computed using Stata, incorporates these sampling weights as well as the design strata.	Percentage	Country, Region	Gender of top manager, primary business activity of the firm, sub national location of the firm, exporting status, number of employees, degree of foreign ownership	Survey	Every five years	SDGs Indicator 16.5.2

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
45	4515010	Governance and Democracy	Number of countries that have national statistical legislation that complies with the Fundamental Principles of Official Statistics	Indicator measures the number of countries that have national statistical legislation that complies with the Fundamental Principles of Official Statistics. This refers to the number of countries that have a statistical legislation which respects the principles of UNFOP.	Countries of which the law has provisions relating to all the ten Principles	Number	Country, Region		Administrative Records	Annual	SDGs Indicator 17.18.2
45	4515011	Governance and Democracy	Number of countries with a national statistical plan that is fully funded and under implementation by source of funding	Indicator measures a count of countries that are either implementing a strategy, designing one or awaiting adoption of the strategy in the current year.	Number of countries with a national statistical plan that is fully funded and under implementation by source of funding	Number	Country, Region		Administrative Records	Annual	SDGs Indicator 17.18.3

Area Code	Indicator Code	Subject	Indicator	Definition	Measurement Method	Unit of measure	Geographical Coverage Level	Level of Details	Data source	Dissemination Periodicity	SDGs Indicator
45	4515012	Governance and Democracy	Dollar value of all resources made available to strengthen statistical capacity in developing countries	Indicator measures the Dollar value of all resources made available to strengthen statistical capacity in developing countries is based on the Partner Report on Support to Statistics (PRESS) that is designed and administered by PARIS21 to provide a snapshot of the US dollar value of ongoing statistical support in developing countries.
